You will be responsible for the cost of any repairs resulting from "general wear and tear" whilst you are riding them i.e. punctures and damage to tyres, chains, wheel spokes, derailleur's, bottom brackets and other parts deemed as consumables. This is particularly relevant when we experience wet, muddy conditions and you fail to keep the bike reasonable free of dirt that may accumulate on the running gear, which can put undue force on the chain, gears and derailleur and can lead to parts failure.

Your bike will be supplied with a drink bottle cages and an under-saddle kit bag containing one spare tube (Presta valve), tyre levers and puncture repair kit. The cost of any additional tubes you may require throughout the journey will be your responsibility. You will need to supply your own pump with an adaptor suitable for a Presta valve and multi-tool. A helmet and lock can also be provided if you require one.

Lights are not provided so feel free to bring your own if you have them. There may be times that you wish to ride your bike at night when we are staying overnight in towns along the way.

The cost of the bike hire is \$550 for the full Outback Odyssey and must be pre-booked by the 4/4/25. Sizes are S, M, L and XL and are subject to availability.
