Vinyl Privacy Fencing: The Top Choice for Home and Business Owners

Vinyl privacy fences have swiftly become the most popular fencing option for homeowners and business owners alike, and it's easy to see why! They not only transform your backyard into a serene and private retreat but also enhance its visual appeal. Before the advent of vinyl privacy fencing, homeowners often resorted to wooden fences. However, they quickly discovered that wood required extensive maintenance, offered limited customization, and typically lasted only about a decade—if they were lucky. Vinyl privacy fencing addresses all these concerns without significantly increasing your investment. Each fence comes with a limited lifetime warranty that can be transferred once if you decide to sell your home. In addition, these fences are fully customizable, allowing you to choose from various colors, accents, heights, and more! Want to make your fence truly unique? Check out our picket styles page to explore the different options for accents to top your fence.

Semi Privacy

Looking for a balance between privacy and openness? Consider our semi-privacy fences! Many of these versatile fences can be tailored into styles #1 through #4 and are typically available in heights of 4', 5', and 6', with additional height options upon request. Please note that heights of 5' and above require a mid rail for strength. Our standard colors include sand and white, but don't hesitate to ask one of our associates about a variety of color options, as many profiles are available in multiple hues. If you're not finding exactly what you want, every piece is fully customizable, giving you the chance to virtually build your own unique fence style! Ask one of our associates for more information!

Vinyl Picket

Enhance Your Yard with Vinyl Picket Fencing!
A vinyl picket fence can truly elevate your yard, providing your home with a warm and welcoming appearance. However, these are not your typical picket fences! Nature Coast Fence Supply has crafted these fences with a modern flair, considering the contemporary consumer's expectations. Available in heights ranging from 4' to 6', (with additional options as well) these fences are both practical and functional. Most fences can be used as styles #1-#4. Remember, almost any of these styles can serve as a distinctive accent to a privacy fence, making it uniquely yours!

Style #1

A modern flush top style with a clean appearance and no picket caps required. Style #1 is typically the most cost effective choice and standard heights are 4', 5', 6' with custom sizes available. Heights 5' & 6' will have a mid rail for strength.

Style #2

A classic style #2 fence has pickets extending through the top rail that remain even with each other throughout the entire fence. These pickets can be topped with either dog ear or sharp picket caps, further customizing your fence. Standard heights are 4', 5', 6' with custom heights available. Heights 5' & 6' will have a mid rail for strength.

Style #4

If you're looking for a bit more, consider styles #3 or #4. Style #3 offers a scalloped (concave) arch while style #4 offers a reverse scallop (convex) arch. Both styles will allow your choice of picket caps. Standard heights are 4', 5', 6' with customization options available. Heights 5' & 6' will have a mid rail for strength.

Style #3
