BIENNIAL REPORT · REPORT TO THE EXECUTIVE COMMITTEE

FAPA College of Pharmacy Biennial Report 2025–2026

Report on 2025–2026 and Strategic Plan 2027–2030

Edition: Full Report, kept as the FAPA CP record. A Summary will be submitted to FAPA after consolidation (by 2 November 2026).

Status: Draft, 1 November 2026. Activities after this date are shown as scheduled.

Chapter reports: Thailand, Indonesia and Philippines, from their Chapter Report 2025–2026 and Plan 2027–2030 submissions and nominations (31 October 2026).

Executive Summary

In 2025–2026 the College certified 80 new Fellows and conferred 6 Honorary Fellowships. Its first microcredential cohort of 50 trainees completed training, and the Thailand Chapter took on four research projects. Charter Version 1.0, ratified on 28 March 2025, gave the College its governance base for the period. All certifications took place in 2026; none were made in 2025.

All three chapters submitted their reports and plans for 2027–2030 (Part B), and nominated members to the Academic and Quality Assurance Committees, the Academic Forum and the Selection Committee (Part A). The Philippines Chapter, inaugurated in March 2026, set up four committees for specialization, quality assurance, partnerships and research, and proposed eight topics for future forums.

FAPA CP now reports every two years, in step with the FAPA Congress. Headquarters reports college-wide activities in Part A. Each chapter reports its own activities, plan and targets in Part B, using a common chapter template. Part C is the FAPA CP Strategic Plan 2027–2030, which is part of this report rather than a separate document.

Function	Headquarters (college-wide)	Chapters
Professional credentialing	12 founder Fellows certified for the Philippines Chapter; 6 Honorary Fellowships conferred; register now 241	68 Fellows certified in chapter cohorts: Thailand 22, Indonesia 29, Philippines 17
Education and training	First FAPA CP microcredential badges issued	Thailand: FDA-AI-01 delivered to 50 trainees; FDA-AI-02, MTM and pharmacovigilance curricula in development. Philippines: Digital Health curriculum in development; first CPD webinar
Academic exchange	FAPA CP Academic Forum: AMO (Advanced Medication Optimization) Asia Forum, grown from the monthly MTM Forum started in August 2025, with Season One from August 2026; Pharmacovigilance and Pricing and Patient Access Forums forming	Indonesia (two leaders) and Thailand (one leader) co-lead AMO Asia; Thailand leads the Pharmacovigilance Forum; all three chapters nominated forum co-leaders
Research networks	Projects held through the FAPA CP Foundation	Thailand: four projects, two under contract, one awaiting HSRI approval, one submitted to the Lancang–Mekong Cooperation Special Fund. Indonesia and Philippines: research planned from 2027. 32 presentations at FAPA Congress 2026, including 3 cross-chapter studies
Recognition and grants	Three Dr. Kasem Pangsrivongse Awards; eight FAPA Congress 2026 registration grants	Each chapter selected its own grant recipients

Function	Headquarters (college-wide)	Chapters
International collaboration	Coordinated PharmaQuest at CPHI South East Asia 2026; Watsons Health Convention, with the Philippines Chapter	Thailand: MOU with ISPOR Thailand Chapter. Philippines: alignment adopted by PPhA Board Resolution. Indonesia and Philippines: pharmacy students took part in PharmaQuest

Three developments merit the Committee's attention. First, research has moved from planning to implementation: two projects are under signed contracts, a third awaits HSRI approval and a fourth has been submitted for funding. Second, training has moved from curriculum design to delivery: the first microcredential cohort has completed the course, and a second follows in the first quarter of 2027. Third, the chapters have begun to research together: three cross-chapter studies are presented at FAPA Congress 2026 (Part A4).

The decisions requested of the Executive Committee are set out in Part D.

Part A. Headquarters: college-wide activities

A1. Governance

Charter Version 1.0 was adopted and ratified by the Executive Committee on 28 March 2025. It is the College's governing document and binds all chapters and members. The College operates as an affiliate of FAPA, supported by the **FAPA College of Pharmacy Foundation** (established 26 January 2024), through which research projects are held.

The four-year term of the current President, Rungpetch Sakulbumrungsil, ends in 2026. The next President will be the first appointed under Charter Version 1.0, by majority vote of the Executive Committee, for the 2027–2030 term, and takes office on 1 January 2027. The Executive Committee agreed to establish a **Selection Committee** to oversee and manage the selection process. It has three representatives from each chapter, who elect a Chair from among themselves. The committee first meets on 7 November 2026. By 31 October 2026 each chapter had nominated one representative:

Chapter	Representative on the Selection Committee
Thailand	Assoc. Prof. Kampanart Huanbutta
Indonesia	Mr. Nurul Falah Eddy Pariang
Philippines	Vina Rose Dahilig-Talan

The Executive Committee agreed three representatives per chapter; it is asked in Part D whether to proceed with one per chapter or to invite two more from each chapter.

Two standing committees are proposed so that standards are set jointly by all chapters, each with two members nominated by every chapter and a term aligned with the President's, 2027–2030:

Committee	Chair	Remit
Academic Committee	Academic Director, Assist. Prof. Khunjira Udomaksorn	Training curricula, microcredential modules and credit values; academic forums and CPD content; review of chapter training programs before endorsement (Charter Art. IV s.3)
Quality Assurance Committee	Assoc. Prof. Nusaraporn Kessomboon	Certification standards and assessment consistency across chapters; certification route for training sites and non-Fellow preceptors; FAPA CP Certification Guidelines (Charter Art. V s.4)

The chapters have nominated the following members:

Committee	Thailand	Indonesia	Philippines
Academic Committee	Assoc. Prof. Anuchai Theeraroungchaisri Assoc. Prof. Wichai Santimaleeworagun	Mrs. Tuty Sriwahyuni Mr. Franciscus Cahyo Kristianto	Asst. Prof. Renz Kenneth G. Cadiang Stephen Rae G. Fontanilla
Quality Assurance Committee	Assoc. Prof. Chanuttha Ploylearmsang Assoc. Prof. Nattiya Kapol	Mr. Henry Kurnia Setiawan Mrs. Ika Mulyono Putri Wibowo	Dr. Mark Harvey B. Adamson John Christian Y. Lara

It is also recommended that the Executive Committee meet every two months to review progress, discuss important issues and coordinate activities.

A2. Professional credentialing

The register comprises 241 Fellows: 226 certified Fellows across the three operating chapters and 15 Honorary Fellows recognized regionally.

