A tale of TWO architects...

Two architects. Two locations. & TWO design studio is born.

When a Jordanian meets an Australian in the global city of Dubai. What do you get?!

A young multidisciplinary design studio based in Melbourne & Dubai and founded by TWO Architects Noelle & Dalia; a pair of young passionate designers specialising in creative solutions, with a distinct approach in handling briefs and clients.

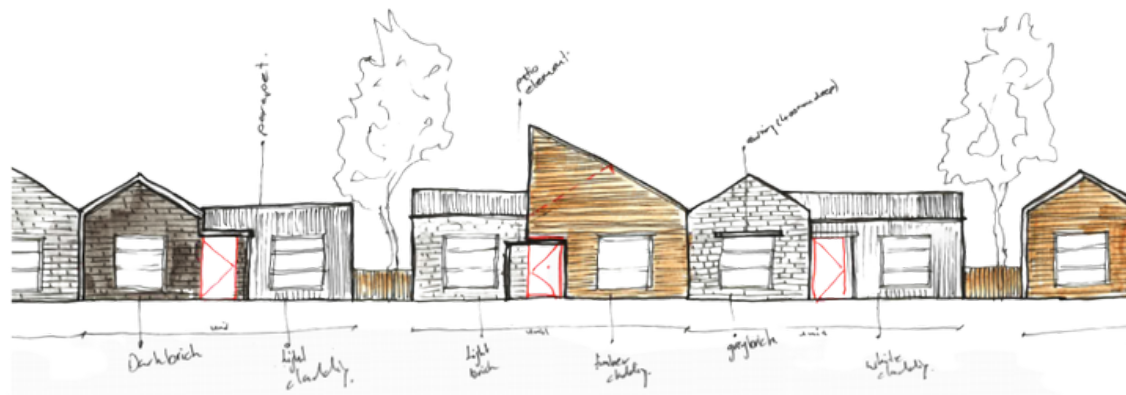

The work of the design studio encompasses architecture, interior design, landscape design and branding. Driven by human centred design and looking beyond the brief, each project is a unique challenge in working directly with clients and stakeholders.

TWO design studio emerges out of a great deal of belief in collaboration and the power of change.

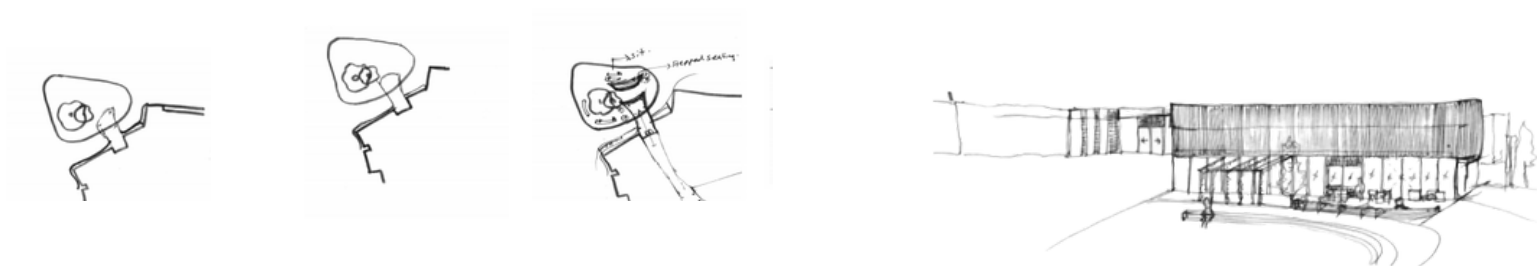

Our team has extensive knowledge in handling projects with a broad skillset across Dubai and Melbourne. Their commitment to making a difference in peoples lives and creating spaces with value is underlined with passion, creativity and a genuine thrive to make an impact.

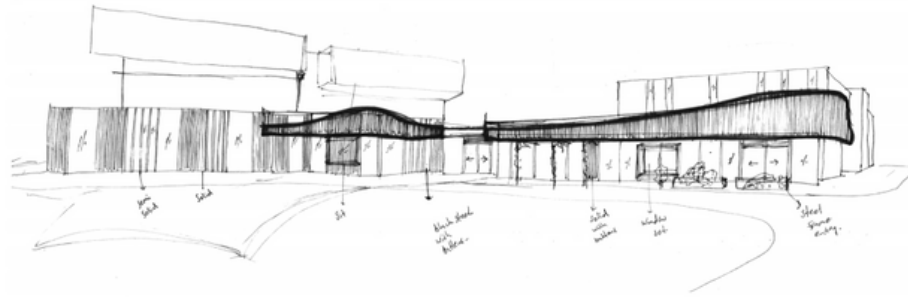

We like to think of our projects as **stories** ; with a uniqueness that is particular to the client's environment, brief and objective....

with a focus on an **enjoyment of place**,
culture and integration with landscape and community.

