Technical Rider

- Stage set-up includes five vocal microphones (Senheiser, Shure or sE Electronics) and stands to be provided for the artists. One stand for lead/center vocal shall be an adjustable straight stand. Microphones may be hardwired or wireless.
- Connection for a 16-channel split-snake for in-ear monitors (split snake to be provided by artists)
- 4 Direct Boxes (2 guitars, 1 Keyboard, 1 Sample Pad)
- 4 stage wedges with individual mixes
- Artists request a minimum of 45 minutes to 1 hour of soundcheck time prior to doors opening. We will work with you to determine the time of day when this can be accomplished without interfering with your programming.
