

PATIENT INFORMATION

First Name: _____ Last Name: _____ Middle Name Initial: _____

DOB (Month/Day/Year): ____/____/____ Age: _____ Gender: Male / Female Social Sec. #: _____

Address: _____ City: _____ Zip Code: _____

Cell #: _____ Home #: _____ Email Address: _____

Emergency Contact & #: _____ Relationship: Spouse Parent Other: _____

Social History: Single Married Divorced Widowed Engaged # of Children: _____

Primary Doctor: _____ City: _____ Phone #: _____

Health Insurance Carrier: _____ Member ID #: _____ Group #: _____

Employment Status: *(Check one)*

- Employed Self-Employed PT Student FT Student Retired Disability Other: _____
- Highest Education Attained: _____

Time Loss: *(Check one)*

- N/A
- NO time loss from work due to injury, currently working with no limitations
- NO time loss from work due to injury, BUT do have limitations
- Patient reports time loss due to injury. Indicate number of day(s) or week(s); Date last worked _____

Employer Name: _____ Occupation: _____ # Hours Worked: _____

Address: _____ City: _____ Zip Code: _____

Work #: _____ Physical Stress Level at work? Low Medium High

Attorney Name: _____ Case Manager: _____ Phone #: _____

ACCIDENT HISTORY

Date of Injury: ____/____/____

- Motor Vehicle Collision How many cars? _____ Work Related Incident Non-work Related
- Sports Related Incident Slip & Fall Other: _____

Immediately following the incident: *(Check one)* N/A

- Ambulance / Paramedics called Diagnostics Performed
- Treated at the scene Medication Prescribed
- Transported to hospital by ambulance Follow-up recommended
- Went to hospital on own Other: _____

Date: ____/____/____ Hospital name: _____ City: _____ Phone #: _____

List the types of diagnostic testing that have been performed at any other facilities you received care from for this injury: N/A

- X-rays
- MRI
- CT scan
- Bone Scan
- Myelogram
- EMG
- Discogram
- Other: _____

Where? _____ City: _____ Phone #: _____ Same as above

Specifics of the Collision:

- Driver
- Front Seat
- Braced
- Shocked
- Head DID NOT strike object
- Head did strike object
- Airbags Deployed
- Flash of light seen on impact
- Police Report Made
- Passenger
- Back Seat
- Not Braced
- Car Towed

Circle Damage to your car.

- Rear-end
- T-Bone/Side Impact
- Head on
- Highway Construction
- Intersection

Describe your accident:

Mechanism of Injury:

- Were you surprised by the impact? Yes No
- In relation to the back of your head was your headrest set: Low Middle High
- Where was your head facing at the time of impact? Left Forward Right Unknown
- Were you leaning forward at the time of impact? Yes No
- Were you wearing a seat belt? Yes No
- Were you rendered unconscious as a result of the incident? Yes No (If yes, how long? _____)
- Did you feel pain immediately after the incident? Yes No (If no, when? _____)

Car Specifications:

- Year and type of vehicle **you** were in? Year: _____ Make: _____ Model: _____
 Small Mid-size Large Unknown
 _____ MPH
- Year and type of **other** vehicle? Year: _____ Make: _____ Model: _____
 Small Mid-size Large Unknown
 _____ MPH
- Approximate speed of the **other** vehicle? _____ MPH

FOR DOCTOR'S USE BELOW. SKIP TO PAGE 7.

HEENT

- The patient is normocephalic, non-traumatic
- Pupils are equal, round and reactive to light & accommodation
- TM's are clear

GASTROINTESTINAL

- Abdomen is soft, non-tender
- Bowel sounds are normoactive
- No history or present complaints regarding gastrointestinal system

CARDIOVASCULAR/PULMONARY

- No complaints or history of heart murmur, blood pressure Problems, or other vascular disorders
- Heart exam reveals a regular rate with no murmurs, gallops or rubs
- Lungs are clear to percussion and auscultation

Blood Pressure

NEUROLOGICAL EXAMINATION

- Cranial nerves II-IX are grossly intact
- Romberg's Test
- Cerebellum function is grossly within normal limits
- Patient is alert and oriented to time, place, and person
- Reflexes are equal and reactive bilaterally in both upper and lower extremities and are +2
- Wartenberg's pinwheel testing showed HYPERESTHESIA / HYPOESTHESIA at dermatomal distributions _____ on the RIGHT / LEFT
- Sensation intact to all primary modalities
- Patient can heel and toe walk without difficulty
- Toes are down going pathological reflex is absent for Babinski Sign
- Motor testing of the upper extremities normal
- Motor testing of the lower extremities normal

UROGENITAL

- There is no complaint of frequency, urgency, or difficulty with urination.

ORTHOPEDIC EXAMS

- Adson's Maneuver: Left Right Bilateral NA
- Apley's Compression Left Right Bilateral NA

SPINAL EXAMS

Spinal examination consisted of static and motion palpation of the cervical, thoracic, lumbar, and pelvis (all or separate).

It included:

- Intervertebral joint play analysis
- Comparative leg length analysis
- Range of Motion Evaluation

ARTICULAR DYSFUNCTION

These articular dysfunctions are associated & accompanied by:

- Joint Edema
- Joint Capsulitis
- Deep & Superficial Myospasms
- There is muscle splinting and tenderness upon digital palpation at the levels of articular dysfunction.
- There is pain on percussion of the spinous processes at these levels as well.