Creativity is
a process

TWO design studio offers expertise in the following areas

Interior design

We place special emphasis on interior design, creating a special atmosphere in residential and commercial spaces. The range of the study starts from the interior layout of the spaces and ends with the creative combination of materials and detailed design of furniture.

Architecture

We create spaces of modern, and high aesthetics value with a strong emphasis on harmonising spaces with the needs of clients. Our work is extremely varied and ranges in scale and program, from Branding to residential developments & commercial projects.

Landscape

We believe that the outdoor is as important as the indoor. We take your green space into a different level ensuring the same soul across from the interiors. We specialize in taking into consideration UAE's weather, site location, and client needs.

Branding

We believe in the power of a concept and its ability to translate and integrate in creating an essence and identity of your story & brand.

Creativity is teamwork

Dalia

Is an Architect passionate about Landscape Design, exterior solutions & creating an outdoor environment responsive to the harsh desert climate.

Her focus?

Is to combine her understanding of plants and their habitat challenges. With her flair for design, she is able to merge your vision and bring your outdoor space to life.

Noelle

Is an architect passionate about creating engaging Spaces & Places for people.

Her focus?

Is to engage in design that involves creating experiences for people. Her key skills are in project planning and coordination with a strong background in spatial analysis and design. Noelle has over 10 years of experience and is a registered architect in Melbourne, Australia.

Jihad

Is an Interior Architect. Her passion stems from her lifelong love of architecture, interiors, and travels. She gets her inspiration from the countries she'd visited combined with her love of nature.

Her focus?

Is creating a space that is efficient and functional. Her keen eye for detail is the perfect ingredient for creating the most striking interior spaces.

Massa

Is a junior architect passionate about adding art and character to each design, fitting for every person and their liking.

Her focus?

