A program designed to help educators help their students in need.

A 5<sup>th</sup> grader had been wearing cleats to school because he didn't have any shoes that would fit. We bought him a pair of tennis shoes. With a huge smile on his face, the little boy said "I always wanted shoes like this!"

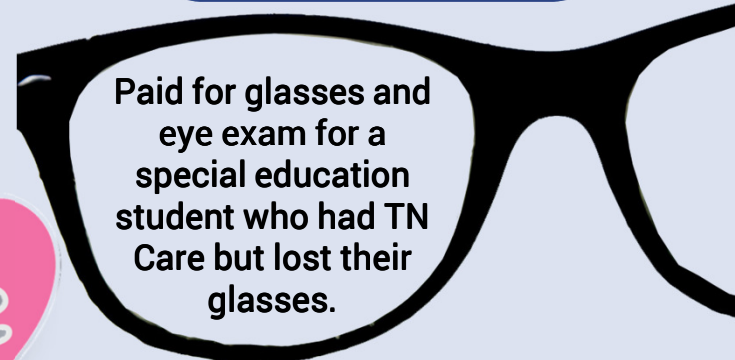

A third grade teacher had a student in her class who wore the same shirt and shorts every day of the week. With the United Way Children's Fund, the teacher purchased new shoes, underwear, socks, shirts, shorts and jeans. When presented with all of this, the student came alive. He was proud of his new clothes. A little boost of dignity and confidence goes a long way in the success of a child.
