---	---

Bridge the Gap Malvern (BTGM) accepts students aged 16+ onto a 2 year program called RESET.

BTGM is a remote learning centre located near Hanley Swan. We provide remote education and work face-to-face on transitioning and employment skills in the local community throughout Worcestershire.

Applicants must:

1. Have an Educational Health Care Plan (EHCP)
2. Be referred by their secondary school, with whom they are on roll; Worcestershire Children's First; or another educational establishment/department from a local authority.

How to Refer

Referrals must be received by schools. All referrals will be looked at individually and specific circumstances will be taken into account.

BTGM retains the right to refuse acceptance onto the programme if they feel they are not able to meet the student's social, emotional, learning or medical needs, or who they feel the risk is too great to be lone-working with particular young people.

Acceptance onto the Programme

Student's needs will be considered on an individual basis and a bespoke programme agreed, with the parents/carers and the referring school and in agreement with the local authority SEND department.
