

Global Regenerative Medicine & Longevity Center
Integrating AI, Exosomes, Stem Cells, and Advanced Wellness

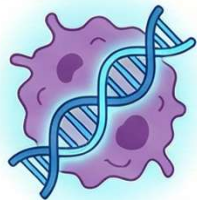

Dr. Arati Inamdar
Ansicht VonEden Corp

Synergy Model of the Integrated Regenerative Healthcare Ecosystem

7 Patents Granted

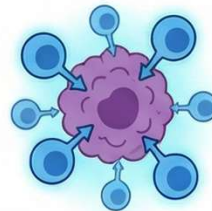

VonEden Regenerative & Gene-Therapy Patent Platforms

3161/MUM/2015

"Targeted Cancer Cell Kill Platform"

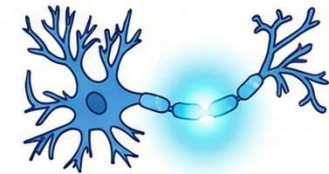

- TRAIL-expressing anti-cancer cells
- Suicide-gene safety switch
- Targets primary & metastatic tumors
- Works with chemo & radiation
- Precision cell-based oncology

2301/MUM/2014

"Homing & Multi-Factor Cancer Therapy"

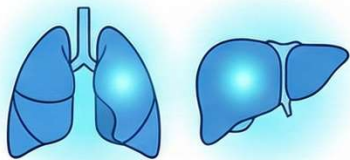

- Tumor-seeking engineered stem cell
- Multiple anti-cancer proteins
- Controlled elimination via safety gene
- Personalized cell therapy
- Solid & blood cancers

3162/MUM/2015

"Neuro-Protective Stem Cell Therapy"

- BDNF, CNTF, GDNF delivery
- Repairs neurons & myelin
- Targets autism, MS, Parkinson's
- Brain & spinal cord recovery
- Immune-neuro modulation

3163/MUM/2015

"Organ Fibrosis Reversal System"

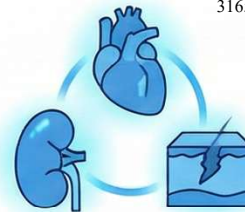

- Lung, liver, gut & oral fibrosis
- MMP-based scar breakdown
- Tissue remodeling & healing
- Chronic inflammatory diseases
- Pre-cancer fibrosis control

3164/MUM/2015

"IL-4 & IL-10 Immune Reset"

- Autoimmune & inflammatory diseases
- Brain inflammation & autism
- Gut, lung & systemic disorders
- Surgical recovery support
- Immune homeostasis

3165/MUM/2015

"Metabolic & Tissue Repair System"

- Heart failure & kidney disease
- Wound healing & scar reduction
- Diabetes-related tissue damage
- Anti-fibrotic hormones
- Organ rejuvenation

201921036963

"Self-Regulating Diabetes Therapy"

- Glucose-sensing insulin release
- No daily injections
- Type-1 & Type-2 diabetes
- Prevents complications
- Built-in safety & monitoring

No.	ID.	Application No.	Title	14 Patents Pending
1	PT3874	202021012913	COMPOSITIONS OF CONSTRUCTS OF MODIFIED DNA SEQUENCES CODING SPECIFIC PEPTIDES FOR VACCINE AGAINST COVID-19 AND METHOD OF PREPARATION OF ADENOVIRAL VACCINES THEREOF	
2	PT3884	202621018190	A MODULAR SYNTHETIC PLATFORM FOR PRECISION GENOMIC INTEGRATION AND CONTROLLED PRODUCTION OF THERAPEUTIC EXTRACELLULAR BIOPARTICLES	
3	PT3889	202621020989	SYSTEM FOR SEGREGATED DUAL-PHASE CONTROLLED DELIVERY OF THERMALLY DISTINCT COMPOSITIONS VIA MIST AND VAPOR FOR SUDATION, INHALATION, AND TRANSDERMAL PERMEATION	
4	PT3890	202621022952	SEGREGATED THERMALLY DISTINCT PHYTOPHARMACEUTICAL FORMULATIONS FOR DUAL PHASE CONTROLLED DELIVERY VIA MIST AND VAPOR	
5	PT3891	202621022778	MODULAR RECEPTOR-LIGAND PLATFORM FOR PROGRAMMABLE SEQUENTIAL, PARALLEL, AND GRADIENT SIGNALING CONTROL USING MULTI-FORMAT RECEPTOR AND LIGAND MODULE	
6	PT3906	202621029678	A SYSTEM AND METHOD FOR SYNCHRONIZED MULTI-NODE SMART WEARABLES FOR HEMODYNAMIC AND METABOLIC ASSESSMENT AND DIETARY AND PHYSIOLOGICAL RECOMMENDATION	
7	PT3907	202621028000	WEARABLE AUDIO DEVICE WITH DISTRIBUTED MICROPHONE ARRAY AND BONE-CONDUCTION OUTPUT	
8	PT3909	202621030240	SYSTEM AND METHOD FOR TOKENIZATION, VALUATION, AND STABILIZATION OF ASSET-BACKED HEALTHCARE SERVICES AND MEDICAL TECHNOLOGY ASSETS USING A PROTECTED VALUE ORACLE AND FORWARD-GEAR PRICING MECHANISM	
9	PT3911	202621051314	MULTI-MODULE ENGINEERED EXTRACELLULAR VESICLE COMPOSITIONS AND CLEAN EXOSOME FACTORY SYSTEMS FOR HAIR GROWTH AND HAIR FOLLICLE REGENERATION	
10	PT3967	202621052516	A HYDRO-ACTIVATED HERBAL-MINERAL TRANSDERMAL POULTICE PATCH FOR LOCALIZED MUSCULOSKELETAL PAIN RELIEF AND CONNECTIVE TISSUE SUPPORT	
11	PT3979	202621056482	CHIMERIC ANTIGEN RECEPTOR IMMUNE CELLS WITH PD-1 SIRNA, SUICIDE GENE AND INDUCIBLE THERAPEUTIC MODULES	
12	PT3980	202621060234	BOTANICAL FRAGRANCE COMPOSITION AND PORTABLE PASSIVE AROMA DELIVERY DEVICE	
13	PT3986	202621059680	A MULTI-AXIS COSMETIC REJUVENATION PLATFORM COMPRISING PEPTIDE, GROWTH FACTOR, ANTIOXIDANT, AND BARRIER-LIPID MODULES WITH EXOSOME-ENHANCED DELIVERY	
14	PT4032	202621072026	ENGINEERED GENETIC CONSTRUCT COMPOSITIONS FOR IMMUNE MODULATION AND TRANSPLANT TOLERANCE	