Chapter	Total certified Fellows	Certified in 2026
Thailand	133	22
Indonesia	64	29
Philippines	29	29 (12 founder Fellows, 17 chapter cohort)
Subtotal, certified	**226**	**80**
Honorary Fellows (regional)	15	6
Total on register	**241**	**86**

Who certifies. Headquarters certifies the founder Fellows of each new chapter. After that, each chapter assesses and certifies its own cohorts with the same standard and process. In 2026, Headquarters certified the 12 founder Fellows of the Philippines Chapter, among them Dr. Margarita M. Gutierrez, RPh, MHPEd, PhD, appointed in October 2026 as Director General of the Food and Drug Administration, Department of Health, Philippines. The chapters certified 68 Fellows in their own cohorts, reported in Part B.

Certified by	Applicants	Eligible and assessed	Certified	Route
Headquarters: Philippines founder Fellows	17	17	12	Founder Fellows
Thailand Chapter	23	23	22	11 equivalent track, 11 experiential track
Indonesia Chapter	54	39	29	29 experiential track
Philippines Chapter	17	17	17	17 experiential track
Total	**111**	**96**	**80**	

Of the 111 applicants, 15 did not meet the eligibility requirements and were not assessed. Of the 96 who were assessed, 16 were not certified. The assessment works as a real filter, not a formality, which protects the value of the credential.

Six Honorary Fellowships were conferred: three on recipients of the Dr. Kasem Pangsrivongse Award, and one each in Taiwan (Dr. Yuh-Lih Chang, FAPA President-elect), the Philippines (Professor Aleth L. Therese Dacanay) and Thailand (Dr. Pramote Cholayudth). Honorary Fellowship is a separate, regionally conferred category and is counted apart from certified Fellows throughout this report.

A3. Academic exchange: the FAPA CP Academic Forum

The FAPA CP Academic Forum is a college-wide program. Headquarters runs it, and every chapter provides leaders and participants. Each forum topic is offered in three formats:

- **Online forum seasons:** monthly one-hour sessions, each built around one real case.
- **Webinars:** forum content developed into webinars for pharmacists, offered one or more times a year.
- **FAPA Congress workshop:** a workshop on the topic at every FAPA Congress.

Each forum has co-leaders from more than one chapter. Chapters report their own contribution, such as leaders, sessions hosted and participants from their country, in their chapter reports.

AMO (Advanced Medication Optimization) Asia Forum

The AMO Asia Forum, a one-hour monthly online case forum, grew out of the MTM Forum started in August 2025. It relaunched in August 2026 with a broader focus on medication optimization, to better serve

practitioners and reach more participants. Season One, *From MTM to Medication Optimization: Exploring an Asian Approach*, began on 27 August 2026.

Round	Date	Status
01	27 August 2026	Delivered
02	18 September 2026	Delivered
03	15 October 2026	Delivered
04	19 November 2026	Scheduled
05	17 December 2026	Scheduled

All sessions run at 19:00 Bangkok and Jakarta, 20:00 Singapore, Manila and Kuala Lumpur, and 21:00 Tokyo and Seoul. The season is led collaboratively by Kevin Ben Laurence and Elisabeth Ira Puspita Chandra from Indonesia, with Phenpitcha Somton from Thailand.

The forum has four aims, abbreviated SEED: **S**hare real-world practice, **E**xchange knowledge and insight, **E**xplore innovative collaboration, and **D**evelop professional competency.

The forum is already producing joint research: its three co-leaders, from Thailand and Indonesia, co-authored a scoping review of MTM structural pillars and implementation pathways for Southeast Asia, presented as a poster at FAPA Congress 2026.

Forums forming

Two further forums are forming. Each forum raises a shared question and could develop research to answer it.

Forum	Position	Next step
Pharmacovigilance Forum	In the pipeline. If funded, it could be linked to the Lancang–Mekong collaborative pharmacovigilance proposal, in which FAPA CP is Co-proponent 1	Co-leaders nominated by all three chapters; launch suggested for Q1 2027
Pricing and Patient Access Forum	Forming	Co-leaders nominated by all three chapters; the Philippines Chapter proposes Ms. Jingle G. Diola as Forum Lead

Forum leaders by chapter

Forum	Thailand	Indonesia	Philippines
AMO Asia (MTM)	Phenpitcha Somton	Kevin Ben Laurence Elisabeth Ira Puspita Chandra	Louie Fernand D. Legaspi David Charles B. Alejandro
Pharmacovigilance	Dr. Osot Nerapusee Dr. Pitchaya Nualdaisri Ms. Pansakorn Wattanachai	Mrs. Yovita Diane Titiesari	Mark Ryan D. Langit Roland Amiel C. Penaloza
Pricing and Patient Access	Assist. Prof. Khunjira Udomaksorn Rungpetch Sakulbumrungsil	Mr. Pre Agusta	Prof. Dr. Erwin M. Faller Romvon V. Daligdig Proposed Forum Lead: Ms. Jingle G. Diola

Proposed topics for future forums

The Philippines Chapter proposed eight topics for future forums, as priority areas for pharmacy practice and public health in the region, and offered to identify leads and resource persons and to develop them with the Thailand and Indonesia Chapters:

1. Immunization	2. Clinical pharmacy	3. Green pharmacy	4. Universal Health Care
5. Automation of pharmacy services	6. Digital pharmacy and AI	7. Counterfeit medicines and drug regulation	8. Disaster management and preparedness

The College invites all interested pharmacists to join the forums or to lead a new one. Proposals for additional topics are welcome from any member country.

A4. Recognition and grants

Dr. Kasem Pangsrivongse Awards 2026

The College's principal honor recognizes pharmacists whose work has advanced the profession and served society at regional scale. Three awards were conferred in 2026, and each recipient was also granted Honorary Fellowship.

Recipient	Country	Recognized for
Ms. Supattra Boonserm, RPh, MS.Pharm. Secretary-General, Thai Food and Drug Administration	Thailand	Development of national consumer protection policy and medicines regulatory oversight
Ms. Leonila M. Ocampo, RPh, MS. Pharm., FFIP	Philippines	Professional leadership advancing community pharmacy service standards to international level
Dr. Lucia Rizka Andalusia, Apt., M.Pharm, MARS Director General of Pharmaceuticals and Medical Devices, Ministry of Health	Indonesia	Development of research and medication safety systems at regional level

Registration fee support for FAPA Congress 2026

Eight recipients received registration fee support for FAPA Congress 2026 under the FAPA CP Dr. Kasem Pangsrivongse Award Grant. Each was selected by their own chapter on the strength of a submitted abstract and endorsed by the Selection Committee,. Thailand and the Philippines were announced on 16 July 2026, and Indonesia on 7 August 2026.

