WHO I AM

I am a creative at heart. My craftsmanship happens primarily through copy. I love learning about others—about what makes them tick, what lights them up, and turning that into compelling stories.

And I love storytelling.

WHAT I DO

Script is how I channel my passion for language and storytelling. Words are more than just sentences—they're poetic, powerful, and transformative. It is a privilege to have a language that can create potent experiences that share a lasting story.

My job is to learn about who you are, and why you are the way you are. I ensure that your content is reflective of you, and shares your brand mission and vision in a way that resonates with your audience.

WHY I DO IT

It is an honour to explore this world in such depth, and to support others in discovering their story. There are billions of people in this world with incredible voices to share, and stories to tell—and I hope that I can hear yours.

WHAT YOU GET

- Copy that connects. I craft copy that resonates and converts. I blend SEO strategies to keep readers engaged and clients coming back for more.
- Efficient and timely copy. I value your time, and I value my own. You can count on polished copy, fast, so that you can hit publish and move on to your next big thing.
- Refined brand voice. Together, we'll hone in on a voice that captures your brand's mission, vision, and values, ensuring you attract clients who truly align with your business.
- Ease. Whether you need fresh copy, edits, or just some expert insight, I've got you covered. Let's cut through the clutter and get you focused on what matters most.
