

ALL ABOUT

BEEES

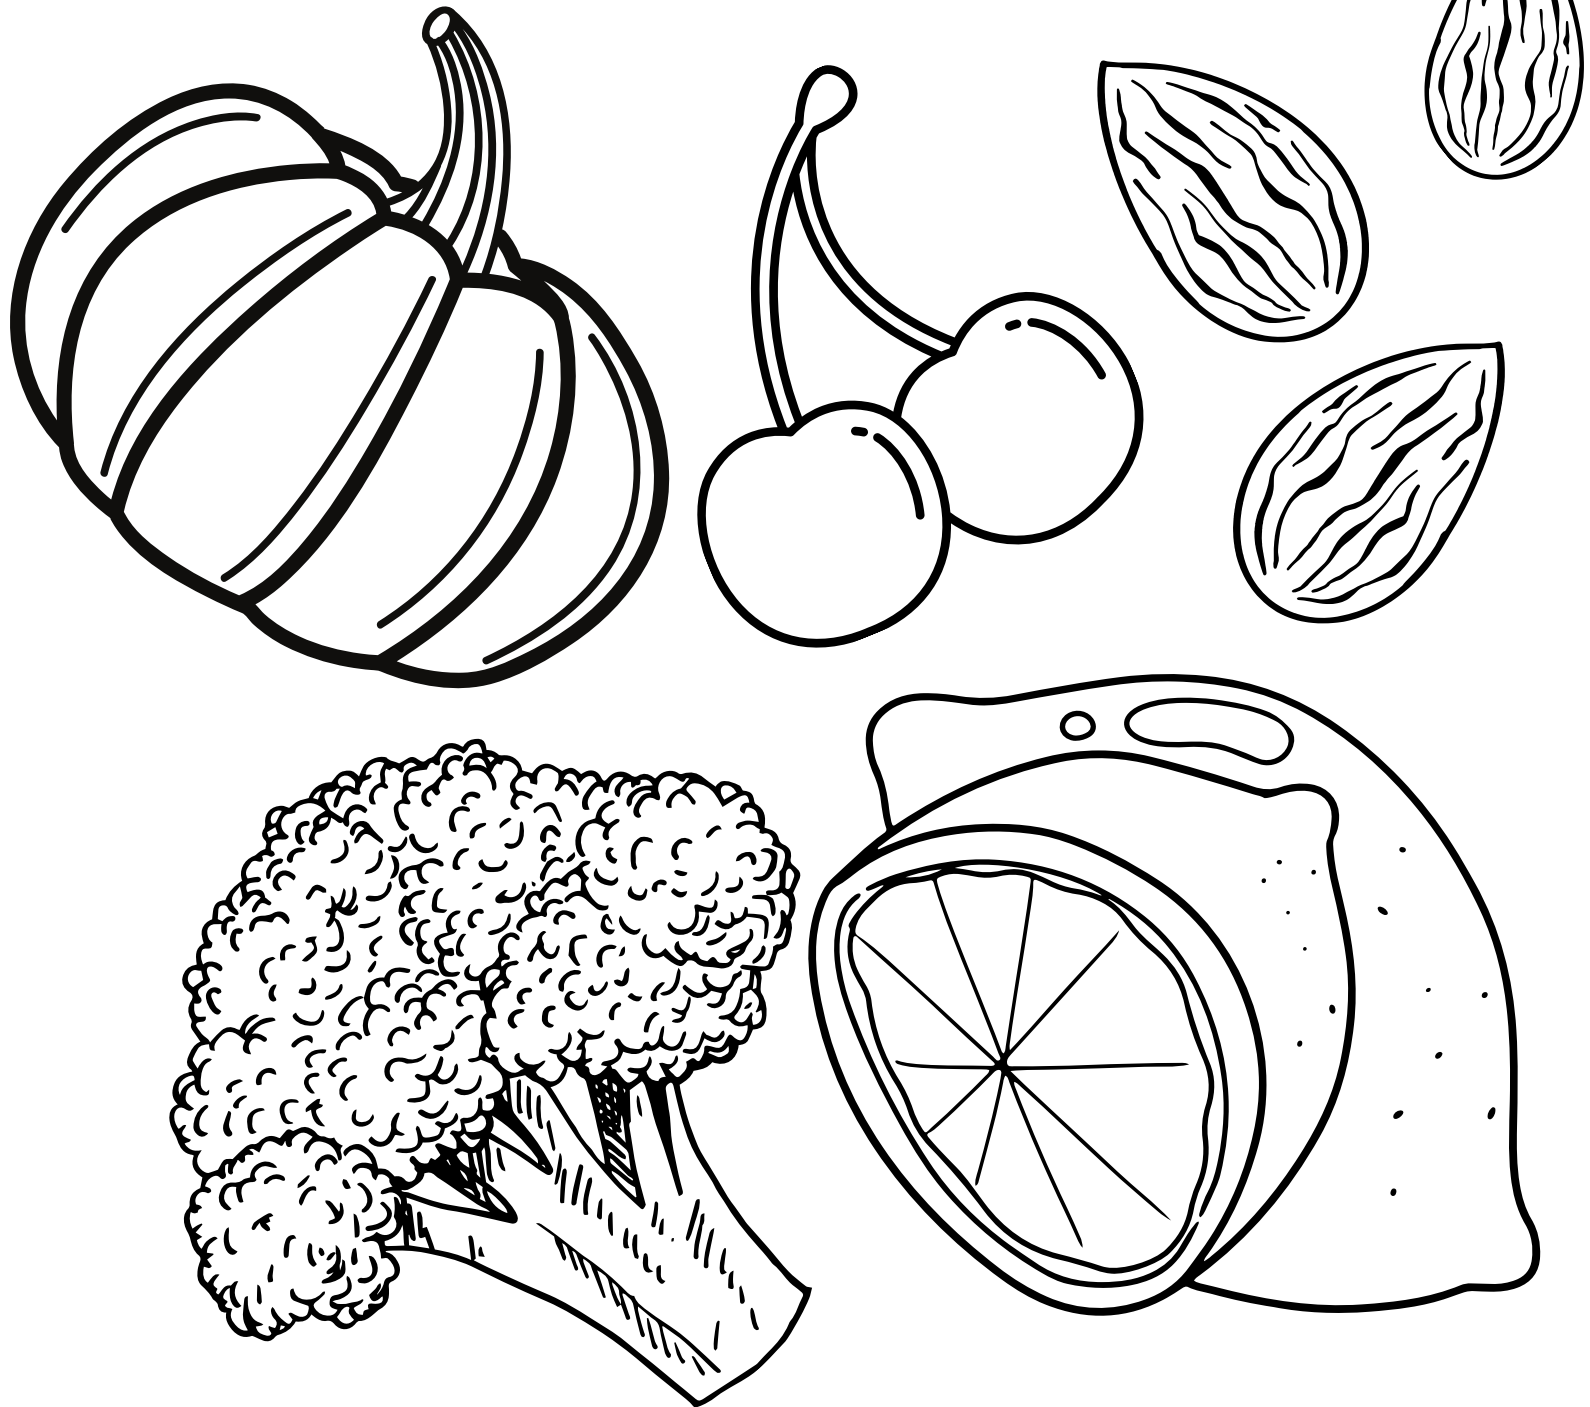

**Bees gather nectar
from many
different flowers
