

# ABM Innovations & Technology

INNOVATIONS AND  
TECHNOLOGY.

**Empowering businesses by providing "Complete Cold Chain & Warehouse Management Solutions – End to End, Seamlessly Delivered."**

# About Us

## Established: 2025

ABM Innovations & Technology was established in 2025, bringing a fresh perspective and innovative solutions to the cold chain and logistics industry.

## Vision

To be India's most trusted name in advanced cold chain and warehouse technology.

## Mission

To deliver smart, reliable cold chain and logistics solutions that ensure product integrity and customer satisfaction.

## Core Values

Integrity, Innovation, Customer First, Agility.

# About Us

Bharat Singh brings over 15 years of leadership experience in Consumer Durables, FMCG, and Cold Chain Logistics. As the CEO of ABM Innovations & Technology, he leads with a powerful blend of strategic foresight, operational excellence, and people-centric values. With a strong foundation in engineering and an outstanding track record in multinational giants like Mondelez and PepsiCo, Bharat has successfully scaled regional operations, developed advanced cold chain networks across North India, and transformed underperforming service ecosystems into highly efficient, customer-centric operations.

## Leadership Philosophy

Innovation, integrity, and service excellence form the core of our leadership. We believe in building sustainable operations and driving measurable value for every stakeholder — our customers, our people, and our partners."

# CEO Vision – ABM Innovations & Technology

**Mr. Bharat Singh**

**Founder & CEO. Visionary leader guiding ABM's strategic direction.**

At ABM Innovations & Technology, our vision is to lead the transformation of the cold chain and logistics industry through innovation, reliability, and customer-centric solutions. We aim to be the most trusted partner in delivering end-to-end cold chain infrastructure and smart warehousing services, empowering businesses with efficiency, transparency, and sustainability. Our commitment is to not just keep up with industry evolution, but to drive it — by embracing cutting-edge technology, nurturing talent, and delivering excellence at every touch point. We envision ABM as a symbol of progress, where every solution we build enhances lives, supports global supply chains, and sets new benchmarks in service quality. Together with our dedicated team, partners, and customers, we are shaping a future where logistics is smarter, colder, and more connected than ever before.

# Our Core Services

## Business Automation

Streamlining operations for enhanced efficiency, reducing manual effort and optimizing workflows.

## IT Infrastructure

Providing robust solutions for reliable technology support, ensuring seamless connectivity and data security.

## Digital Consulting

Guiding businesses through transformation journeys, offering expert advice on digital strategies and implementation.

## Field Service

Optimizing operations with innovative solutions, providing on-site support and maintenance for critical systems.

