

PARAMOUNT

Crafting Exquisite Woodwork Since 1984

Linear Open Panel

Solid Hardwood

Envelope your project with classic linear planks combined with paneled perfection, but for a price point of under what many sell their value engineered products for. Here at Paramount, we pride ourselves on quality and precision, and it shows in our products through and through. With almost 40 years in the commercial woodworking industry our craftsmanship is guaranteed to shine. While others may use inferior raw materials to produce their wood ceilings, we use only the finest component part materials, which ensure that amazing quality every time!! Need help in finding that perfect product for your project?? Reach out to us and let us help!

Ideal Locations

- Libraries
- Airports
- Event Halls
- Schools
- Museums
- Healthcare