to make honey!**

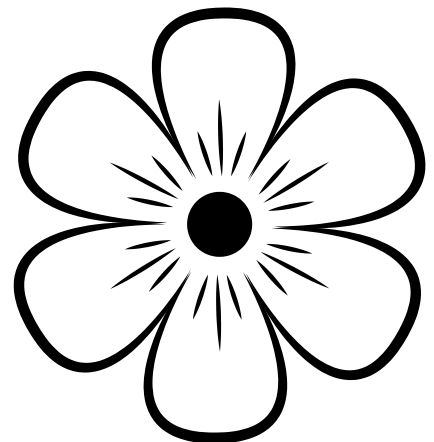

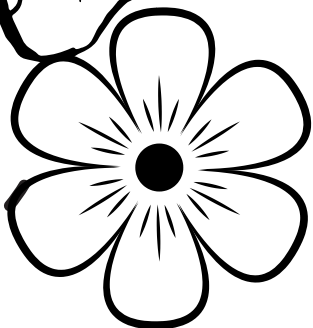

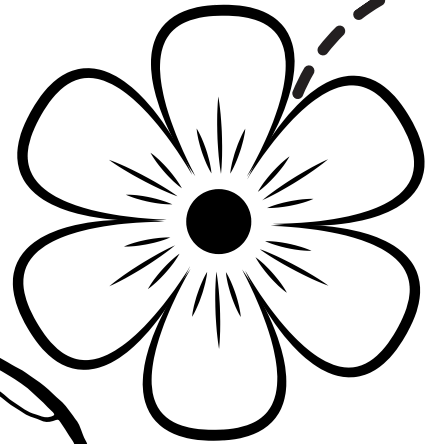

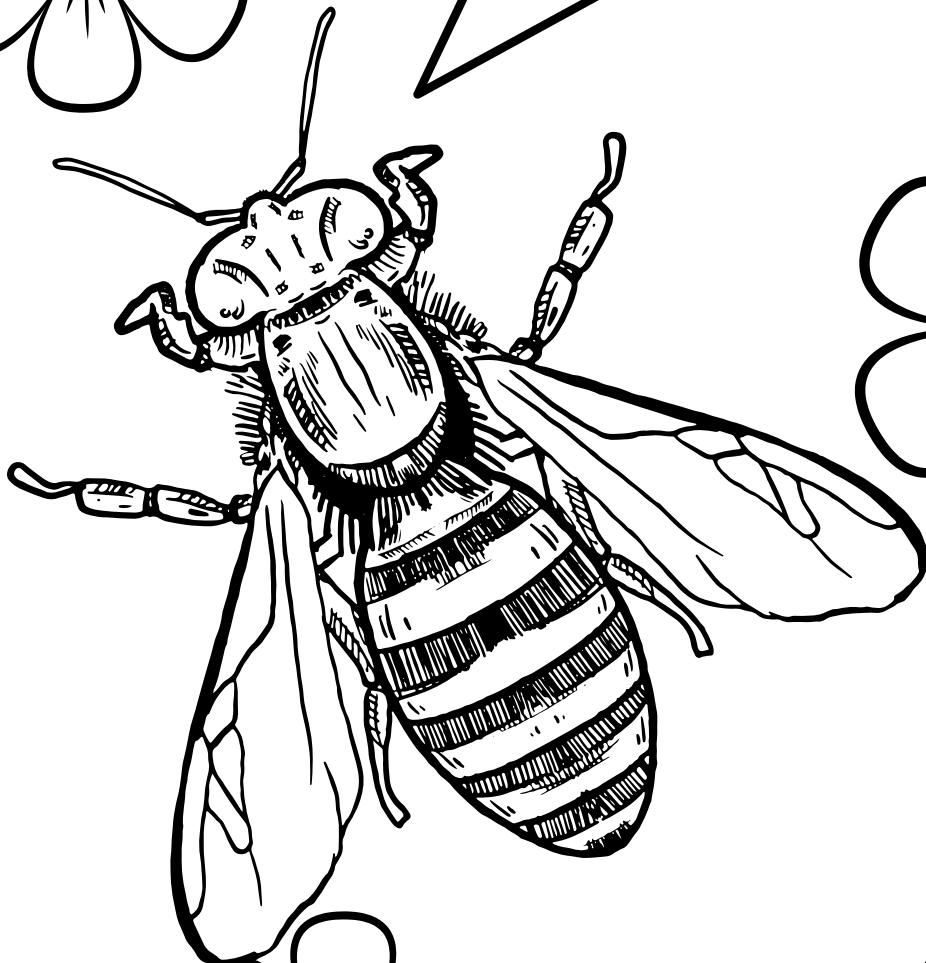

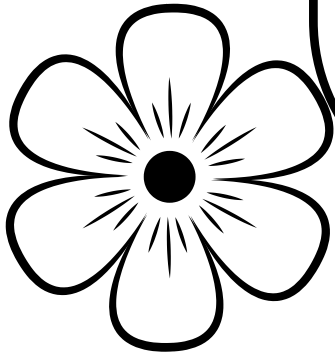

