

Diamond 25

Premium High Solid "Wet Look" Floor Finish

Item#550004
4x1 Gallon Case
Item#550005
5 Gallon Pail

DESCRIPTION

This Premium "Wet Look" Floor Finish is the central component of your floor care program. **Diamond25** is the simplest, most cost effective and versatile floor finish ever developed. Because of its unique polymer technology, this finish delivers a superior shine initially and offers improved durability over time, buffed at any speed. Our systems approach to floor maintenance includes this finish in conjunction with our **ReVital-eyes** floor finish laminator & maintainer and our new technology speed stripper, **Lightning Strip**. This system offers floor maintenance professionals great looking, long wearing floor surfaces with a simple, efficient, labor saving maintenance program.

PRODUCT FEATURES & ADVANTAGES

- **Durable:** High Solids for extended wear and superior protection for floor covering!
- **Easy to Use:** Self leveling, fast drying and excellent flow for easy application with little or no mop drag!
- **Appearance:** Fantastic deep gloss with crystal clarity and brighter floors, never yellows!
- **Resilient:** Black mark, dirt and detergent resistant with less coats for labor savings!

DIRECTIONS FOR USE

Strip and Re-coat: Using **Lightning Strip**, strip floor of old finish, paying extra attention to baseboards, corners, under shelving and fixtures, thresholds and built-up areas. Rinse thoroughly with clean water and allow to completely dry. Using a clean rayon mop or applicator, apply 4 coats of finish in thin uniform coats. Allow each coat to dry for a minimum of 25 minutes knowing humidity can effect dry time. Do not apply more than 4 coats in a 24 hour period. Allow floor to thoroughly dry before foot traffic is allowed in area.

Scrub and Re-coat: Sweep and dust mop entire floor. Dilute **TopScrub+** cleaner/maintainer, as directed, into the solution tank of the automatic scrubber. Scrub floor using a green scrubbing pad. Pick up all scrubbing solution and allow floor to dry completely. Using a clean rayon mop or applicator, apply 3 coats of finish in thin uniform coats. Allow each coat to dry for a minimum of 25 minutes knowing humidity can effect dry times. Allow floor to dry thoroughly before foot traffic is allowed in area.

Maintenance: **Diamond25** is an excellent finish for high speed burnishing of 1000 rpm or higher. Auto scrub or wet mop floor with **ReVital-eyes** neutral cleaner/maintainer, if wet mopping, rinse mop regularly. Allow floor to completely dry. Once dry, burnish floor with a high speed burnisher using a synthetic or natural hair buffing pad. For ultra-high speed propane burnishing use a white or tan burnishing pad.

Spray Buffing: Dilute **ReVital-eyes** as directed into a trigger sprayer. Working in small sections, spray solution directly on floor. Burnish floor with a high speed burnisher using a synthetic or natural burnishing pad or an ultra-high speed propane burnisher using a white or tan burnishing pad. Burnish floor to a high shine.

SPECIFICATIONS

Type Pure acrylic polymers
 Coverage (sq. ft / gal) 2,500 - 3,000
 pH 8.2 ± 0.3
 Drying Time (minutes) 30
 % Styrene (Free Monomer) 0.0

Specific Gravity (g/cc) 1.03 ± 0.01
 Color White, opaque liquid
 Odor Typical acrylic
 Powdering None
 Flash Point None
 Slip Resistant Yes
 Shelf Life 1 year minimum in original unopened container

SAFETY INFORMATION

KEEP OUT OF THE REACH OF CHILDREN.

Precautionary statement

Prevention: Observe good industrial hygiene practices.

Response: Wash thoroughly after handling.

Storage: Store away from incompatible materials.

Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations.

This product is not known to be a "Hazardous Chemical" as

defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.