Chapter	Recipient	Abstract
Thailand	Sukrit Kanchanasurakit	Impact of a Provincial Health Network on Community-Based Parenteral Antimicrobial Therapy Outcomes
Thailand	Siwaporn Peecharoensap	Development and Preliminary Evaluation of a Web-Based Pediatric Weight Screening and Dose Calculation Tool in Community Pharmacy
Philippines	Hazel Faye R. Docuyanan	Building a Structured Pathway for Advancing Clinical Pharmacy Practice: A Framework for Competency Development, Practice Standards, Professional Collaboration, and Specialization in the Philippines
Philippines	John Christian Y. Lara	A Comparative Analysis of Pharmacist Continuing Competence Systems Across Countries: Towards the Global Transition from Continuing Education to Continuing Professional Development

Chapter	Recipient	Abstract
Philippines	Stephen Rae G. Fontanilla	Expanding Antimicrobial Stewardship and Clinical Pharmacy in a Government Tertiary Medical Center
Indonesia	Fransisca Dhani Kurniasih	Digital Transformation of Antimicrobial Stewardship: Effects on Prescribing Behavior and Antimicrobial Resistance at National Brain Cancer Hospital Mahar Mardjono Jakarta
Indonesia	I Nyoman Gede Tri Sutrisna	Redox-Dependent Hormetic Immunomodulation by Inhalable Eucalyptus Nanoemulsion: Differential Control of NF-κB and NLRP3 Inflammasome in Cigarette Smoke-Induced Lung Injury
Indonesia	Dewa Ayu Putu Satrya Dewi	Pharmacy-led Home Pharmacy Care Supported by Digital Education and Pillbox for Type 2 Diabetes: A Quasi-Experimental Study

The grants widen access to the Congress and direct FAPA CP's support toward research quality rather than seniority.

Research presentations at FAPA Congress 2026

The FAPA CP network has 32 presentations at FAPA Congress 2026, including those of the eight grant recipients above: 14 oral presentations, 16 posters and 2 abstracts submitted for oral presentation that are awaiting a final decision. The Thailand and Indonesia titles are listed in their chapter sections in Part B.

Chapter	Oral	Poster	Submitted for oral, decision pending	Total
Thailand	3	6	0	9
Indonesia	5	5	2	12
Philippines	6	5	0	11
Total	**14**	**16**	**2**	**32**

Joint work across the FAPA CP network

Three studies at FAPA Congress 2026 bring together authors from more than one chapter, the first research outputs of the network itself:

- **Indonesian Pharmacists' Perspectives on Structured Career Pathways Under FAPA CP: Awareness, Readiness, and Development Needs** (oral presentation). The Indonesia Chapter (Franciscus Cahyo Kristianto, Ika Mulyono Putri Wibowo, Sherly Meilianti, Noffendri Roestam and Nurul Falah Eddy Pariang) with the FAPA CP President, Rungpetch Sakulbumrungsil.
- **Implementing Pharmacist-Led Clinical Care: A Scoping Review of MTM Structural Pillars and Implementation Pathways for Southeast Asia** (poster). The three co-leaders of the AMO Asia Forum: Phenphitcha Somton (Thailand), Elisabeth Ira Puspita Chandra and Kevin Ben Laurence (Indonesia).
- **A Comparative Analysis of Pharmacist Continuing Competence Systems Across Countries: Towards the Global Transition from Continuing Education to Continuing Professional Development** (oral presentation). Mr. John Christian Y. Lara (Philippines Chapter) with co-authors from the Thailand Chapter.

A5. International collaboration

Partner	Form	Headquarters role
CPHI South East Asia 2026	Academic network partner	Coordinated the PharmaQuest pharmacy student activity. The Indonesia and Philippines Chapters sent students to take part

Partner	Form	Headquarters role
Watsons Health Convention, Philippines	Strategic collaboration	Capability development for chain pharmacy pharmacists and preventive health promotion in the community, jointly with the Philippines Chapter

Partnerships led by chapters, such as the Thailand Chapter's MOU with the ISPOR Thailand Chapter, are reported in Part B.

A6. Regional chapter development

Headquarters ran a readiness survey of FAPA member countries in 2026, and all 15 countries responded. Five are Mature, including all three chapter countries, and the other ten are still building or scaling their specialization systems. The full findings are in the FAPA CP readiness survey report.

Readiness level	Countries
Mature (5)	Korea, Malaysia, Thailand, Indonesia, Philippines
Established (5)	Taiwan, Vietnam, Mongolia, Jordan, Papua New Guinea
Developing (4)	India, Sri Lanka, Bangladesh, Pakistan
Emerging (1)	Japan

Several countries have national structures in place but no FAPA CP chapter, so the constraint is chapter formation rather than professional readiness. From 2027 the three existing chapters, Thailand, Indonesia and the Philippines, will work together, rather than in one-to-one pairings, to support associations that want to take part or to form a chapter, with Headquarters as the single point of contact. Each association chooses the activities that suit it, as discussed at the readiness session on 7 November 2026 during the 31st FAPA Congress in Bangkok. Countries not yet ready to form a chapter can take part through the academic forums, microcredentials, CPE and CPD, and joint research. Within this joint approach, the Thailand Chapter is open to supporting any interested country across all activities, and the Philippines Chapter has offered to lead initial contact with Taiwan.

Part B. Chapter reports

Each chapter reports its activities for 2025–2026 and sets its plan and targets for 2027–2030 under the four Strategic Objectives in Part C, using the common template, Chapter Report 2025–2026 and Plan 2027–2030.

B1. Thailand Chapter

Established: 1997. **Chapter President:** Assoc. Prof. Sathitpong Thanaviriyakul (2027–2030). **Committee:** Dr. Osot Nerapusee; Assoc. Prof. Anuchai Theeraroungchaisri; Assoc. Prof. Rataya Luechapudiporn; Dr. Neeranard Jinachai, Secretariat. **Register:** 133 Fellows. **Certified preceptors:** none yet. The chapter meets every month.

Credentialing

The chapter certified 22 Fellows from 23 applicants in 2026: 11 through the equivalent track and 11 through the experiential track. There were no certifications in 2025.

Education and training

Module 1 of the **FDA Smart Regulator & AI Innovator** program, FDA-AI-01: AI Literacy, Prompt Engineering and Agentic Foundations, was delivered to 50 trainees with the Thai Food and Drug Administration. It ran from 15 June to 23 August 2026 as a 100-hour unit. The first certificate was awarded on 27 August 2026, signed by the Course Director and the FAPA CP President. A second FDA-AI-01 cohort follows in the first quarter of 2027.

Module	Title	Hours	Status
01	FDA-AI-01: AI Literacy, Prompt Engineering and Agentic Foundations	100	Delivered to 50 trainees; second cohort in Q1 2027
02	FDA-AI-02: Regulatory Decision Intelligence: From Evidence to Decision and Communication	300	In curriculum development; planned for 2027
03	Capstone Project	600	Planned for 2027–2028
	Total toward Assistant Fellow	**1,000**	

A **Medication Therapy Management** training program is being developed with the College of Community Pharmacy Thailand, funded by Viatris, and a **pharmacovigilance** training program with the Thai FDA. Both start in 2027, as a microcredential or a 500-hour program. All these programs use small modules with defined credit hours, which candidates accumulate toward a certification level.