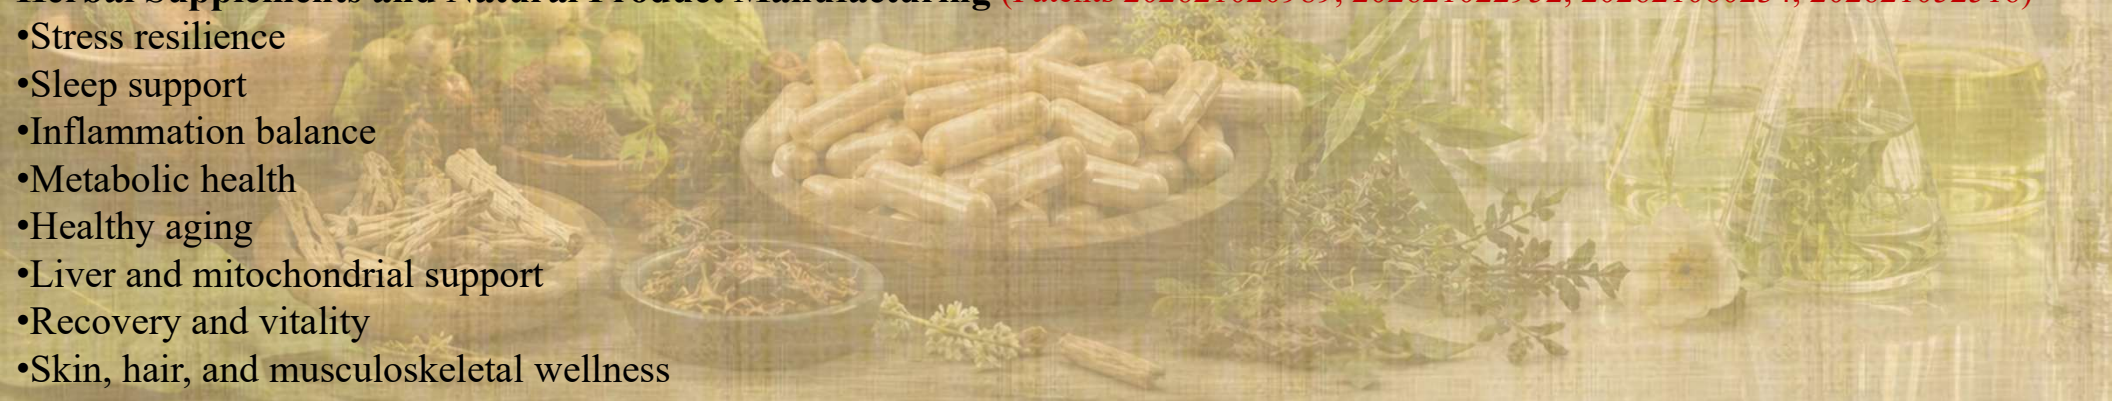

No.		ID.	Title	11 Patents Under Preparation at Attorney's Office
1		PT4013	BIOLOGICAL COMPOSITIONS AND SYSTEMS FOR SPATIOTEMPORAL TISSUE GROWTH MEDIATED BY MULTI-PATHWAY SORTING MOTIFS	
2		PT4021	REDEPLOYABLE MODULAR EXOSOMAL PLATFORMS FOR LOCALIZED AND DECENTRALIZED VACCINATION	
3		PT4031	MULTIPLEXED BYSTANDER GENOME EDITING PLATFORM AND PROTEASE-RESPONSIVE EXOSOMAL CARGO DELIVERY SYSTEM	
4		PT4036	ENGINEERED MULTI-PATHWAY SORTING-MOTIF EXOSOME CASSETTES FOR CARTILAGE REGENERATION AND THICKENING	
5		PT4037	FRESNEL SOLAR DESALINATION TOWER WITH GUTTERED ELECTROSTATIC CONDENSATION DOME	
6		PT4042	ENGINEERED EXOSOMAL DNA CASSETTE CONCOCTION AND SCAFFOLD FOR MOTOR NEURON REPAIR	
7		PT4043	ENGINEERED EXOSOMAL DNA CASSETTES AND SCAFFOLD FOR SCHWANN-CELL AND PERIPHERAL NERVE REPAIR	
8		PT4044	ENGINEERED EXOSOMAL DNA CASSETTES AND SCAFFOLD FOR STRIATAL AND CORTICAL NEURON REPAIR	
9		PT4045	ENGINEERED EXOSOMAL DNA CASSETTES AND SCAFFOLD FOR NIGROSTRIATAL DOPAMINERGIC NEURON REPAIR	
10		PT4046	ENGINEERED EXOSOMAL DNA CASSETTES AND SCAFFOLD FOR CEREBELLAR AND SPINOCEREBELLAR NEURON REPAIR	
11		PT4047	ENGINEERED EXOSOMAL DNA CASSETTES AND SCAFFOLD FOR SPINAL CORD AND AXON REGENERATION	

No.	Title	11 Patents Under Preparation at Our Office
1	BIOLOGICAL COMPOSITIONS AND SYSTEMS FOR SPATIOTEMPORAL MUSCLE REPAIR	
2	BIOLOGICAL COMPOSITIONS AND SYSTEMS FOR ANGIOGENESIS	
3	BIOLOGICAL COMPOSITIONS FOR REPAIR AND REJUVENATION OF HUMAN PENILE TISSUES	
4	BIOLOGICAL COMPOSITIONS FOR MALE FERTILITY	
5	BIOLOGICAL COMPOSITIONS FOR FEMALE FERTILITY	
6	GENETIC CASSETTES FOR CONTROL OF HIV REPLICATION	
7	GENETIC CASSETTES FOR REVERSAL OF THALASSEMIA AND SICKLE CELL ANEMIA	
8	GENETIC CASSETTES AND COMPOSITIONS AGAINST ANTIBIOTIC RESISTANT BACTERIAL INFECTIONS	
9	BIOLOGICAL COMPOSITIONS FOR SKIN WHITENING	
10	SYSTEM AND METHOD FOR DETECTION OF LONG COVID	
11	BIOLOGICAL COMPOSITIONS AND SYSTEMS FOR REJUVENATION AND REPAIR OF SKIN	

Herbal Supplements and Natural Product Manufacturing (Patents 202621020989, 202621022952, 202621060234, 202621052516)

- Stress resilience
- Sleep support
- Inflammation balance
- Metabolic health
- Healthy aging
- Liver and mitochondrial support
- Recovery and vitality
- Skin, hair, and musculoskeletal wellness

Cell and Exosome-Based Regenerative Innovation: (Multiple Patents on Slides 4, 5 and 6)

- Cell-based therapy research
- Exosome characterization and development
- Regenerative protocols for selected indications
- Preclinical and translational programs
- Clinical research collaborations
- GMP-compatible manufacturing planning
- Physician-supervised and regulator-aligned development

Diagnostics & Monitoring

Category	Example Offerings
AI & Wearables	HRV, CGM, AI analytics (Patent 202621029678)
Cellular Therapies	Exosomes, PRP, Stem Cells
Hormonal Optimization	Testosterone Supplements
IV Therapy	Chelation
Lifestyle & Longevity	Nutrition, Meditation, Cognitive Training

