PARTNERSHIP OVERVIEW

Built for programs that need reliable testing support

Gorgeous TruckHers Inc. supports schools, carriers, and workforce partners that need a dependable CDL State Examiner service. Our goal is simple: professional communication, organized scheduling, consistent testing standards, and documentation partners can trust.

01

CDL Schools & Academies

Support for scheduled cohorts, recurring test days, and student-focused testing experiences.

02

Private Training Providers

Testing coordination for independent programs that need a professional examiner partner.

03

Carriers & Fleet Programs

Testing support for fleet hiring, driver development, and internal training pathways.

04

Workforce & Community Partners

Testing support for organizations preparing participants for transportation careers.

What We Provide

Testing & Scheduling

- On-site CDL skills testing coordination for Vehicle Inspection/Pre-Trip, Basic Vehicle Control, and Road Test.
- Scheduling and communication designed around cohort size, location, test dates, and program needs.
- Professional testing environment built around fairness, consistency, and candidate readiness.

Documentation & Standards

- Timely documentation and reporting aligned with applicable state CDL testing processes.
- Audit-ready record support and organized follow-up after testing is complete.
- A respectful, student-focused approach that protects standards without intimidating candidates.

HOW PARTNERSHIP WORKS

A clear process keeps test day moving

We keep the process simple so your team knows what is needed before, during, and after testing. No guessing. No scrambling. No test-day chaos if we can prevent it.

1

Inquiry

Share preferred test dates, cohort size, location, vehicle class, and testing needs.

2

Set-Up

We review availability, site needs, vehicle expectations, and candidate readiness requirements.

3

Test Day

CDL skills testing is conducted professionally and consistently at the approved location.

4

Wrap-Up

Documentation, reporting, and any required follow-up are completed in a timely manner.

Scheduling Note

For best availability, testing should be requested at least 2-3 weeks in advance. Rush options may be available depending on location, examiner availability, and testing volume.

READINESS CHECKLIST

Before we test, the foundation must be right

A smooth testing day starts before the examiner arrives. Partners are responsible for confirming the location, vehicle, student eligibility, and required documentation are ready and compliant with applicable state standards.

Testing Location

Provide a safe, compliant testing location with the required space, route access, and permission to conduct testing.

Test Vehicles

Ensure vehicles are road-ready, properly registered/insured, and meet applicable state CDL testing standards.

Candidate Eligibility

Confirm each candidate is eligible to test and has required documents such as valid CLP/CDL permit, identification, and medical status documentation when applicable.

ELDT Readiness

Confirm ELDT completion is handled when required for first-time CDL, upgrade, or endorsement applicants.

Scheduling

Submit dates, roster size, vehicle class, and site details at least 2-3 weeks in advance when possible.

Communication

Provide a designated point of contact for testing day logistics, documents, and follow-up.

Why Partner With Us

- 24+ years of transportation, training, and compliance experience
- Professional communication and dependable scheduling
- Consistent testing standards and documentation support
- Student-focused approach with accountability

Next Steps

- Email your requested testing dates and location.
- Include cohort size, vehicle class, and test-day contact.
- We will confirm availability and next steps.