Academic exchange

The chapter led the monthly MTM Forum from August 2025 to July 2026, co-leads the AMO Asia Forum (Phenpitcha Somton) and leads the new Pharmacovigilance Forum (Dr. Osot Nerapusee, Dr. Pitchaya Nualdaisri and Ms. Pansakorn Wattanachai). Fifty members of its funded network took part in the ISPOR Asia Pacific Summit, 6–8 September 2026, under the chapter's MOU with the ISPOR Thailand Chapter.

Research

Project	Funder or client	Budget	Period	Status
Antimicrobial Consumption Trend Analysis and Policy Mapping in Thailand, 2017–2023	International Health Policy Program Foundation	THB 500,000	17 June – 30 November 2026	Contract signed, running
Medicine Access Indicators to Promote Domestic Production and Innovative Medicines	National Health Foundation	THB 250,000	11 June – 15 October 2026	Contract signed, running
Developing an Equitable Value-Based Payment Model for Integrated Asthma and COPD Care in NHSO Region 7	Health Systems Research Institute	THB 4,732,520 over two years	Two years from approval	Under approval

Project	Funder or client	Budget	Period	Status
Strengthening Regulatory Capacity Network for Cross-Border Medicine Safety through Collaborative Pharmacovigilance in the Lancang–Mekong Region	Lancang–Mekong Cooperation Special Fund	USD 319,853 requested, plus USD 6,000 self-financed	12 months; expected to run in 2028 if funded	Proposal submitted 1 July 2026

Antimicrobial consumption and policy mapping. The study analyzes antimicrobial consumption in Thailand from 2017 to 2023 by ATC/DDD, the WHO AWaRe categories and the WHO list of critically important antimicrobials. It maps abnormal shifts in use against policy, control measures and clinical guidelines, with a draft manuscript due by 30 November 2026 and a Phase II plan on consumption and resistance.

Medicine access indicators. Commissioned under the National Health Foundation's work on Thailand's essential medicines access index, this project develops access indicators to support domestic production and innovative medicines.

Value-based payment for asthma and COPD. Submitted to HSRI for fiscal year 2027, this two-year study develops and pilots an equitable value-based payment model for integrated asthma and COPD care in hospitals of NHSO Region 7. The deliverable is a national policy proposal for the National Health Security Office.

Lancang–Mekong collaborative pharmacovigilance. The proposal aims to build cross-border medicine safety capacity across Cambodia, China, Lao PDR, Myanmar, Thailand and Viet Nam. The Faculty of Pharmaceutical Sciences, Khon Kaen University, is the proponent through Thailand's Ministry of Foreign Affairs. FAPA CP is Co-proponent 1, the Thai FDA Co-proponent 2, and Kunming Medical University and Shenyang Pharmaceutical University are partners. FAPA CP issued its letter of support on 30 June 2026. The 12-month program leads to an Assistant Fellow certificate, so a funded project would feed directly into the Fellowship ladder in a subregion with no chapter yet.

All four projects are held through the FAPA College of Pharmacy Foundation.

Presentations at FAPA Congress 2026

Chapter members have nine presentations at FAPA Congress 2026: three oral presentations and six posters.

Title	Authors	Format
Development and Preliminary Evaluation of a Web-Based Pediatric Weight Screening and Dose-Calculation Tool in a Community Pharmacy	Siwaporn Peecharoensap, Wimonlaya Sangwipasnapaporn, Thanasin Pao-in, Wiwat Thavornwattanayong, Kridsadadanudej Wongwejwiwat	Oral
Impact of a Provincial Health Network on Community-Based Parenteral Antimicrobial Therapy Outcomes	Sukrit Kanchanasurakit, Benjawan Boonsong, Lilit Sangsoi, Taranee Sirichayanukul	Oral
Systematic Review of Global Pharmacy Education and Competency Frameworks: Implications for Thailand's Competency-Based Pharmacy Education	Juthamas Warin, Pannaree Nithicherdchuwong, Puree Anantachoti, Pantira Prinyaruck	Oral
Impacts of the Nagoya Protocol, UPOV 1991 and Budapest Treaty on Biodiversity, Economic Development and Social Welfare: A Systematic Review to Inform Thailand–EU FTA Negotiations	Timpika Kunthiya, Napat Insuang, Tiphanan Boonroddit, Rungpetch Sakulbumrungsil, Bunchai Chongmelaxme	Poster
Driving the Thai Pharmaceutical Excipient Industry: A Feasibility Analysis for Pharmaceutical-Grade Lactose Production	Nusaraporn Kessomboon, Rungpetch Sakulbumrungsil, Khunjira Udomaksorn	Poster
Building Pharmacist Workforce Intelligence Through Collaborative Professional Training: An Experiential Learning Model Across University Hospitals in Thailand	Nusaraporn Kessomboon, Rungpetch Sakulbumrungsil, Khunjira Udomaksorn	Poster
A Comparative Study of Adverse Drug Reaction Reporting Requirements among Regulatory Authorities in ASEAN Countries	Osot Nerapusee, Peachphisit	Poster
Drug Check AI: A Prototype Web Application for Pill Identification from Images Using YOLO Model	Osot Nerapusee, Thammachak, Siwakorn	Poster

Title	Authors	Format
Computer Simulation Program for Drug Store Management in Thailand	Putinun Ratbumrung, Pitchsinee Wongsricha, Jomkwan Putiya, Rungpetch Sakulbumrungsil, Anuchai Theeraroungchaisri	Poster

Partnerships

MOU with the **ISPOR Thailand Chapter**, signed 10 August 2026, for joint participation in the ISPOR Asia Pacific Summit 2026 and health economics and outcomes research. The chapter's award and grant recipients are listed in Part A.

Challenge

The chapter has no certified preceptors yet, so it cannot yet run site-based training toward the Fellowship ladder. Certifying preceptors and accrediting training sites is part of its plan under Strategic Objective 2.

Plan and targets 2027–2030

Core activity: Fellow certification

Chapter action	Lead	Indicator	Baseline (end of 2026)	Target 2027–2028	Result 2027–2028 (fill in 2028)	Target 2029–2030

B2. Indonesia Chapter

Established: 2024. **Chapter President:** Mr. Franciscus Cahyo Kristianto (2026–2030). **Committee:** Mrs. Tuty Sriwahyuni, Academic Coordinator; Mr. Henry Kurnia Setiawan, Quality Assurance Coordinator; Ms. Ika Mulyono Putri Wibowo, Secretariat and Treasurer. **Register:** 64 Fellows. **Certified preceptors:** none yet. The chapter meets every two months.

Credentialing

The chapter received 54 applications in 2026. Of these, 39 met the eligibility requirements and were assessed, and 29 were certified, all at Fellow level, bringing its register to 64. There were no certifications in 2025, and none at Associate Fellow or Assistant Fellow level.