Diagnostics & Monitoring

Diagnostics

Biological Age

Full Lab Panels

Genetic Risk

Body Composition

Real-Time Monitoring

General Health

Offering

DNA methylation

CBC, Lipids, Thyroid, Inflammatory markers

APOE, MTHFR, FOXO3, TERT, SIRT SNPs

InBody, DEXA, Bio-impedance

HRV, Sleep, SpO2, Glucose (CGM)

ECG, BP, Pulse Ox, Smart Scales

Aesthetic & Cosmetic Medicine

Treatment

Skin Rejuvenation

Hair Restoration

Injectables

Adjunctive Supplements

Skin & Hair Care Products

Tools & Therapies

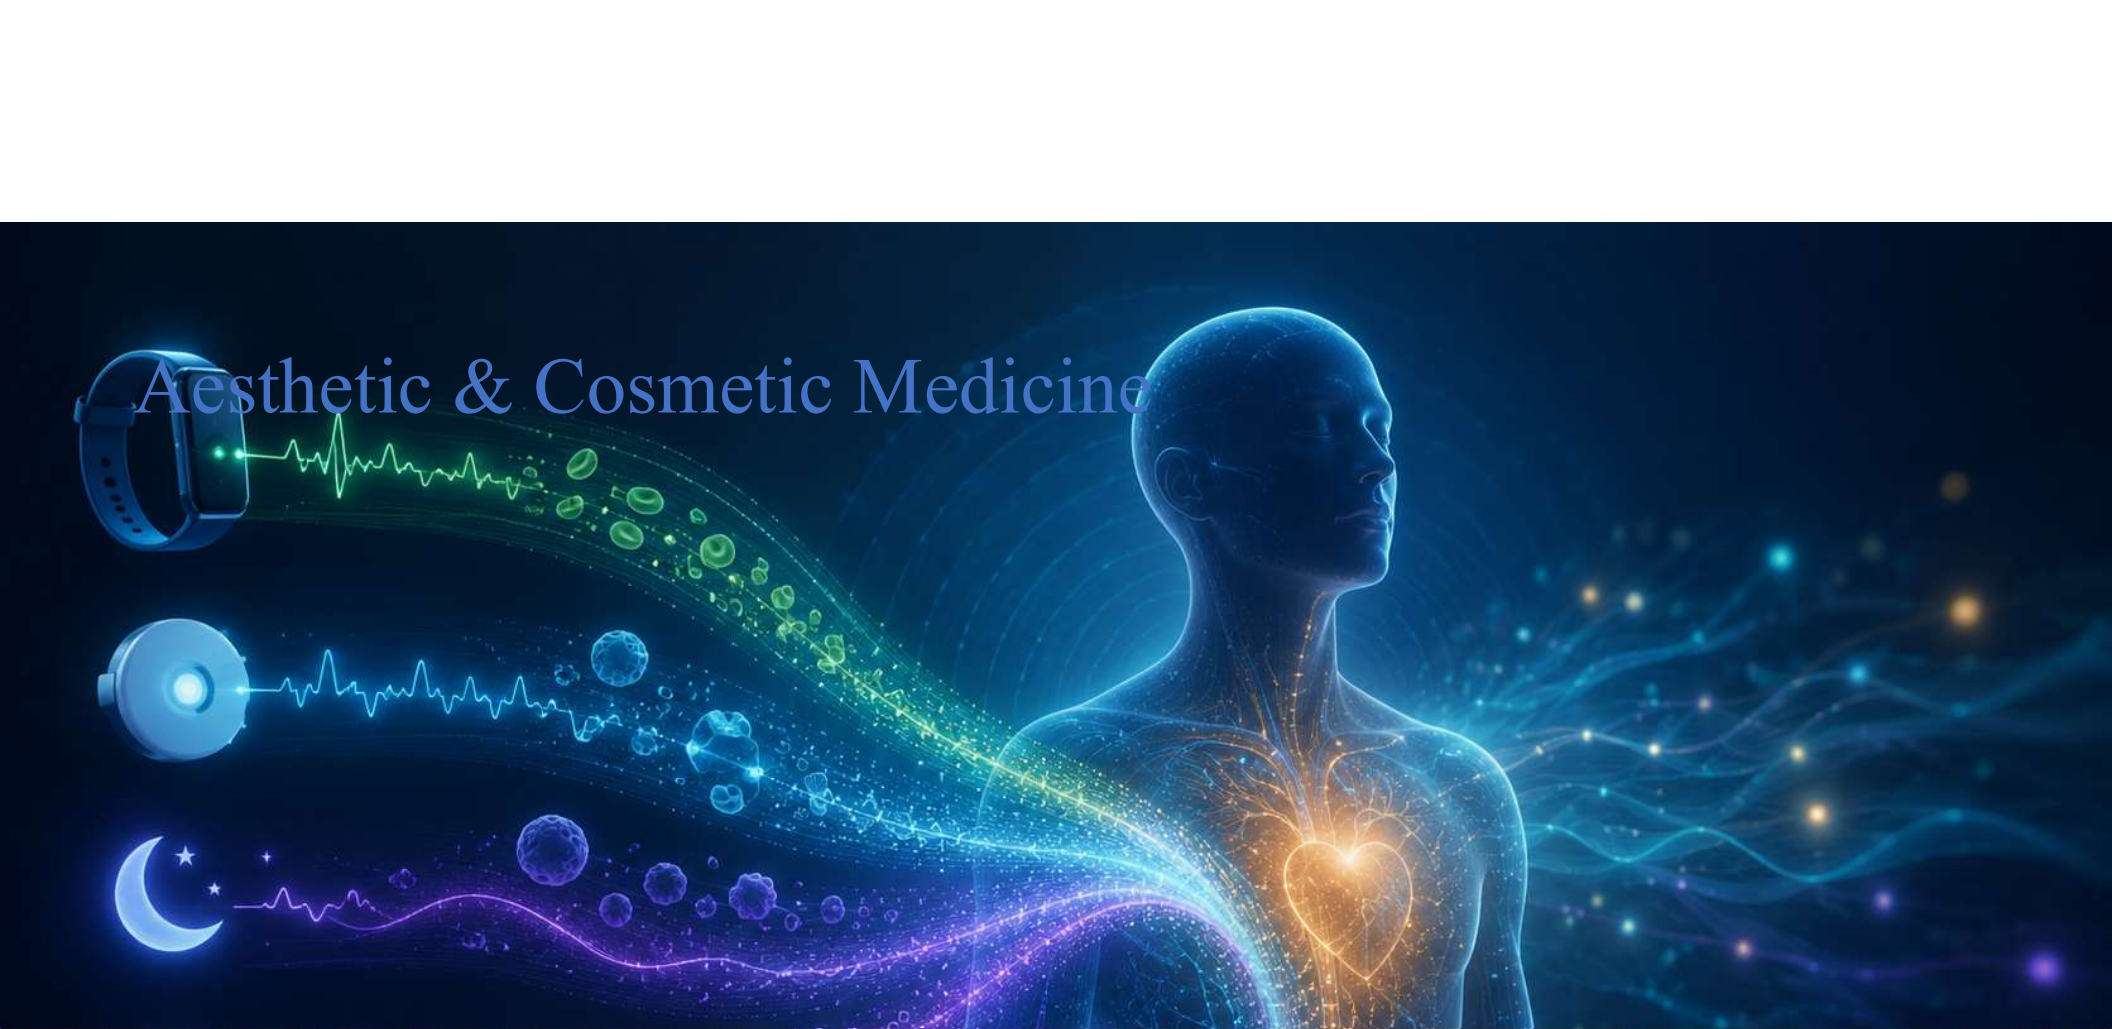

Exosome Microneedling, PRP, CO2 Laser, RF tightening

PRP, Exosome Scalp Therapy, LLLT (Patent 202621051314)