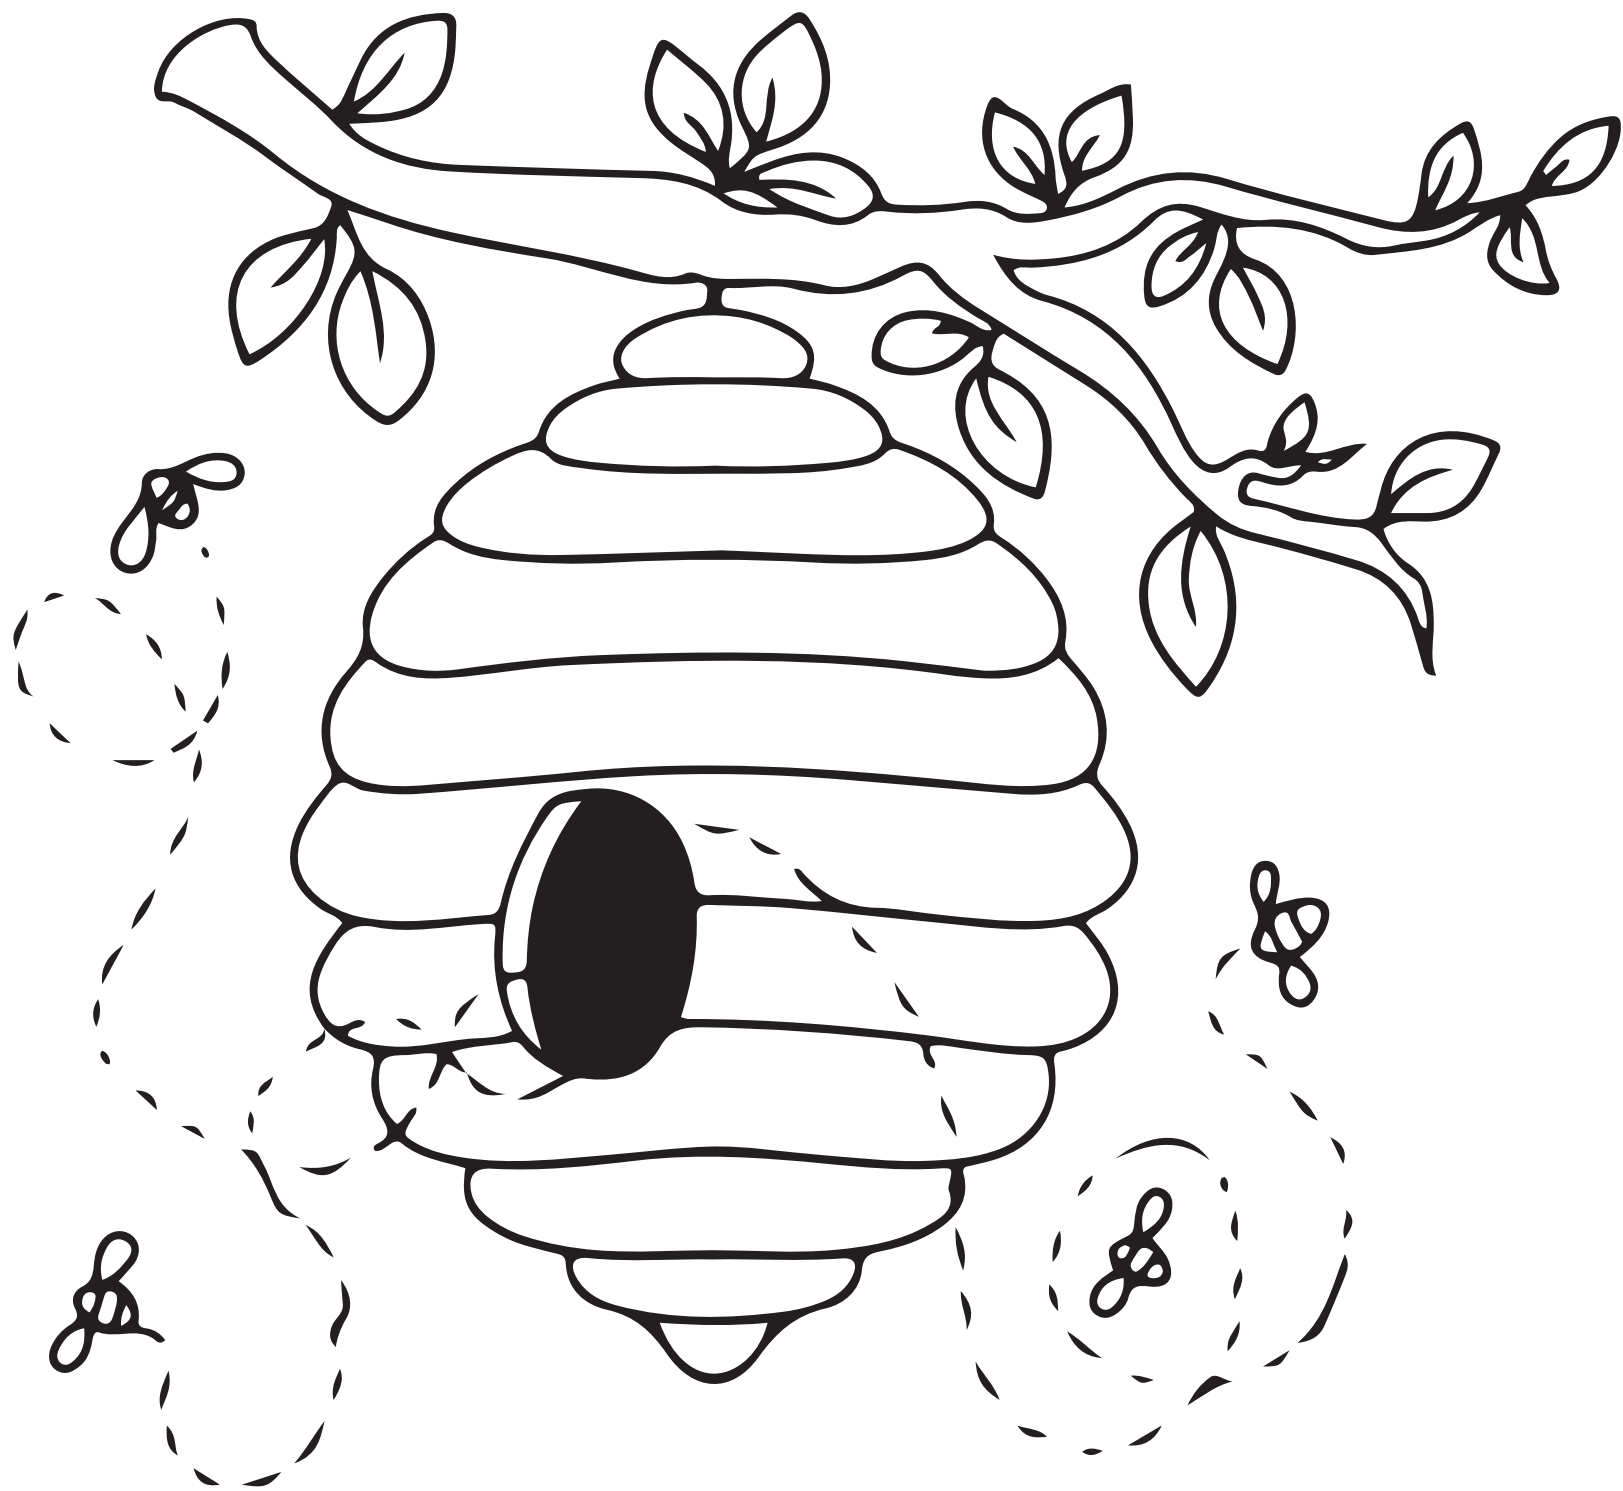

**Bees also visit vegetables,
fruit, and trees. This is why
they're so important, they
help grow our food!**

**The bees make
enough honey that
we get to enjoy it
too!**

Bees live inside a beehive. !

