	Practice Paper - 15
Class : IX	Subject: English Language (Project)
Sr. No.	Practicals / Projects / Assignments

Write the following compositions (300-350 words) on the following topics:

1	Gluttony kills more than the sword. 'Give your views either for or against the statement.
2	Co-Education does more harm than good?' What are your thoughts on this view?
3	Describe an accident you witnessed or one in which you were involved.
4	Describe a popular bazaar in your locality. In your description include an interesting scene which you frequently come across in such places.
5	Write an original composition beginning with the sentence : If only I had told the truth.
6	Write a short story beginning with "In the faint light we could see"
7	Experience is the best teacher.
8	What according to you are the traits that make a teacher an ideal one and popular among the students.

Months	Chapter Name
March	Measurements and Experimentation
	Motion in One Dimension
April	Motion in One Dimension
	Laws of Motion
May	Pressure in Fluids and Atmospheric Pressure
June	Upthrust in Fluids, Archimedes' Principle and Floatation
July	Heat and Energy
August	Reflection of Light
September	Reflection of Light
October	Propagation of Sound Waves
November	Current Electricity
	Magnetism
Class : IX	Subject: Physics (Practical)
Sr. No.	Practicals / Projects / Assignments
1	Experiment: To determine the least count of the vernier callipers and measure the diameter of a small sphere.
2	Experiment: To determine the least count of a screw gage and measure the diameter of a wire.
3	Experiment: To measure the length, breadth and thickness of a rectangular glass block using a metre scale (correct to mm). Calculate the volume of the block in cm^3 and m^3 .
4	Experiment: To measure the mass (not weight) and volume of a rectangular glass block in S.I. units. Determine the density of glass in S.I. unit using its mass and volume.
5	Experimental verification of Archimedes' Principle using cylinder.
6	Experimental verification of Archimedes' Principle using solid.
7	Experiment: To verify the laws of reflection (angle of incidence = angle of reflection) using plane mirror.
8	Experiment: To show the effect on resistance in series and parallel combination.
9	Experiment: To show the magnetic field lines using bar magnet.
10	Experiment: To show that a bar shows magnetic properties only when an electric current flows through the solenoid.