Botox, Fillers, HA, Calcium Hydroxyapatite

Collagen, Omega-3s, Biotin, Astaxanthin

Exosome serums, Growth factor shampoos (Patent 202621059680)

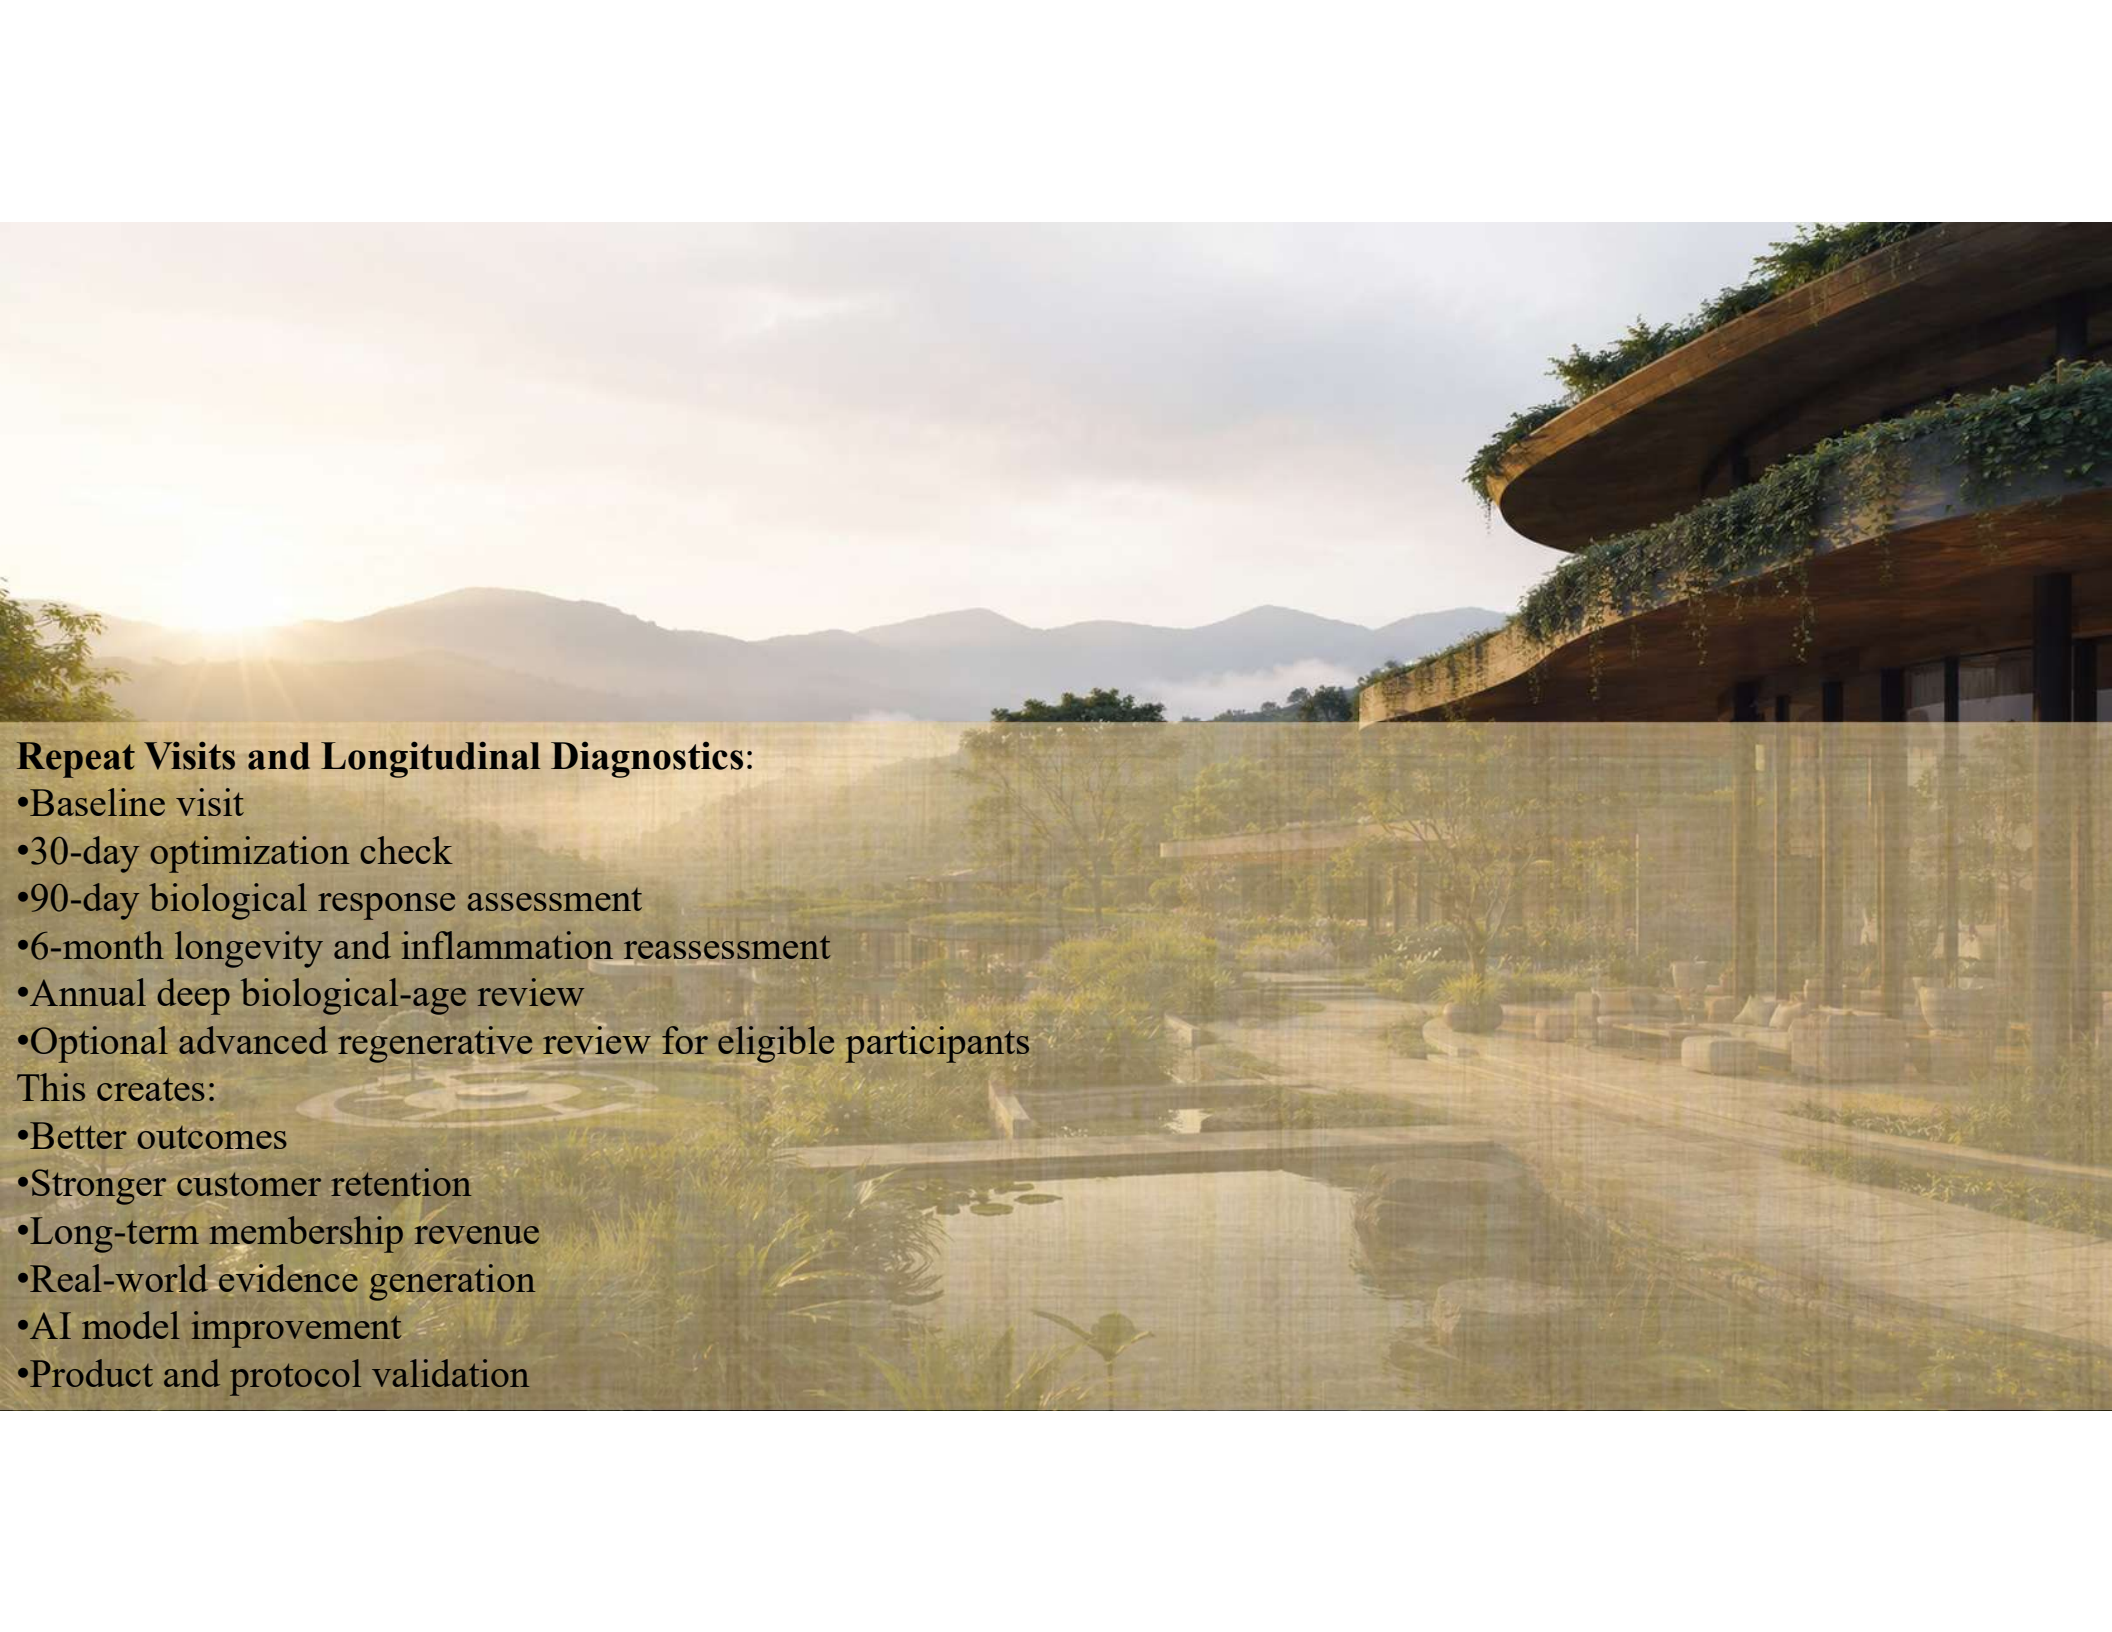

Aesthetic & Cosmetic Medicine

Stack	Example Ingredients
Longevity Core	NAD+, NMN, Resveratrol, Fisetin, Apigenin
Mitochondrial Support	CoQ10, PQQ, D-Ribose, Creatine
Antioxidants	Curcumin, Omega-3s, NAC, Glutathione
Neuroprotection	Lion's Mane, Citicoline, Bacopa
Hormonal & Metabolic	DHEA, Pregnenolone, Berberine

Personalized Regenerative Plans:

- Nutrition and metabolic reset
- Sleep and circadian rhythm restoration
- Stress recovery and mental peace program
- Yoga, breathwork, meditation, and counseling
- Physiotherapy and movement restoration
- Herbal supplements and nutraceutical protocols
- Targeted diagnostics and medical referrals
- Longevity monitoring and repeat testing
- Future eligibility for regulated regenerative protocols

The background image is a composite of three distinct scenes. The top portion shows a range of mountains under a soft, hazy sky at sunset or sunrise, with the sun's glow visible on the left. The right portion features a modern, multi-story building with a curved, green roof and large glass windows. The bottom portion depicts a lush garden with a winding stone path, various plants, and a small, calm pond in the foreground.

