

BILL'S BICYCLE SERVICE

Dear Riders,

My name is **Bill Dragos**, owner of **Bill's Bicycle Service**, and I'm delighted to be supporting you during the **Annual Tour 2025**.

With many years of experience servicing bicycles for events such as mountain biking, downhill racing, triathlons, road racing, and criteriums, I understand how important it is for your bike to perform reliably throughout the tour. Cycling in nature is one of life's most rewarding freedoms, and my goal is to ensure your ride is as smooth and enjoyable as possible.

If you need assistance at any stage, please don't hesitate to call me on **0466 379 455**. I'll be carrying a range of spare parts, though stock may be limited given the wide variety of components used across different bikes.

To help prevent delays, I recommend bringing a few key spares tailored to your bike:

- Spare derailleur hanger (specific to your bike)
- At least two spare tubes (one on hand and one packed)
- Spokes matching your wheels
- Puncture repair kit
- Tyre levers
- Pump
- Multi-tool

Each evening, I'll operate a small **essentials store** from my vehicle, where additional products and parts will be available. During the tour, I'll provide support for minor mechanical issues free of charge (parts at cost if needed). For larger repairs or full services, please book a time with me in the evening or on a rest day. These will be charged at my standard workshop rates plus any required parts. See my **Service Price List Guide** on the next page.

I look forward to supporting you on this exciting journey and helping you get the most out of your ride.

Warm regards,

Bill Dragos

Bill's Bicycle Service
