Anderson Powersports Partners with Make-a-Wish Foundation

Anderson Powersports in Bullhead City, along with the Make-a-Wish Foundation, was able to fulfill a young man's wish of owning a side-by-side vehicle, specifically a new Can-Am Maverick 4-Seater.

Jacob's story began three years ago when he was just 16 and diagnosed with leukemia. He underwent treatment for two years until his leukemia went into remission. He must still make follow-up visits to his oncologists to make sure he is still doing well.

When contacted by the Make-a-Wish Foundation, Anderson Powersports immediately agreed to partner with the Foundation to make Jacob's wish come true. He was surprised to learn that the vehicle cost was being 100% covered, including a helmet. Jacob and members of his tightly knit family came to the store to pick up his new Maverick together.