Repeat Visits and Longitudinal Diagnostics:

- Baseline visit
- 30-day optimization check
- 90-day biological response assessment
- 6-month longevity and inflammation reassessment
- Annual deep biological-age review
- Optional advanced regenerative review for eligible participants

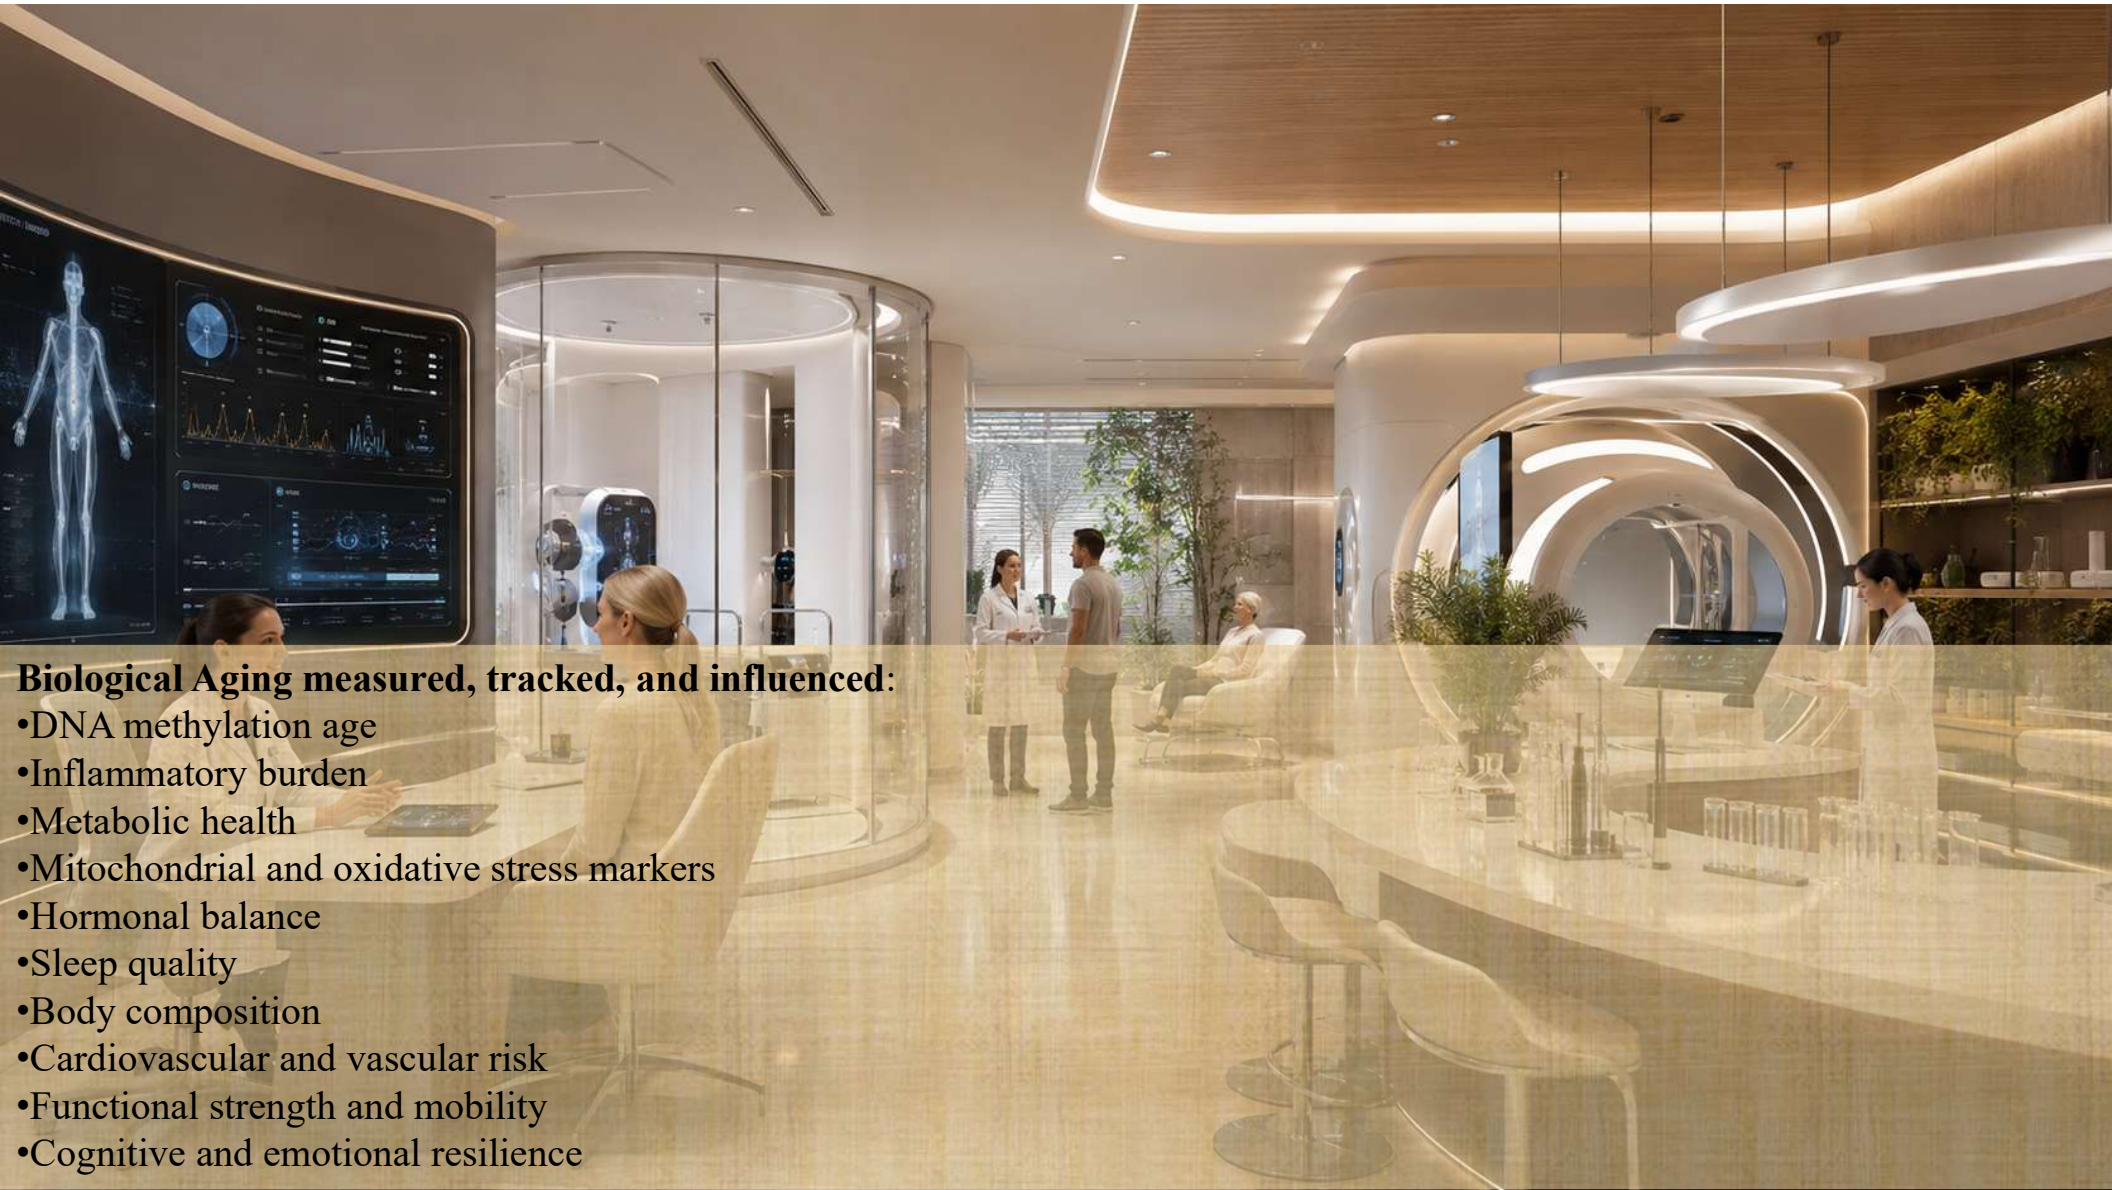

This creates:

- Better outcomes
- Stronger customer retention
- Long-term membership revenue
- Real-world evidence generation
- AI model improvement
- Product and protocol validation