Education and training

None in 2025–2026. The chapter plans its first Fellow-designed module and training program in 2027–2028 (Strategic Objective 1).

Academic exchange

The chapter co-led the monthly MTM Forum from August 2025 to July 2026 and co-leads Season One of the AMO Asia Forum with Thailand, through Elisabeth Ira Puspita Chandra and Kevin Ben Laurence. It has nominated co-leaders for the Pharmacovigilance Forum (Mrs. Yovita Diane Titiesari) and the Pricing and Patient Access Forum (Mr. Pre Agusta).

Research

No chapter research projects in 2025–2026. One research project or publication on medication optimization and health economics is planned for each period from 2027.

Presentations at FAPA Congress 2026

Chapter members have 12 presentations at FAPA Congress 2026: five oral presentations, five posters and two abstracts submitted for oral presentation that are awaiting a final decision. Two are joint work across the network: an oral presentation on Indonesian pharmacists' perspectives on structured career pathways under FAPA CP, co-authored with the FAPA CP President, and a Thailand–Indonesia scoping review by the co-leaders of the AMO Asia Forum (Part A4).

Title	Authors	Format
Self-Perceived Confidence, Attitudes and Beliefs about Cancer Pain among Healthcare Professionals in Bali, Indonesia	Desak Ketut Ernawati	Oral
Redox-Dependent Hormetic Immunomodulation by Inhalable Eucalyptus Nanoemulsion: Differential Control of NF-κB and NLRP3 Inflammasome in Cigarette Smoke-Induced Lung Injury	I Nyoman Gede Tri Sutrisna, Putu Indah Budi Apsari, I Made Agus Gelgel Wirasuta	Oral
The Relationship Between Pharmacist Counseling Intervention and Quality of Life Improvement in Type 2 Diabetes Mellitus Patients at Cimahi Tengah Community Health Center	Riza Amelia	Oral

Title	Authors	Format
Incompatibility in the Administration of Intravenous Parenteral Preparations in the Intensive Care Unit (ICU) in One of the Hospitals in Indonesia	Johnson L. Tobing	Oral
Indonesian Pharmacists' Perspectives on Structured Career Pathways Under FAPA CP: Awareness, Readiness, and Development Needs	Franciscus Cahyo Kristianto, Ika Mulyono Putri Wibowo, Sherly Meilianti, Noffendri Roestam, Nurul Falah Eddy Pariang, Rungpetch Sakulbumrungsil	Oral
Revealing the Collaborative Paradigm: Understanding the Factors Underpinning Interprofessional Collaboration in Healthcare	Fauna Herawati, Kevin Kantono, Rika Yulia, Diantha Soemantri, Willow Nichola Miller	Poster
Digital Transformation of Antimicrobial Stewardship: Effects on Prescribing Behavior and Antimicrobial Resistance at National Brain Center Hospital Mahar Mardjono Jakarta	Fransisca Dhani Kurniasih, Endang Rahmawati	Poster
Preliminary Evaluation of AI-Assisted Appropriateness Review Using an LLM-Based Clinical Decision Support System	Tuty Sriwahyuni, Benny Setiawan	Poster
Nanoformulation Enhances the Anti-Aging Potential of Syzygium myrtifolium Leaf Serum: A Comparative Study of Antioxidant Activity and Elastase–Collagenase Inhibition	Uce Lestari, M. Rifqi Efendi, Elisma	Poster
Implementing Pharmacist-Led Clinical Care: A Scoping Review of MTM Structural Pillars and Implementation Pathways for Southeast Asia	Phenphitcha Somton, Elisabeth Ira Puspita Chandra, Kevin Ben Laurence	Poster
Pharmacist-Led Home Pharmacy Care Supported by Digital Education and Pillboxes for Type 2 Diabetes: A Quasi-Experimental Study	Dewa Ayu Putu Satrya Dewi, Made Krisna Adijaya, Putu Yudhistira Budhi Setiawan, Putu Aryati Suryaningsih	Submitted for oral; decision pending
Mental Health and Quality of Life among Patients with Tuberculosis: A Systematic Literature Review	Hanie Kusuma Wardani, Arifah Sri Wahyuni, Safari Wahyu Jatmiko	Submitted for oral; decision pending

Partnerships

Indonesian pharmacy students took part in the PharmaQuest student competition at **CPHI South East Asia 2026** on 8 July 2026. The chapter's Dr. Kasem Pangsrivongse Award and three Congress grants are listed in Part A.

Challenges and lessons learned

Challenge in 2025–2026	How it was handled, or lesson for the next period
Developing a training curriculum takes time	Form academic teams that involve the chapter's Fellows
Pharmacists in Indonesia know little about fellowships, but show strong interest in advancing through workplace experience	Outreach to introduce fellowship opportunities to Indonesian pharmacists Experiential training for practical learning and competency development Qualified mentors to guide participants through training

Support needed

What the plan needs	From whom	When
Criteria for certifying preceptors and training sites	Headquarters	2027
Digital learning platform	Headquarters	2027

Plan and targets 2027–2030

Leads: TS, Tuty Sriwahyuni; HKS, Henry Kurnia Setiawan; IM, Ika Mulyono Putri Wibowo; FK, Franciscus Cahyo Kristianto.

Core activity: Fellow certification

Chapter action	Lead	Indicator	Baseline (end of 2026)	Target 2027–2028	Result 2027–2028 (fill in 2028)	Target 2029–2030
Assess and certify the chapter's Fellow cohorts	*[ ]*	New Fellows certified (all levels)	29 (all in 2026)	30		20

Strategic Objective 1 · Regional leadership platform

Chapter action	Lead	Indicator	Baseline (end of 2026)	Target 2027–2028	Result 2027–2028 (fill in 2028)	Target 2029–2030
Mentoring and leadership development. Fellows co-design modules and training	TS	Modules	0	1		2
	TS	Training programs	0	1		2
Online exchange seminars. Contribution to the FAPA CP Academic Forum	TS	Forums led or co-led	1 (AMO Asia)	2 in total		3 in total
	TS	Webinars delivered per year	0	2		2
	TS	Workshops at the FAPA Congress	0	1		0
FAPA CP chapter expansion. Support, with the other chapters, associations working toward a chapter	*[ ]*	Countries supported toward a new chapter	0	0		0

Strategic Objective 2 · Standards and resources

Chapter action	Lead	Indicator	Baseline (end of 2026)	Target 2027–2028	Result 2027–2028 (fill in 2028)	Target 2029–2030
Quality assurance standards. Certify preceptors and accredit training sites	HKS	Accredited training sites	0	0		0
	IM	Certified preceptors	0	0		0

Strategic Objective 3 · Education policy support

Chapter action	Lead	Indicator	Baseline (end of 2026)	Target 2027–2028	Result 2027–2028 (fill in 2028)	Target 2029–2030
Local context adaptation. Map competency standards and Credit Bank credits to Indonesian rules (CPE credits, specialty pathways, regulator requirements)	HKS	*[indicator]*	*[ ]*	*[ ]*		*[ ]*
Stakeholder advocacy for CPD policy. National bodies and employers that recognize the FAPA CP credential	FK	Partnership agreements (MOU or equivalent)	*[ ]*	*[ ]*		*[ ]*

Strategic Objective 4 · Innovation for better health systems

Chapter action	Lead	Indicator	Baseline (end of 2026)	Target 2027–2028	Result 2027–2028 (fill in 2028)	Target 2029–2030
Medication optimization and health economics projects	IM	Research projects or publications	0	1		1

The chapter set no actions for pharmacovigilance network policy, the AI and digital health curriculum or cross-border education pilots, and set no target for supporting new chapters in 2027–2030.