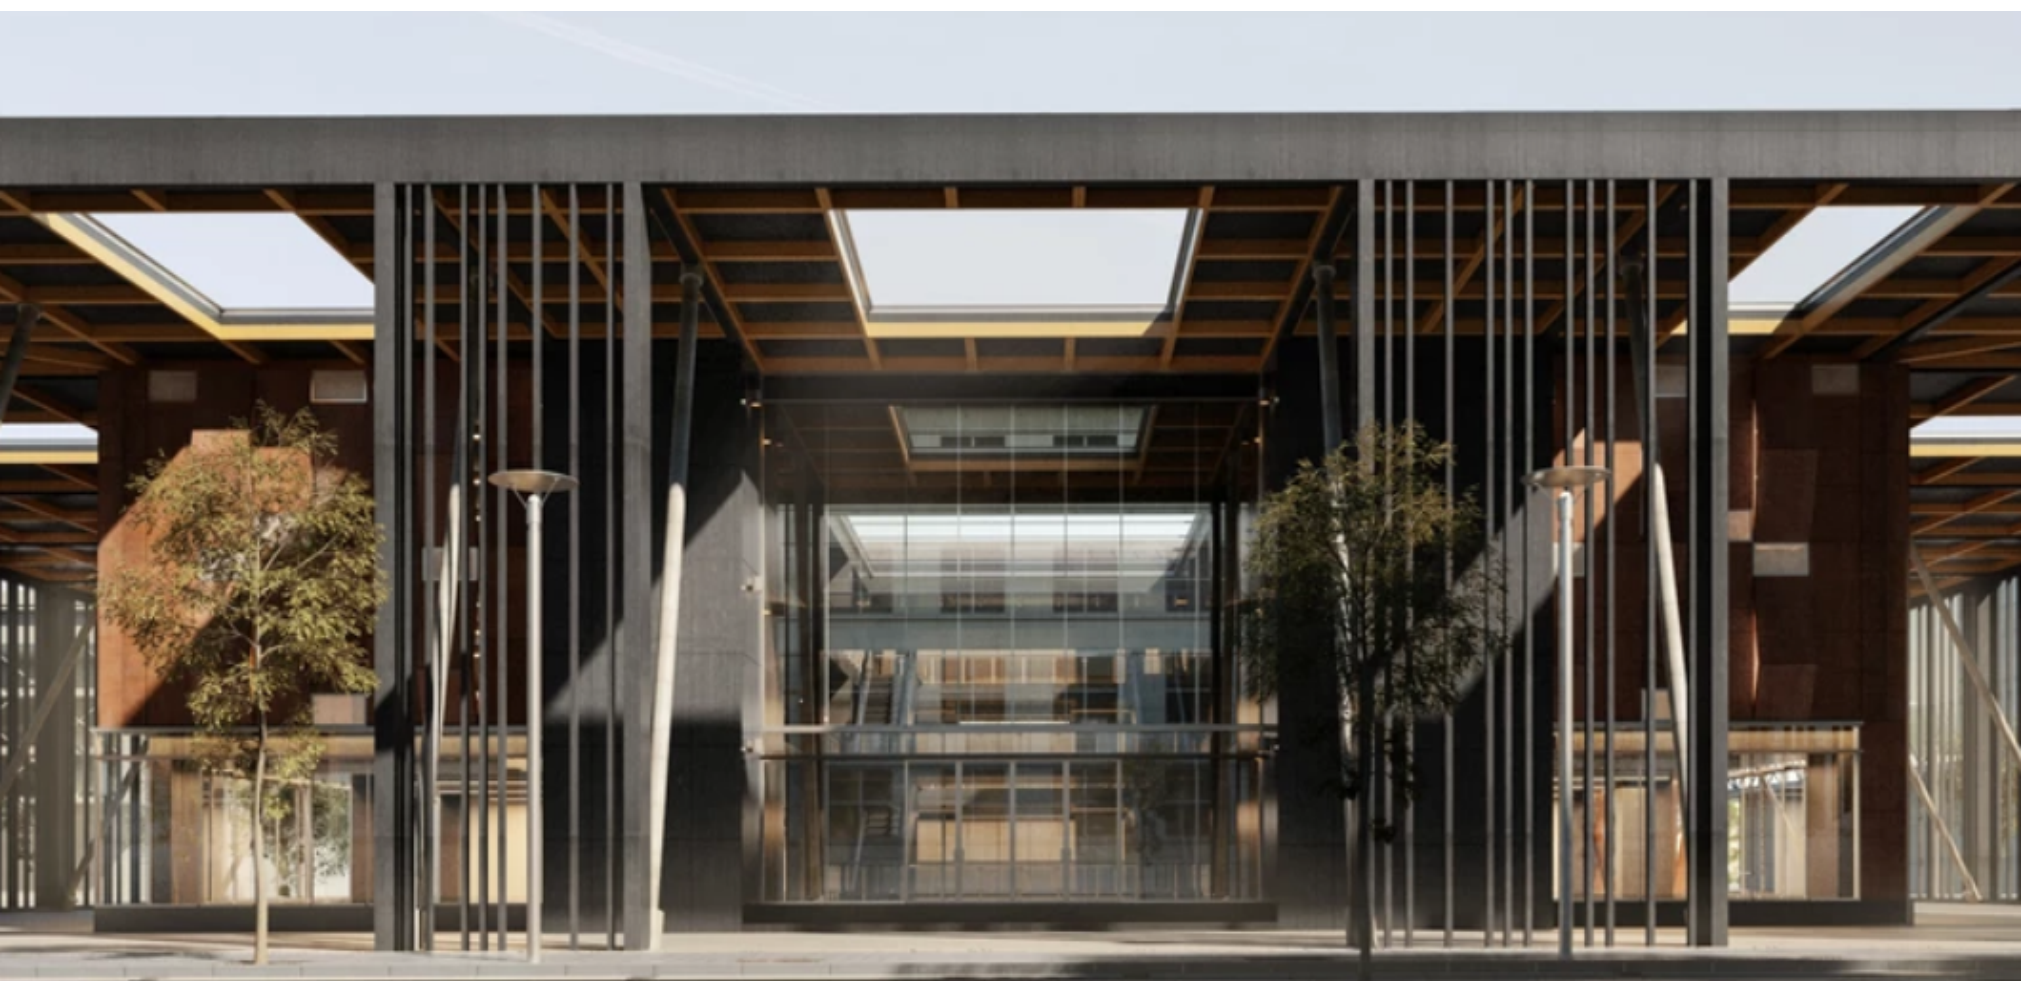

Is to bring life to any space, creating a comfortable and suitable environment for each individual. Stemming from her understanding of spaces and interior design, hoping to come up with a creative solution for each situation.
