To Whom It May Concern:

Chris Del Rossi and his company Food Drug and the Bug (FDB).

While being at Bell Laboratories, Inc., I have dealt with Mr. Del Rossi and/or his company since 2002. Mr. Del Rossi's in-depth understanding of the food industry has been a tremendous asset, to not only me, but my staff of Technical Representatives as well. We have worked with FDB to train us on the key aspects of the Global Food Safety Initiative (GFSI).

We have also leveraged the company's commitment to process improvement by getting feedback from them on prototype products prior to being launched. Our goal is to make sure that our products provide meaningful enhancements to providing better service in the field.

I know that FDB is committed to the food industry and its customers. I can confidently recommend FDB as a solid, reliable supplier with an expertise in their field. There are many good pest control companies in the market, and any evaluation of potential suppliers should include FDB.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark Westover', written in a cursive style.

Mark Westover  
VP- Sales and Business Development
