Dear Sister Michel-Wiggins,

Thank you for expressing your support for increasing housing support. I appreciate hearing from you.

I agree that the lack of affordable housing is one of the most basic challenges facing our nation's economy. Access to safe and affordable housing has a direct relationship to health and educational attainment for children. The high cost of rent and barriers to homeownership are also holding some Georgia families back from their full economic potential.

Congress should prioritize increasing the supply of affordable housing, which I believe is the sustainable solution to this crisis. For example, I supported an allocation of \$1.9 billion for the HOME Investment Partnerships Program. HOME is the largest Federal grant program to State and local governments designed exclusively to create affordable housing for low-income households.

America has a long way to go when it comes to addressing the affordable housing crisis, but I believe that with the right investments

that address affordable housing shortages, there is hope for a better future.

Thank you again for contacting me. I always welcome your input and feedback.

Wherever and however I can be of service, please contact my D.C. office at 202-224-3521 or my Georgia office at 470-786-7800. All of our resources are also available at ossoff.senate.gov.

Sincerely,
