By submitting this agreement it is considered legal & enforceable under ESGICA asan "Electronic Signature" you must be 18 years or older to submit.

Owner / Shipper Signature: _____ Date: _____ UPON DELIVERY: Received in good health X _____

Northern Horse Transport Hauling Agreement Page 2

Items that you must include with each animal you have contracted to be transported:

- 1) **Leather or nylon halter-** *No rope halters please!*
- 2) **Detachable lead rope** Note: If you need your specific lead rope to be returned, we advise you to label it with a matching label on the halter. (They all look the same to barn staff when they are unloading a dozen horses and putting them in stalls.)
- 3) **One bale of hay**

No other items will be permitted in the trailer unless discussed prior to booking.

For shipping over USA/Canada border please be prepared to provide SSN, health certificate and a negative "Coggins"

Loading / Unloading limitations and conditions:

Northern Horse Transport does offer door-to-door services at an additional cost, however if the equipment being used is the 15-horse tractor trailer, **please be prepared to unload and load from the driveway entrance** – this decision will be made at the driver's discretion.

We have side load ramps to accommodate this. (Too much confusion regarding wheelbase and height requirements has previously resulted in damage and delays, by assured customer private roads not meeting our minimum requirements.)

We expect clients to disclose loading/unloading concerns. All horses to be shipped must be of age and trained to transport prior to booking. Clients who book a horse unable to load forfeit their deposit and transport will be cancelled. Safety is very important to our drivers, if a horse is a danger to itself or other horses, they may be refused transport.

Delivery and Transport Updates:

Remember when booking with Northern Horse Transport that we service Canada on a scheduled run coast to coast. We will update and keep clients in the loop on our progress but there are a lot of variables regarding weather, roads and livestock involved, that can lead to unexpected schedule changes. We recommend clients allow a window of minimum 2 days variable to pickup and delivery dates.

If you the client, need daily updates, you are required to contact the truck to facilitate this. **All clients will receive notice within 2 hours of arrival to the destination.** Our top priority is the safety and comfort of your animals being transported therefore gaps may occur in our ability to provide instantaneous updates when requested.

Hay and Water:

Hay and water are provided throughout the entire trip. Box stalls will have a bucket always hung. Standing stalls will have a water bucket hung or will be offered at stops. Hay is always available.

Stalls:

Please ensure you are booking the proper stall for your horses' size, temperament, and training. Box stalls provide more space for larger breeds and younger horses with little training. Standing stalls are good for well temperament horses that are comfortable backing up and standing close to other horses.

Tack:

Due to limited available space we cannot guarantee tack with transport of any horse. Please inform us that you would like to bring tack on the contract and we can advise on the likelihood - the final decision is left to the drivers discretion at pickup. Drivers cannot be held responsible for lost or damaged items, this means you are shipping tack at your own risk. There is an additional cost associated based on the size and amount of tack to be transported. Please contact us via email for questions regarding transporting tack: northernhorsetransport@gmail.com

Please feel free to ask questions if you are unsure. Safety is our #1 priority.
