

TECHtakeover

Industry 4.0 Readiness

Presented by:

Commercial and Fleet Charging for Electric Vehicles

The transportation industry is evolving quickly to electrified and connected vehicles, making electric vehicle charging for businesses and municipalities a high-demand service and amenity.

Join Automation Alley and Powerlink Systems for a Tech Takeover presentation to help your organization learn about available options and solution offerings for adding electric charging stations to your property. Learn about government incentives and utility rebates currently available and the benefits this service offering can bring to your city or your commercial property.

This event is intended for municipalities, commercial property owners, hospitality, and fleet vehicle operators.

Date: Sept. 2

Time: 8-10 a.m.

Location: Automation Alley | 2675 Bellingham | Troy, MI 48083

Sponsored by: Powerlink Systems
