	Practice Paper - 15

Class : X

Subject: English Language (Project)

Sr. No.

Practicals / Projects / Assignments

Write the following compositions (300-350 words) on the following topics:

1	"Playing games on mobile phone is a stress buster." Express your views either for or against the topic.
2	Voting for Lok Sabha elections should be compulsory.' Express your views either for or against the topic.
3	Write a short story which illustrates the truth of the statement, "Self help is the best help."
4	Write a short story which illustrates the truth of the statement, "As you sow, so shall you reap."
5	As a student you have worked on many projects. Narrate your experience of completing your most memorable projects.
6	Narrate an experience that made you realise that your parents were right. State what you have learnt from that experience.
7	Describe your visit to a slum area and express your concern how poverty has affected our society.
8	You had been waiting outside the examination hall. Describe what you saw and the sounds you heard when you arrived at the place. What were your feelings? Describe how the scene changed once you entered the hall and the examination started.

Physics Practicals

Sr. No.	Practicals / Projects / Assignments
1	To determine the mass of a metre rule using the principle of moments.
2	To determine the centre of gravity of an irregular lamina using plumb line method.
3	To determine the magnitude of an unknown mass suspended in a uniform metre rule using principle of moments.
4	To determine the point of suspension of a given mass in a uniform metre rule so, as to balance it horizontally.
5	To determine the melting point of wax.
6	To determine that boiling of water takes place at a constant temperature. Hence determine the boiling point of water.
7	To demonstrate refraction of light through a rectangular glass slab. Also measure the lateral displacement.
8	To determine course of rays passing through triangular prism. Find angle of prism(A) ,angle of deviation (δ) and verify $i_1 + i_2 = A + \delta$
9	To show the effect on resistance when two bulbs connected in series and in parallel.
10	To draw the magnetic field lines of a bar magnet.

Chemistry Practicals

Sr. No.	Practicals / Projects / Assignments
1	To find the effect of heat on a given substance (ZnCO_3)
2	To find the effect of heat on a given substance ($\text{Zn(NO}_3)_2$)
3	To find the effect of heat on a given substance ($\text{Cu(NO}_3)_2$)
4	To determine whether the given solution A and B are acidic or basic in nature.
5	Identification of metallic radicals with the help of flame test.
6	Identify the gas evolved by adding dilute hydrochloric acid to a metallic carbonate.
7	To identify the gas evolved by adding hydrochloric acid to active metal.
8	To identify the gas evolved by adding Conc (H_2SO_4) to a metallic chloride.
9	To find the PH of different substance.
10	To perform the flame test for calcium salt.