B3. Philippines Chapter

Established: 2026; the inaugural Founder Fellows Meeting was held on 15 March 2026 at the office of the Philippine Pharmacists Association (PPhA). **Chapter President:** Prof. Aleth Therese L. Dacanay, PhD, FACP (2026–2030). **Officers:** Mark Ryan D. Langit, Vice President; Vina Rose Dahilig-Talan, Secretary; Louie Fernand D. Legaspi, Treasurer; Dr. Mark Harvey B. Adamson, Executive Director. **Register:** 29 Fellows. **Certified preceptors:** none yet.

At its strategic planning session on 19 September 2026, the chapter set its 2030 vision and mission and organized its work under four strategic pillars, each with a committee:

Pillar and committee	Chair	Co-chairs
M1 · Advanced Practice and Specialization	Dr. Maria Fay Nenette M. Cariaga	Asst. Prof. Renz Kenneth G. Cadiang; Dr. Margarita M. Gutierrez
M2 · Quality Assurance, Innovation and Sustainability	Ms. Jingle G. Diola	Ms. Mariss Catherine B. Roque; Ms. Mary Cecilia Viola
M3 · Strategic Partnership and Advocacy	Dr. Mark Harvey B. Adamson	Mr. Mark Ryan D. Langit; Prof. Vina Rose D. Talan
M4 · Research, Outcome and Impact	Prof. Dr. Erwin M. Faller	Prof. Charmaine M. Sanchez

Credentialing

Headquarters certified the chapter's 12 founder Fellows in 2026, and the chapter then certified 17 Fellows in its first cohort through the experiential track, for a register of 29. All were certified at Fellow level.

Education and training

A **Digital Health** curriculum is in development with the Philippine Women's University School of Pharmacy, and the chapter plans to certify its first Fellows through it in 2027–2028. The chapter's first CPD seminar, worth 2.5 CPD units for pharmacists, was held on 27 September 2026 (below).

Academic exchange

Event	Date	Format	Chapter role
World Pharmacists Day webinar: *From Practice to Impact: Transforming Your Pharmacy Expertise into Innovation and Professional Leadership* (2.5 CPD units), open to members and non-members	27 September 2026	Online	Host; keynote by the FAPA CP President
FIP World Humanitarian Day 2026 digital event: *Pharmacists on the Front Lines*	19 August 2026	Online	Speaker: Dr. Erwin M. Faller

The chapter has nominated co-leaders for all three forums, proposed Ms. Jingle G. Diola as lead of the Pricing and Patient Access Forum, and proposed eight topics for future forums (Part A3).

Research

No chapter research projects in 2025–2026. The chapter will approve a research agenda, form multi-institutional research teams and hold a research forum each year from 2027.

Presentations at FAPA Congress 2026

Chapter members have 11 presentations at FAPA Congress 2026: six oral presentations and five posters. The oral presentations include those of the chapter's three registration grant recipients, listed in Part A4. One of them, by Mr. John Christian Y. Lara on pharmacist continuing competence systems across countries, is joint work with co-authors from the Thailand Chapter.

Partnerships

The **Philippine Pharmacists Association (PPhA)** adopted the chapter's alignment by Board Resolution on 30 April 2026, to align strategic roadmaps and priorities and to advance practice through professional development, specialization, innovation, and local and international linkages. The chapter also worked with Headquarters at the Watsons Health Convention and sent students to PharmaQuest (Part A5). Its award, Honorary Fellowship and grant recipients are listed in Part A.

Governance

The chapter met four times: the first Founder Fellows Meeting (15 March 2026, PPhA office), the second Founder Fellows Meeting (7 August 2026, online), the strategic planning session (19 September 2026, University of Santo Tomas) and a Fellows meeting (30 October 2026, online). It set its 2030 vision, mission and roadmap, formed its committees and leadership, began Fellowship recruitment and program development, and identified the need for bylaws, committee mandates and operating procedures.

Challenges and lessons learned

Challenge in 2025–2026	How it was handled, or lesson for the next period
Formalizing governance: bylaws, committee mandates and operating procedures	The chapter is setting up and approving bylaws, committee terms of reference, work processes, reporting lines, and annual planning and review
Developing specialization, certification and training pathways, and their formal adoption by stakeholders	Initial coordination with Headquarters, regulators, professional organizations, academic institutions and employers, with further engagement planned
Standardized preceptorship guidelines and a formal process to train, assess and certify preceptors	Groundwork laid for preceptor training, competency assessment and certification

New chapters and support needed

Within the joint approach of the three chapters, the chapter has offered to lead initial contact with **Taiwan** (Established in the 2026 survey; partner association to be confirmed), starting with a readiness assessment with Headquarters and its Taiwanese counterpart and a support work plan. A target date for a Taiwan chapter will follow that consultation.

What the plan needs	From whom	When
Technical guidance on Fellowship assessment, certification pathways and credential recognition	Headquarters; experienced chapters	2027–2030, as needed
Competency frameworks, QA criteria, curriculum resources and program review support	Headquarters; partner chapters; regulators and professional bodies	2027–2028, then ongoing
Research mentorship, cross-border collaborators, and funding and publication support	Headquarters; academic institutions; research partners; funders	2027–2030
Stakeholder access for policy engagement, CPD recognition and practice initiatives	PPhA, PRC, CHED, FDA, DOH, industry and local government units	2027–2030

What the plan needs	From whom	When
Coordination and support resources for Taiwan: technical materials, governance templates, peer-learning sessions	Headquarters; Taiwanese counterpart; chapter Executive Committee	2027–2030, under an agreed work plan

Plan and targets 2027–2030

Lead: the chapter committee leading each action (M1–M4 above), with supporting committees in brackets.