Bees also can live in hives that look like this. These hive boxes are what beekeepers use!

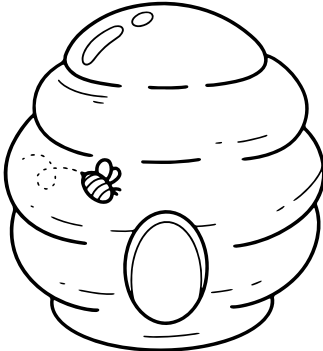

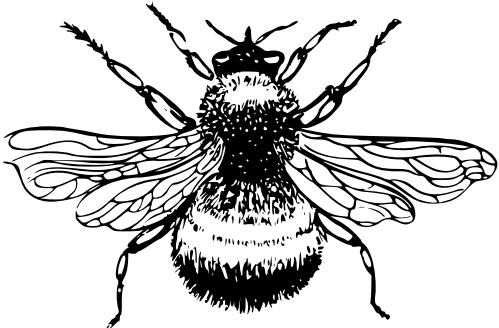

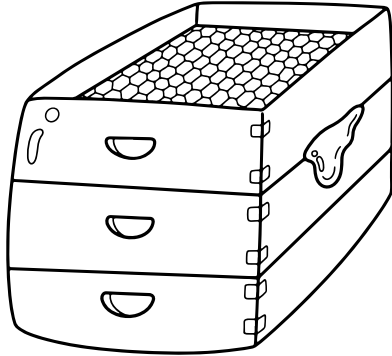

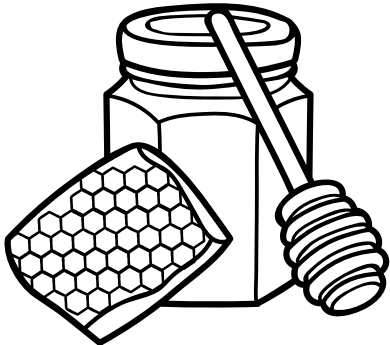

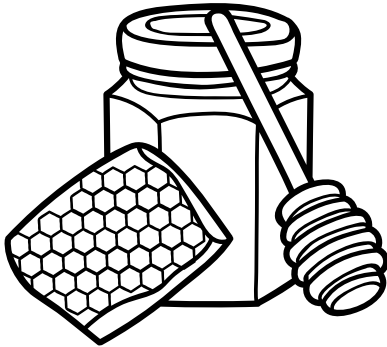

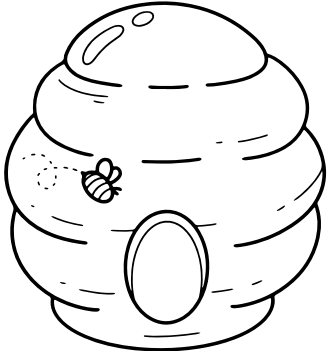