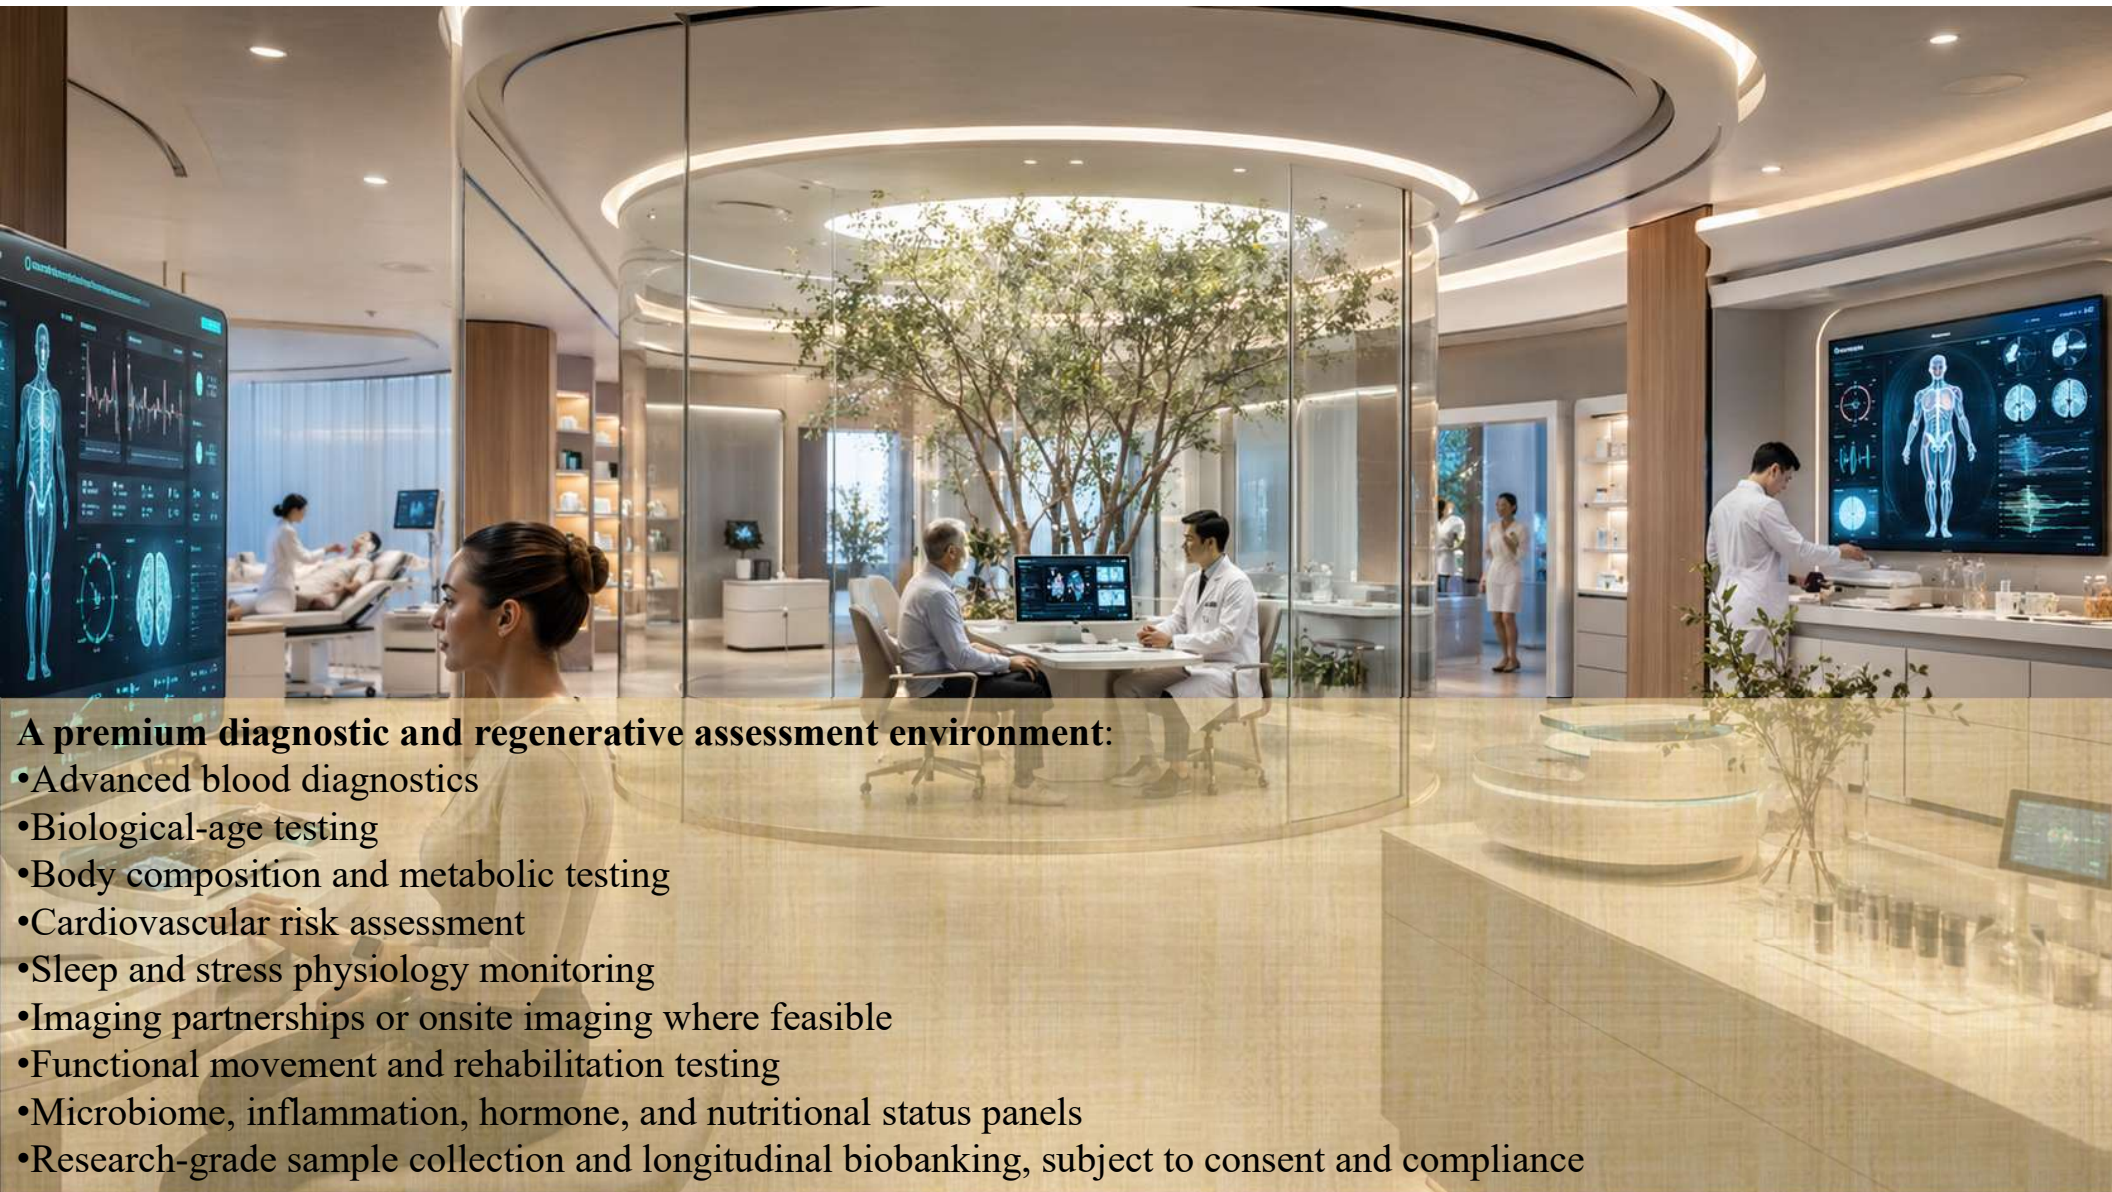

A regenerative retreat and medical innovation center:

- Luxury retreat environment
- Advanced diagnostic and instrumentation center
- Repeat lab testing and longitudinal monitoring
- Biological aging assessment
- AI-based health intelligence
- Personalized health and longevity plans
- Herbal supplement development and manufacturing
- Cell and exosome research / regulated therapeutic pathways
- Medical, nutritional, psychological, physical, and regenerative care plans

Biological Aging measured, tracked, and influenced:

- DNA methylation age
- Inflammatory burden
- Metabolic health
- Mitochondrial and oxidative stress markers
- Hormonal balance
- Sleep quality
- Body composition
- Cardiovascular and vascular risk
- Functional strength and mobility
- Cognitive and emotional resilience

A premium diagnostic and regenerative assessment environment:

- Advanced blood diagnostics
- Biological-age testing
- Body composition and metabolic testing
- Cardiovascular risk assessment
- Sleep and stress physiology monitoring
- Imaging partnerships or onsite imaging where feasible
- Functional movement and rehabilitation testing
- Microbiome, inflammation, hormone, and nutritional status panels
- Research-grade sample collection and longitudinal biobanking, subject to consent and compliance

AI-Based Monitoring Platform: (Patent 202621029678)

- Wearable data: heart rate, HRV, sleep, activity, temperature, SpO₂
- Lab data: metabolic markers, inflammation markers, hormones, liver/kidney function, lipid profile, glucose/insulin profile
- Biological aging data: methylation age, inflammatory age, cellular stress markers, telomere-related data where available
- Clinical history and medications
- Lifestyle and mental wellness inputs
- Imaging and functional testing results

Intellectual Property and Patent Portfolio:
AI-based monitoring and health intelligence
Biological aging and repeated diagnostics workflows
Exosome and cell-based regenerative platforms
Tissue-specific regenerative protocols
Delivery systems and biomaterial formats
Herbal and biologically informed compositions
