President, America needs farm workers. Farmers need laborers. To deport illegal immigrants, only to turn around and invite them back to the U.S. (legally) - will not be possible for so many immigrant Brothers and Sisters. You could be a life-saver to the families that immigrants will help through their financial support: to send loved ones to school, establish businesses, meet medical needs, etc. My President, be GOD's hands to the world. Continue to work tirelessly to bring peace, prosperity, and global development. Amen
