

BICYCLE SA ANNUAL TOUR 2025

EXPLORE THE RIVERLAND - ROUTE MAPS

Click on the links below to view each day's route map.

Note: All routes are subject to change, depending on road and weather conditions and unforeseen circumstances.

Viewing each map is simple as you use the arrows to navigate in any direction, as well as use the scale to zoom in and out. You can also look at them using satellite imagery and view the route profile. With the right software you can also do a flyover of the route, from a bird's eye perspective. This is great for viewing the route in the context of the surroundings.

What are not marked on these maps are the refreshment stations and lunch stop locations. These will be added in due course.
