You're Reading a Free Preview Page 2 is not shown in this preview. Our IPAF Mobile Elevated Working Platforms (MEWPs), or Cherry Picker, training courses are designed to give the learner the basic knowledge and practical skills involved in operating either a Boom or Scissor Lift MEWP. During the course, all learners will experience practical demonstrations and take part in exercises and explanatory theory lessons supported by power point presentations and safety DVDs that cover: An Introduction to the Construction Industry Introduction to machine Pre-shift Inspections Controls and Instruments Components and types of Mobile Elevating Work Platforms Limitation of use Carrying out emergency lowering procedures Moving and locating machine Emergency controls Servicing and Inspection Testing IPAF Theory Test By the end of the course the delegates will be able to competently and safely operate the machine in correct accordance with the manufacturers' instructions and accepted good practice. They will also be able to correctly and securely site and adjust the machine for the required task, and carry out routine services. Every successful learner will also have a thorough understanding of their responsibilities under current and relevant health and safety legislation. We offer 3a, 3b, 1b IPAF MEWP categories, and ensure every successful candidate will be issued with an IPAF Trained Operators Card and certificate evidencing that they have passed the Full IPAF (Theory and Practical) Technical Test. This Scissor Lift & Cherry Picker training course can be provided fully or part funded by the government if your company meets the strict eligibility criteria. Call us today at Health and Safety Training Ltd to find out more about our available courses in Newcastle, Sunderland, Durham, Gateshead, Darlington & Middlesbrough. Start your course today There are 25 CPCS MEWP Theory Test questions in this assessment. You need to score 20 out of 25 to pass. You may review answers after each question or at the end of the test.

Good luck! Sign up to keep track of your progress IPAF's eLearning provides a flexible and enhanced online learning experience for the mobile elevating work platform (MEWP) operator and MEWPs for Managers training programmes. It provides the same high-quality theory training as in the classroom and can be completed on a range of devices anytime, anywhere, at your own pace. MEWP Operator eLearning IPAF's eLearning for MEWP operators is available for all MEWP categories (1a, 1b, 3a, 3b) and takes around three hours to complete.

The eLearning is broken down into manageable sections that you can complete at your own pace and can save and resume your training at any time. IPAF MEWP Operator eLearning training course is available in English, Dutch, French, German, Italian, Portuguese and Spanish. How to start your eLearning training course: Find your nearest IPAF-approved training centre that offers 'eLearning'; Contact your chosen training centre and register for IPAF MEWP Operator eLearning training; You will be sent an email to begin your eLearning training; At the end of your training you will need to complete a pre-theory test; Once you have passed your pre-theory test, contact your training centre to schedule your theory test, practical training and assessment. MEWP operator eLearning does not replace practical training. Trainees who complete the online training course must still pass a supervised theory test within 90 days, at an IPAF-approved training centre and must successfully complete a minimum half-day of practical training and testing before qualifying for and being issued with a PAL Card as proof of success operator training. MEWPs for Managers eLearning IPAFs MEWPs for Managers training course covers what managers need to know for safe and effective use of MEWPs on site, including planning the job, conducting a risk assessment, selecting the right equipment for optimum cost-efficiency and mitigating all possible risks. This course has been designed to be completed solely on eLearning, on compatible PCs and tablet devices. The course is available in English, takes six to eight hours to complete and is broken down into manageable sections that you can complete at your own pace and can save and resume your training at any time. How to start your eLearning training: Find your nearest IPAF-approved training centre that offers 'eLearning'; Contact your chosen training centre and register for IPAF MEWPs for Managers eLearning training course; You will be sent an email to begin your eLearning training; At the end of your training you will need to complete a test; Once you have passed your test, contact your training centre to apply for MEWPs for Managers certification. IPAF eLearning utilises sophisticated facial recognition across the online training and evaluation session to ensure the candidate's identity and to prevent any attempt to obtain the qualification through fraudulent means. The courses can only be run on tablets and computers that have a camera.

"Whatever you do, work at it with all your heart, as if working for the Lord, not for men." Colossians 3:23
