

Adaptive Behavioral Health

Home School Program

*Located at 4083 US Highway 1 SUITE 102B
Rockledge FL, 32955*

Who Are We?

Adaptive Behavioral Health is a comprehensive homeschooling program that serves children in grades K-8.

What Do We Do?

Adaptive Behavioral Health comes alongside parents/guardians to educate their children. We provide a supportive community for homeschooling families. We offer flexible scheduling, small class sizes, **remediation in reading** and individualized attention to help students reach their full potential. Our goal is to cultivate confident, capable students who thrive academically, personally, and creatively in an ever-changing world.

What Is Our Mission?

Adaptive Behavioral Health is dedicated to empowering homeschooling families with a well-rounded, flexible curriculum that fosters a lifelong love of learning, builds strong foundational skills, and nurtures independent thinking. By tailoring education to the unique needs and learning styles of each child, we combine academic excellence with creative exploration, equipping students to thrive academically, personally, and beyond.

What Is Our Vision?

At Adaptive Behavioral Health, we envision a world where homeschooling families are empowered with a flexible, well-rounded education that inspires a lifelong love of learning and nurtures independent thinking.

Why Choose Us?

Individualized Attention: We provide personalized support and guidance from our team of experienced and certified educators. Our personalized learning options are tailored to meet the individual needs and interests of each student. We offer small learning groups and 1-to-1 support for our students based on their needs.

Small Class Sizes: With small class sizes, Adaptive Behavioral Health ensures each student receives personalized attention. Instruction is tailored to individual learning styles and cognitive abilities, allowing students to:

- Master foundational skills in all core subjects.
- Progress to grade level or exceed academic expectations.
- Build confidence and independence in their educational journey

Nurturing and Goal Oriented Environment: Our nurturing and goal-oriented environment empowers students to grow academically, socially, and emotionally, preparing them for success in school and beyond. At Adaptive Behavioral Health, every child has the opportunity to thrive and reach their full potential.

Our Academic Courses

Our Homeschool program provides a supplemental and enriching learning curriculum for homeschool students in Math, Reading, Science, Social Studies and technology with connections to Emotional Intelligence, Social Skill Building, Character Development, and Individual and Group Coaching. These classes are offered for grades K-8. Our learning programs are offered on Mondays - Fridays from August to May, mirroring an academic school year. Programs and activities are scheduled from 8 am - 6 pm. **Our courses are available in person for all home education students.**

Our Program Components

We offer the core academic subjects while helping students build their critical thinking, social skills, and character. By providing opportunities for hands-on experiences and real-world applications, we help students develop essential skills to achieve personal growth and development.

Mathematics

Our program integrates math concepts with critical thinking and problem-solving skills. Students will develop a deep understanding of mathematical principles while also learning to apply them to real-world situations. Through hands-on activities, projects, and collaborative problem-solving, students will build their emotional intelligence, social skills, and character.

- Focused instruction in arithmetic, algebraic concepts, and problem-solving.
- Real-world math applications to enhance understanding.
- Enrichment through math games, puzzles, and logic challenges.

Reading

Our program fosters a love of reading, language and develops strong communication skills. Students will engage in reading, writing, speaking, and listening activities that promote critical thinking, creativity, and empathy. By exploring diverse texts and perspectives, students will build their emotional intelligence, social skills, and character.

- Guided reading groups tailored to individual skill levels.
- Phonics, vocabulary, and comprehension strategies.
- Creative writing and essay workshops to foster expression and critical thinking.

Science

Our program sparks curiosity and a passion for scientific inquiry. Students will conduct experiments, observe natural phenomena, and analyze data to develop a deeper understanding of the world around them. Through hands-on activities and collaborative projects, students will build their emotional intelligence, social skills, and character.

- Inquiry-based lessons in physical, life, and earth sciences.
- Hands-on experiments and projects to encourage exploration.
- Environmental science studies integrated with outdoor activities.

Social Studies

Our program explores the history, cultures, and societies of the world. Students will develop a sense of civic responsibility and global citizenship through the study of government, economics, geography, and current events. By engaging in discussions and debates, students will build their emotional intelligence, social skills, and character.

Technology

Our program equips students with the essential skills to navigate the digital world. They will develop a strong foundation in computer science, programming, and digital media. By engaging in hands-on projects and critical analysis, students will learn to think critically, solve problems creatively, and become informed digital citizens.

- Coding basics and introductory robotics.
- Digital literacy, including research skills and safe internet practices.
- Multimedia projects, such as video production and graphic design.

Enrichment Activities

STEM Exploration

- Engineering challenges, like building structures or designing simple machines.
- Collaborative group projects that integrate science and math concepts.

Artistic Expression

- Art classes featuring drawing, painting, and mixed media.
- Music lessons, rhythm games, and performance opportunities.

Outdoor Education

- Nature walks and environmental studies.
- Gardening projects to explore plant biology and sustainability.

Cultural and Global Awareness

- Geography and history lessons enriched with hands-on activities.
- Cooking classes and cultural studies that introduce students to global traditions.

Social and Leadership Skills

- Team-building exercises and collaborative projects.
- Community service initiatives to develop empathy and civic engagement.

Summer Program Tuition (Grades K-8) Mon-Thur 8:30 am to 12 pm

\$6,000 annually *(You may pay this in one sum at the beginning of the school year or make 10 equal monthly payments of \$600)*

Students enrolled in our part-time program will experience a supplemental and enriching learning curriculum for homeschooled students in Math, ELA, Science, and Social Studies with connections to Emotional Intelligence, Social Skill Building, Character Development, and Individual and Group Coaching.

Annual Home Education Evaluation (Grades K-12)

\$75 session *(Please allow me 24-48 hours from our meeting and review of the portfolio to return forms.)*

Students enrolled in this 1 on 1 course will have my attention discussing their portfolio. This can be a digital or a paper portfolio. Together we will reflect on their academic strengths, some of their favorite books read this year, and anything else they would like to share with me. After careful reviewing the portfolio and having discussion with the student, I will sign any portfolio evaluations your district may require.