Monitoring-guided treatment optimization
Personalized health and longevity planning

THE PATH TO IPO

Building a Global AI-Longevity Healthcare Company

INNOVATE. HEAL. SCALE. GO PUBLIC.

AI & DATA
DRIVEN
LONGEVITY

REGENERATIVE
CARE &
WELLNESS

DIGITAL
HEALTH &
WEARABLES

GLOBAL REACH
SUSTAINABLE
GROWTH

1

BUILD FLAGSHIP RETREAT & DIAGNOSTIC CENTER

- Establish world-class regenerative retreat and diagnostic center
- Integrate advanced diagnostics, labs and longevity programs
- Create a center of excellence and brand benchmark

2

LAUNCH AI WEARABLE PLATFORM GLOBALLY

- Deploy AI-powered wearable ecosystem
- Real-time health monitoring & insights
- Global digital launch for customer acquisition

3

SCALE PRODUCT EXPORTS & DIGITAL SUBSCRIPTIONS

- Expand herbal, exosome, and regenerative product lines globally
- Build e-commerce and subscription models
- Drive recurring revenue through digital memberships

4

PARTNER WITH CLINICS ACROSS U.S., EU, MIDDLE EAST & ASIA

- Build strategic partnerships with leading clinics
- Standardize protocols and training
- Expand reach across key global markets

5

GENERATE CLINICAL, PRODUCT & MEMBERSHIP REVENUE

- Grow clinical programs and patient outcomes
- Increase product sales and subscriptions
- Build strong revenue mix with high repeatability

6

PREPARE AUDITED FINANCIALS, GOVERNANCE & REGULATORY COMPLIANCE

- Implement robust governance and internal controls
- Ensure regulatory compliance (Domestic & Global)
- Prepare audited financials and disclosures

7

LIST ON STOCK EXCHANGE AS A GLOBAL AI-LONGEVITY HEALTHCARE COMPANY

- Go public and unlock long-term value
- Fuel innovation, acquisitions, and global expansion
- Create sustained value for shareholders and stakeholders

OUR VISION

To be the world's most trusted AI-driven longevity and regenerative healthcare company, transforming lives and extending healthy lifespan globally.

AI-POWERED
PERSONALIZED CARE

RECURRING REVENUE
& HIGH MARGINS

GLOBAL SCALE
& IMPACT

STRONG IP &
DATA ADVANTAGE

SUSTAINABLE GROWTH
& SHAREHOLDER VALUE

INNOVATING TODAY. HEALING TOMORROW. LEADING THE FUTURE.
