

Setting up a Just Giving page!

A Just Giving page is a useful way for family and friends to support you and donate directly online!

You can set your page up [here](#) following the step by step process. A help guide can be found [here](#).

Once your Just Giving page is set up get sharing it out;

- If you're on social media share it on your socials to let friends and family know your running and why you have chosen to raise funds for us.
- Send a email to your colleagues with the link to your page included or look at options for putting a poster up in the staff room.