Core activity: Fellow certification

Chapter action	Lead	Indicator	Baseline (end of 2026)	Target 2027–2028	Result 2027–2028 (fill in 2028)	Target 2029–2030
Fellowship cohort development and certification. Recruit, assess and certify the chapter's Fellowship cohorts at all applicable levels	M1	Number certified by level Cohort completion rate	29 Fellows	15–30 additional Fellows		15–30 additional Fellows
Fellows' leadership and expertise mobilization. A pool of Fellows and expert speakers for chapter programs, forums and stakeholder consultations	M1 (M3)	Expert directory Fellows listed Activities supported	No verified directory yet	Directory of the chapter's Fellows; at least 10 Fellows or resource persons engaged in at least 2 chapter activities		At least 15 active experts; Fellows engaged in at least 4 chapter activities
Annual chapter summit and Fellowship recruitment. A national summit or professional forum that convenes stakeholders and recruits prospective Fellows	M3 (M1)	Participants Prospective Fellows recruited	Summit proposed for 2027	1 national summit or forum in 2027, with at least 75 participants and 10 institutions		1 national forum in 2029–2030, with at least 100 participants and 15 institutions
Early-career pharmacist engagement and mentorship. A pathway linking students, interns and young practitioners with Fellows	M1 (M4)	Pathway approved, aligned with the PRC Board of Pharmacy Partner institutions Mentees	No formal pathway yet	1 pathway approved and piloted with at least 2 partner institutions; at least 20 students, interns or early-career pharmacists engaged		At least 4 partner institutions; at least 50 early-career pharmacists engaged (cumulative)

Strategic Objective 1 · Regional leadership platform

Chapter action	Lead	Indicator	Baseline (end of 2026)	Target 2027–2028	Result 2027–2028 (fill in 2028)	Target 2029–2030
Structured mentorship and leadership development, with mentor preparation and mentee tracking	M1 (M4)	Mentorship framework Mentors and mentees	No formal mentorship yet	At least 10 mentors trained; at least 20 mentees matched		At least 15 active mentors; at least 30 mentees

Chapter action	Lead	Indicator	Baseline (end of 2026)	Target 2027–2028	Result 2027–2028 (fill in 2028)	Target 2029–2030
Academic engagement and international knowledge exchange. Contribute to the FAPA CP Academic Forum; run online seminars and webinars	M3 (M4)	Forums led or co-led Webinars delivered Participants and partner institutions	No organized webinar or forum yet	At least 4 webinars or online seminars (at least 2 a year); at least 200 participants and 4 partner institutions (cumulative)		At least 4 more; at least 300 participants and 6 partner institutions
FAPA Congress workshops and sessions	M3 (M4)	Congress workshops or sessions Chapter speakers	None yet	At least 1 proposal submitted; at least 1 chapter speaker or facilitator if accepted		At least 1 proposal for each Congress; at least 1 accepted session
Program review and continuous improvement: needs assessment, curriculum review, learner feedback and outcome evaluation	M1 (M2)	Review framework Programs reviewed Improvement plans completed	No chapter-wide review cycle yet	Framework approved and applied to at least 2 active chapter programs; at least 2 improvement plans completed		All active programs reviewed annually; at least 80% of improvement actions closed by the next review
Registry of preceptors, assessors and resource persons	M1 (M2)	Register established Qualified persons Annual validation	No verified register yet	Eligibility criteria approved; at least 10 qualified persons, all validated		At least 20 qualified persons, all validated annually

Strategic Objective 2 · Standards and resources

Chapter action	Lead	Indicator	Baseline (end of 2026)	Target 2027–2028	Result 2027–2028 (fill in 2028)	Target 2029–2030
Training and certification quality assurance framework, with evaluation toolkits for each program	M2 (M1)	QA framework and toolkits	No approved toolkit yet	Framework and toolkit piloted in at least 1 program		Toolkit applied to all active programs; at least 1 annual QA summary
Preceptorship standards and module validation before rollout	M1 (M2)	Preceptorship framework Modules validated Preceptors trained or recognized	No framework or validated module yet	Framework approved; at least 2 learning modules validated		Standards applied; all preceptors certified
National stakeholder roundtable on recognition of FAPA CP credentials, specialty pathways and CPD	M3 (M1)	Roundtables held Stakeholders represented Recommendations followed up	None yet	At least 1 roundtable; recommendations and action report within 60 days		Progress documented; formal adoption of credential recognition by stakeholders, especially the PRC
Strategic stakeholder and partnership development	M3 (M2)	Engagement plan approved Stakeholders mapped Partnerships reviewed	No stakeholder map yet	MOUs with at least 5 partners		At least 5 active collaborations with documented outputs, all reviewed annually

Strategic Objective 3 · Education policy support

Chapter action	Lead	Indicator	Baseline (end of 2026)	Target 2027–2028	Result 2027–2028 (fill in 2028)	Target 2029–2030
Philippine contextualization of competency standards, specialty pathways and FAPA CP credentialing requirements	M1 (M2, M3)	Crosswalk of standards to the Philippine context	Not yet done	Mapping completed		Mapping applied
Credential recognition and professional pathway engagement with national bodies and employers	M3 (M2)	Formal consultations Partnership agreements Recognition milestones	No formal recognition agreement yet	Expressions of support and collaboration from national bodies and employers		At least 2 formal partnership or recognition instruments, or a documented institutional pathway
Research agenda and collaborative research by multi-institutional teams on priority pharmacy and health system issues	M4 (M3)	Research agenda Teams formed Projects started	No research agenda or project yet	Chapter research agenda approved		Research outputs presented and translated into policy, publications and practice guidelines
Research dissemination and publication: an annual research forum, abstract collection or publication platform	M4 (M3)	Research forums Abstracts or papers disseminated	None yet	1 research forum held or co-hosted each year		A chapter peer-reviewed journal

Strategic Objective 4 · Innovation for better health systems

Chapter action	Lead	Indicator	Baseline (end of 2026)	Target 2027–2028	Result 2027–2028 (fill in 2028)	Target 2029–2030
AI and digital health curriculum and certification, with regional partners	M2 (M1, M4)	Curriculum or modules developed Fellows certified through the curriculum	Coordination with Headquarters under way	Curriculum finalized; first cohort certified as Fellows		30 certified Fellows
Cross-border education, research and professional exchange with FAPA CP chapters and Asian partners	M3 (M4, M1)	Cross-border pilots Partner chapters Participants and outputs	None yet	Exchange launched		2 exchanges conducted

Chapter action	Lead	Indicator	Baseline (end of 2026)	Target 2027–2028	Result 2027–2028 (fill in 2028)	Target 2029–2030
Pharmacy innovation and health systems strengthening: pharmacist-led immunization, clinical pharmacy services, green pharmacy, Universal Health Care, automation, digital pharmacy and AI, medicine regulation and counterfeit prevention, and disaster preparedness	M2 (M3, M4)	Topics taken into the FAPA CP Academic Forum	Proposals not yet submitted	Proposals adopted by Headquarters, with other chapters		Adopted programs implemented, scaled and evaluated with Headquarters and the chapters

Part C. Strategic Plan 2027–2030

The Strategic Plan covers 2027–2030, the four-year term of the next FAPA CP President, with a review at FAPA Congress 2028. It has one core activity, Fellow certification, and four Strategic Objectives, the same framework chapters use in Part 2 of their Chapter Report and Plan. Headquarters leads the college-wide actions; chapters lead their own actions and set their targets in Part B.

