@Anthrobiometry

My message to Prime Minister of #UnitedKingdom @RishiSunak on 26th September 2022 (this was prior to him becoming Prime Minister) predicting a problem period he is facing now in 2022 and in 2023. This is evident with the current #strike actions ongoing in the UK disrupting govt.

Respected Sir,

you are now facing a carbon period. The carbon period means problem year.

Next year is the heavy carbon period along with enmity.

Also, please take care of your health next year.

Thanks and Regards,

RKS Muthukrishnan