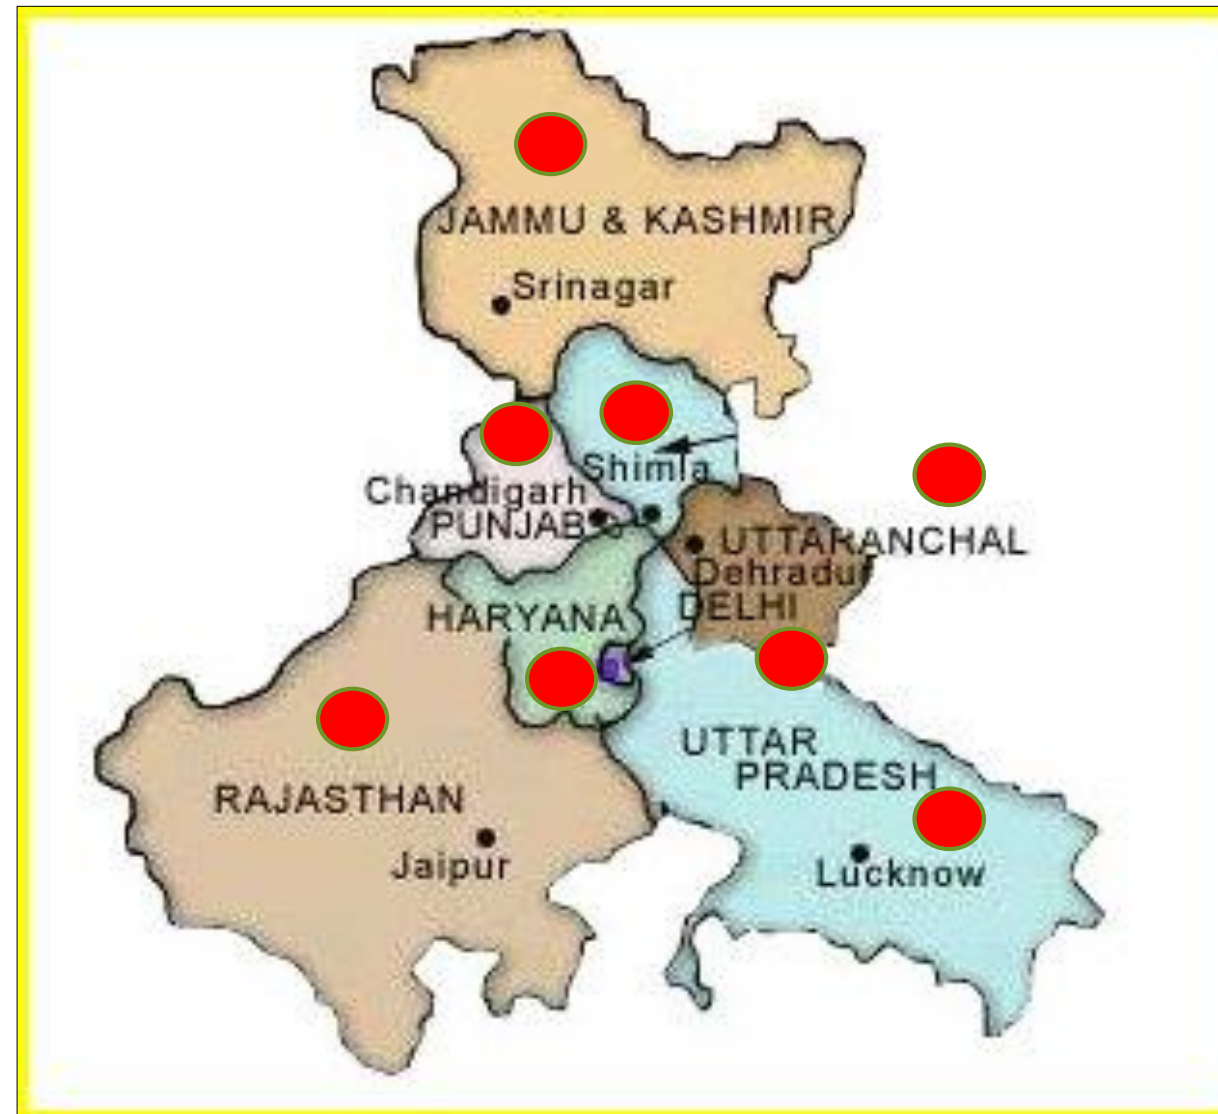

## IoT & Cloud

Ensuring seamless integration for connected ecosystems, leveraging IoT devices and cloud platforms for enhanced data management and accessibility.

# Our Service Network

- Presence in all states of North India, ensuring extensive coverage and accessibility for our clients.
- Regional offices located in Lucknow & Dehradun, providing localized support and efficient service delivery.
- 24/7 Support and Response Teams are available around the clock to address any issues and provide immediate assistance.
- We offer both Remote and On-site Service Capabilities, adapting to client needs and ensuring comprehensive support wherever required.

# Infrastructure & Assets

## 8+ Warehouses across regions

Strategically located warehouses ensure optimal storage and distribution capabilities, minimizing transit times and maintaining product integrity.

## Centralized Technology Command Centre

Our command center provides real-time monitoring and control over all operations, ensuring seamless coordination and rapid response to any logistical challenges

## 100+ Service Technical Team

A dedicated team of over 100 skilled technicians ensures expert installation, maintenance, and troubleshooting for all our solutions.

## Cloud-based Ticketing and Tracking

Our advanced cloud-based system allows for efficient management of service requests and transparent tracking of all operations, enhancing customer experience.

# Clients & Partnerships

At ABM Innovations & Technology, we pride ourselves on fostering strong, collaborative relationships with our clients and strategic partners. Our success is built on mutual trust and a shared commitment to excellence.

- We engage in strategic partnerships with leading technology providers, ensuring that our solutions are always at the forefront of innovation and leverage the best available tools and platforms.
- Our approach emphasizes long-term collaboration and robust support models, ensuring that our clients receive continuous value and assistance throughout their journey with us.

# Why Choose ABM?

## Innovation-Driven

We are constantly pioneering new solutions to ensure your business is future-ready, adapting to evolving market demands and technological advancements.

## Scalable & Reliable

Our services are meticulously designed for sustained growth, providing robust and dependable solutions that can expand with your business needs.

## Dedicated Teams

Client success is our paramount priority. Our dedicated teams work tirelessly to understand your unique requirements and deliver tailored solutions that exceed expectations.

## Proven Excellence

We have a strong track record of consistently delivering exceptional results, building trust and long-lasting relationships with our clients through reliable and high-quality service.

# Future Goals

## Expanding Our Footprint

We aim to expand our robust cold chain and smart warehousing network across all major regions of India, reinforcing our position as a national leader. Concurrently, we will explore strategic international partnerships to establish a global presence.

## Pioneering Next-Gen Logistics

Our commitment to innovation drives us to integrate advanced AI, predictive analytics, and block chain technologies into our solutions. This will enhance supply chain transparency, efficiency, and real-time decision-making, setting new industry benchmarks.

# Industry Focus / Target Sectors

**FMCG:** Delivering fast-paced, scalable, and efficient solutions for the dynamic demands of the Fast-Moving Consumer Goods industry. Our technology supports streamlined distribution, real-time tracking, and inventory control.

**Retail:** Innovative retail automation, customer analytics, and smart infrastructure solutions to enhance in-store and online shopping experiences.

**Pharma / Healthcare :** Precision-driven, compliant, and secure systems for the pharmaceutical and healthcare sector, including temperature-controlled logistics and digital traceability.

**Cold Chain Logistics :** End-to-end cold chain management solutions ensuring product integrity, from source to shelf, with real-time temperature and location monitoring