Core activity · Fellow certification

Action	What it involves	Led by
Founder Fellows of new chapters	Assess and certify the founding Fellows of each new chapter, so the chapter can then assess its own cohorts.	Headquarters
Chapter Fellow cohorts	Assess and certify each chapter's Fellows at Fellow, Associate Fellow and Assistant Fellow level, through the equivalent and experiential tracks.	Chapters

Strategic Objective 1 · Regional leadership platform

Create a regional platform for exchange, mentoring and learning for professional leaders, focusing on leadership, academic provision and leadership skills.

Action	What it involves	Led by
Mentoring and leadership development	Mobilize FAPA CP Fellows to co-design and deliver advanced training modules and to mentor early-career pharmacists.	Chapters
Online exchange seminars	A regular series of virtual forums for country leaders to share best practice in CPD delivery and curriculum design, run as the FAPA CP Academic Forum (AMO Asia, Pharmacovigilance, and Pricing and Patient Access): forum seasons, webinars, and a workshop at each FAPA Congress.	Headquarters, with a leader from each chapter
Dr. Kasem Pangsrivongse Awards	Sustain and promote the award to recognize exemplary educators and leaders, fostering a culture of mentorship and academic excellence across the region.	Headquarters
FAPA CP chapter expansion	Grow national chapters as local platforms for leadership exchange, teaching-skill workshops and cross-border professional dialogue, with the three existing chapters supporting interested associations together rather than in one-to-one pairings.	Headquarters; the three chapters together

Strategic Objective 2 · Standards and resources

Build, advocate for and disseminate evidence-based frameworks, consensus-based standards, tools and resources for educational development and support.

Action	What it involves	Led by
Credit Bank and micro-credentialing	A regionally harmonized Credit Bank that distinguishes Learning Credits (formal CPD) from Practice Credits (workplace-based experiential learning). A Digital Portfolio lets pharmacists accumulate, verify and transfer credits toward the FAPA CP certification levels: Assistant Fellow, Associate Fellow and Fellow.	Headquarters
Competency frameworks	Evidence-based competency frameworks for each priority training area (AI and digital health, pharmacovigilance, and medication optimization and health economics), with clear learning outcomes and assessment standards. Chapter curricula are aligned to them.	Headquarters (Academic Committee); chapters contribute content

Action	What it involves	Led by
Quality assurance standards	Consensus-based criteria for recognizing CPD activities and practice-based learning, enabling mutual recognition across member countries and safeguarding quality. This includes certifying preceptors and training sites.	Headquarters (Quality Assurance Committee); chapters certify

Strategic Objective 3 · Education policy support

Develop and promote policies that advance the pharmacy profession, working with stakeholders at regional and local levels.

Action	What it involves	Led by
Local context adaptation	Work with national pharmacy associations and regulators to fit the Credit Bank and competency standards to local legislation, scope of practice and health care delivery, while keeping core regional benchmarks.	Chapters
Stakeholder advocacy for CPD policy	Engage governments, pharmacy councils and chain-pharmacy employers to endorse the FAPA CP credentialing pathway in national career ladders, linking advanced practice levels to FAPA CP certification levels. Includes mutual recognition with national regulators, beginning with the Philippines.	Headquarters regionally; chapters nationally
Pharmacovigilance network policy	Expand the regional adverse drug reaction reporting network from the Lancang–Mekong region to all of Asia, with shared protocols and training-based policy guidelines implemented with local health authorities.	Chapters and the Pharmacovigilance Forum

Strategic Objective 4 · Innovation for better health systems

Encourage innovation in pharmacy education to improve the quality, delivery and productivity of health systems.

Action	What it involves	Led by
AI and digital health curriculum	Design and pilot interactive modules on AI in community and hospital pharmacy, using simulation and real-world case studies.	Open to all chapters
Medication optimization and health economics projects	Action-learning projects in which pharmacists carry out small research projects or MTM demonstrations, generating evidence on health outcomes and cost-effectiveness to inform service models.	Chapters (Thailand: MTM and health economics)
Practice-based micro-credentials	Use Practice Credits in the Credit Bank to validate innovative workplace practice, such as telepharmacy and collaborative drug therapy management.	Headquarters
Cross-border education pilots	Regional training cohorts in pharmacovigilance and health economics, using online learning and shared resources to test models that other health systems can adopt.	Open to all chapters
Multi-country research networks	Research teams across chapters and member countries working on shared questions, many raised in the Academic Forum, such as the Lancang–Mekong collaborative pharmacovigilance proposal. Projects are held through the FAPA CP Foundation.	Headquarters, through the FAPA CP Foundation; chapters

Governance

Appoint the FAPA CP President for 2027–2030 under Charter Version 1.0 through the Selection Committee; set up the Academic and Quality Assurance Committees, which oversee the standards in Strategic Objective 2; and

hold Executive Committee meetings every two months to review progress against this plan, with a mid-term review at FAPA Congress 2028.

Part D. Matters for the Executive Committee

The Executive Committee is asked to:

1. Endorse this report, including the Thailand, Indonesia and Philippines chapter reports, as the FAPA CP Biennial Report 2025–2026, and approve a summary version for submission to FAPA.
2. Confirm biennial reporting in step with the FAPA Congress, using the common chapter report and plan template.
3. Approve the joint support model, in which the Thailand, Indonesia and Philippines Chapters work together, with Headquarters as the single point of contact, to support associations that want to take part or form a chapter, following the session with member associations on 7 November 2026.
4. Approve the FAPA CP Academic Forum as a college-wide program, with the co-leaders nominated by the chapters for the AMO Asia, Pharmacovigilance, and Pricing and Patient Access Forums (A3); appoint the lead of the Pricing and Patient Access Forum; and refer the Philippines Chapter's proposed forum topics to the Academic Committee.
5. Establish the Academic Committee, chaired by the Academic Director, Assist. Prof. Khunjira Udomaksorn, and the Quality Assurance Committee, chaired by Assoc. Prof. Nusaraporn Kessomboon, each with the two members nominated by every chapter (A1).
6. Adopt the Strategic Plan 2027–2030 in Part C, with each chapter's plan and targets in Part B.
7. Confirm the Selection Committee to manage the selection of the FAPA CP President for the term beginning on 1 January 2027, and decide whether it proceeds with the one representative nominated by each chapter (A1) or with three per chapter, as first agreed.
8. Meet every two months from 2027 to review progress against the Strategic Plan.
