To our Loving Connections community,

We wanted to reach out to you and inform you that we are well aware of what is going on in today's world and the precautions that are being taken around COVID-19. We want to ensure you that the health and wellness of our clients, volunteers, staff, and board members are all top priority at this time.

We are aware that we work with immune-compromised individuals, which is why we made the heartbreaking decision to put our community's health first and announce that we are canceling sessions until further notice. In a time that is taking away so much from people and isolating humans from the outside world, we tried our hardest to be what our clients needed in order to cope with the changes in their daily lives. Unfortunately, between a combination of the closure of schools and the health hazards to the older population, our resources are extremely low.

We hope you understand the precautions we are taking and continue to support Loving Connections upon reopening. Thank you for supporting our desire to accomplish our mission as safe as possible.

Best,
Franky Greaves
Executive Director.

P.S - With a cut in volunteers and a need to stockpile feed, we NEED YOUR HELP to get us through! -- Please visit us at www.LovingConnections.org and head to our donation page to find out how you can help!
