

Instructions for parents

Age: Good for children around 3 years old.

Use These: Give thick crayons or big markers (washable is good). These are easy for small hands to hold.

Let Child Try: Let your child draw freely inside the shape. It's okay if it's messy. Let them learn how to move the crayon. Please don't hold their hand to help.

Say 'Good Job!': Be happy when they try scribbling! Keep this activity short and fun. Stop if the child gets upset or tired.

Why we do this: This helps your child's hand get strong. It teaches how to hold a crayon. This is the first step for writing later.

What to look for: See how your child holds the crayon (any way is okay now!). See them make marks on purpose. See if they enjoy drawing.

Printing Instruction: Watch the video for here