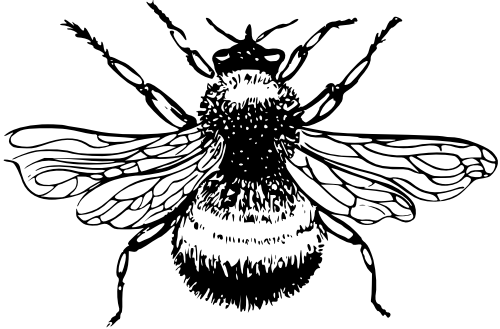

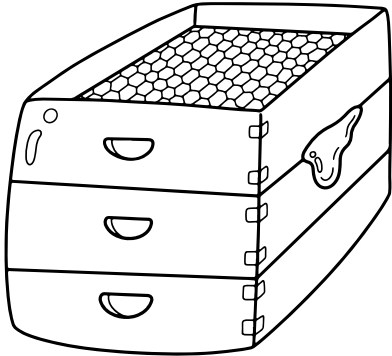

**Beekeepers wear a suit
like this when caring
for their bees.**

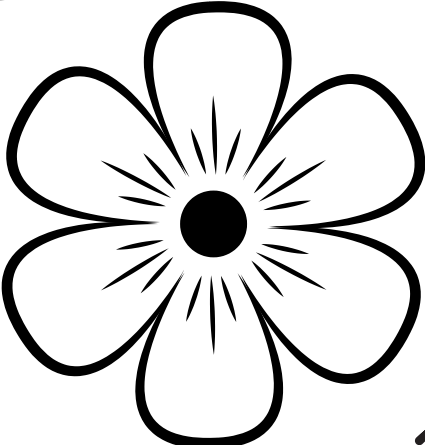

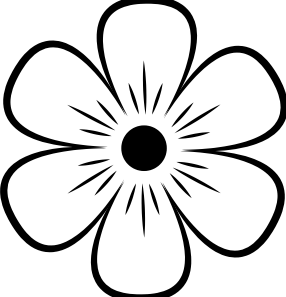

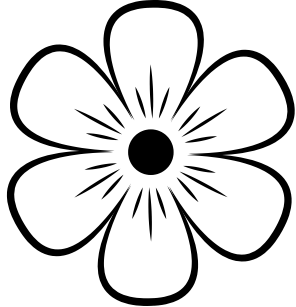

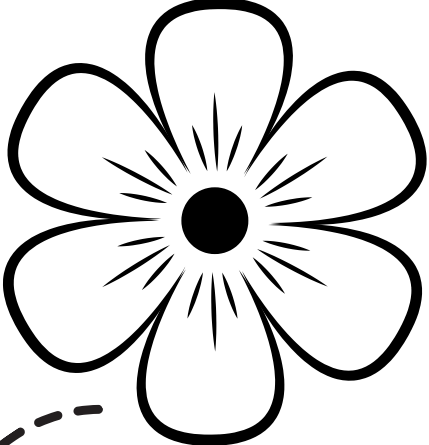

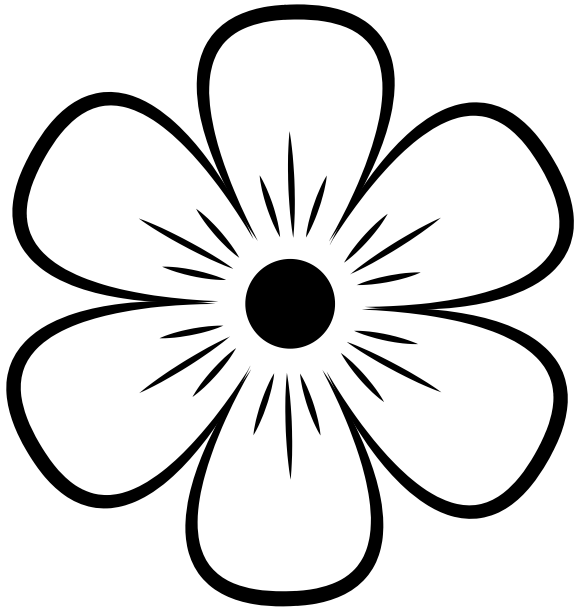

