OFFICE USE ONLY

OWNER CONSULTATION CONSENT FORM

At Florida Vet Path, we understand your concern for the health of your pet. Our mission is to provide quality pathology service to the veterinary community. As consultants to licensed veterinarians, we adhere to the principles of the AVMA Florida Practice Act (MVPA). The Practice Act states that a patient-doctor relationship is established when a doctor examines a patient and creates a record of that examination. Since we do not have a patient-doctor relationship with your pet we need written permission from a doctor who does have that relationship in order to discuss any medical details. We will contact your doctor on your request.

PATIENT: _____

OWNER: _____
