Positive and Supportive Benefits to Mental Health:

The workplace is where we spend most of our waking hours each week. Keeping positive can be lost in there sometimes. Ways to help reduce the amount of stress and recharge your "batteries" are to take a break.

- Disconnect for 5 or 10 minutes, let your mind absorb the positive feel that the day has created.
- Rejoice in taking a few minutes to enjoy the monthly luncheons at your stores, good food, time to talk to your coworkers, get to know your coworkers, not just the people you work with day to day with, but anyone or everyone at your locations.
- Although it is way too "hot" to step outside, mentally take that break and take care of yourself.
- Don't skip your lunch, part of staying positive is to ensure you have the nutrition that feeds your body that feeds your mind.

Keep learning!!! Be creative, connect with others at work or in the community, volunteer for something that your heart truly believes in. Listen without judgement and encourage kind language.