**Butterflies, bats, and
hummingbirds are
pollinators too!**

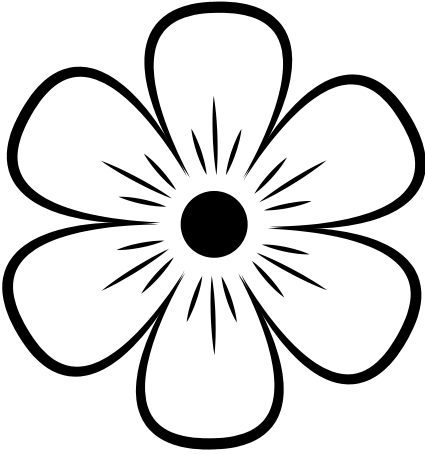

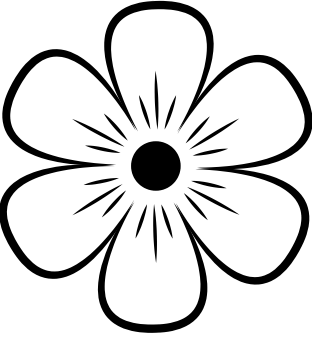

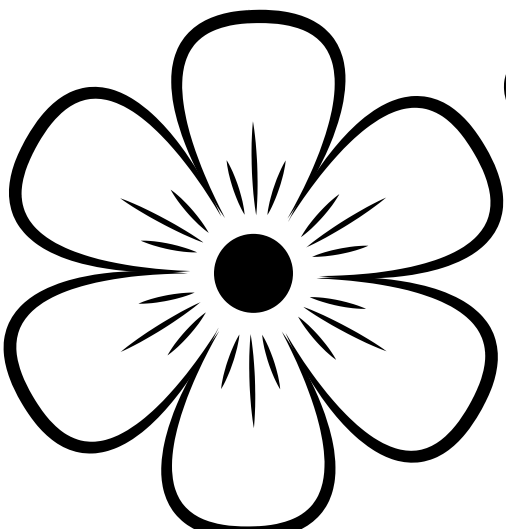

MATCH THEM UP!

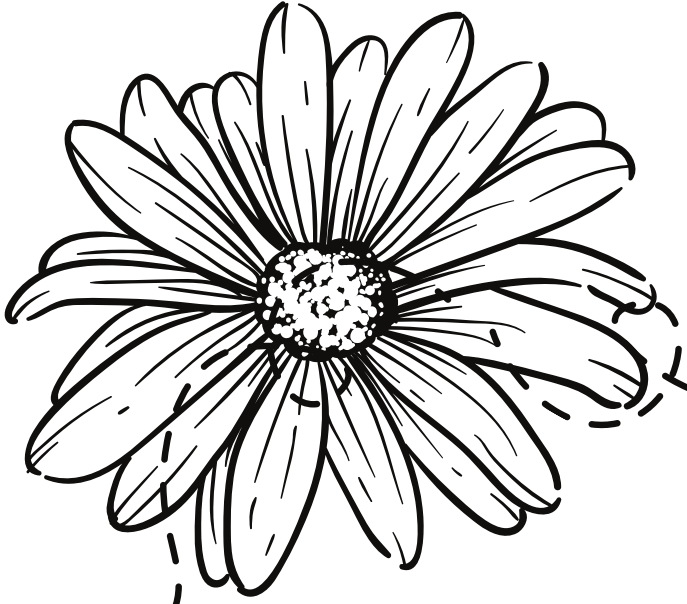

How many
Can you
find in our
coloring book?

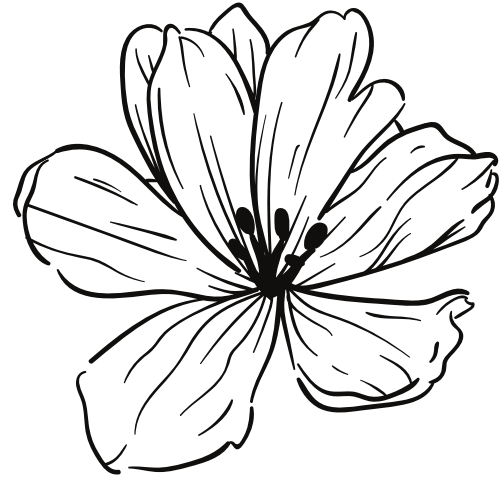

YOUR ANSWER: _____