The examination revealed dysfunctions/vertebral subluxations at the following levels:

There are myofascial trigger points located in the following musculature:

C 1 2 3 4 5 6 7 T 1 2 3 4 5 6 7 8 9 10 11 12 L 1 2 3 4 5 Sacrum Ilium R L

Radiology:

UPPER EXTREMITY:

LOWER EXTREMITY:

OTHER:

CAUSATION:

In my opinion, the above diagnoses are a direct result of the date of the incident noted above.

Are your findings and diagnosis consistent with patient's account of injury or onset of illness?

- Yes No If "no," please explain:

Is there any other current condition that will impede or delay the patient's recovery?

- Yes No If "yes," please explain:

PLAN RECOMMENDATIONS:

- 4 times/week
- 3 times/week
- 2 times/week
- Once a week
- Every 2 weeks
- Once a month

_____ Visits

Patient will be re-evaluated in:

- One month
- 1 week
- 2 weeks
- 3 weeks

Chiropractic adjustments (CMT), Activator (ACT), Neuromuscular Re-Education (NR), Joint Mobilization (JM), Myofascial Release (MR), Intersegmental Traction (IT), Electrical Stimulation (EMS), Mechanical Massage (MM), Ultrasound (US), Diathermy (D), Hot/Cold Pack (HP/CP), Interferential (ITF), Transcutaneous Nerve Stimulation (TENS), Infrared (IF), Therapeutic Exercises/Outside Office (TE)/(TEO), Physician's Education Group (PEG)

The patient's condition has stabilized. I have recommended periodic chiropractic check-ups in order to maintain the patient's progress.

INFORMED CONSENT DOCUMENT

TO THE PATIENT: Please read this entire document prior to signing it. It is important that you understand the information contained. Please ask questions before you sign if there is anything that is unclear.

The nature of the chiropractic adjustment: The primary treatment used by doctors of chiropractic is spinal manipulative therapy. Sheridan Chiropractic will use that procedure to treat you. Doctors may use hands, or mechanical instrument(s) upon your body in such a way as to move your joints. That may cause an audible "pop" or "click," much as you have experienced when you "crack" your knuckles. You may feel a sense of movement.

Analysis I Examination/Treatment: As part of the analysis, exam and treatment, I consent to the following: PLEASE INITIAL EACH PROCEDURE YOU CONSENT TO.

- Spinal Manipulative Therapy, Palpation, Vital Signs, Basic Neurological Testing, Muscle Strength Testing, Range of Motion Testing, Postural Analysis Testing, EMS, Orthopedic Testing

The risks inherent in chiropractic adjustment:

As with any healthcare procedure, there are certain complications which may arise during chiropractic manipulation and therapy. These complications include but are not limited to: fractures, disc injuries, dislocations, muscle strain, cervical myelopathy, costovertebral strains and separations, and burns. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to serious complications including stroke.

The probability of those risks occurring: Fractures are rare occurrences and generally a result from some underlying weakness of the bone which we check for during the taking of your history and during examination and x-rays. Stroke and/or arterial dissection caused by chiropractic manipulation of the neck has been the subject of ongoing medical research and debate.

The availability and nature of other treatment options: Other treatment options for your condition may include:

- Self-administered, over-the-counter analgesics and rest
Medical care and prescription drugs such as anti-inflammatory, muscle relaxants and painkillers
Hospitalization
Surgery

If you choose to use one of the above noted treatments options, you should be aware that there are risks and benefits of such options and you may wish to discuss these with your primary medical physician.

The risks and dangers attendant to remaining untreated: Remaining untreated may allow the formation of adhesions and reduce mobility which may set up a pain reaction further reducing mobility. Over time this process may complicate treatment making it more difficult and less effective the longer it is postponed.

CONSENT TO TREATMENT OF A MINOR

I hereby request and authorize Sheridan Chiropractic to perform diagnostic tests and render chiropractic adjustments and other treatment to [blank]. This authorization also extends to all other doctors and office staff members and is intended to include radiographic examination at the doctor's discretion.

As of this date, I have the legal right to select and authorize healthcare services for the minor named above. If applicable, under the terms and conditions of my divorce, separation or other legal authorization, the consent of a spouse/former spouse or other parent is not required. If my authority to so select and authorize this care should be revoked or modified in any way, I will immediately notify this office.

DO NOT SIGN UNTIL YOU HAVE READ AND UNDERSTAND THE ABOVE. PLEASE SIGN AND DATE BELOW WHERE APPROPRIATE.

I have read or have had read to me the above explanation of the chiropractic adjustment and related treatment. I have discussed it with Sheridan Chiropractic and have had my questions answered to my satisfaction. By signing below I state that I have weighed the risks involved in undergoing treatment and have decided that it is in my best interest to undergo the treatment recommended. Having been informed of the risks, I hereby give my consent to any treatment rendered to me by Sheridan Chiropractic, it's doctors and staff.

Signature lines for Patient Name (Printed), Signature, Date, Patient Name (Printed), Signature of Parent/Guardian (if minor), Date, Doctor Name (Printed), Doctor's Signature, Date.

HOW WE PROTECT YOUR PRIVATE HEALTH INFORMATION

My "protected health information" (PHI), means personal health information, including my demographic information, collected from me and/or created or received by my physician, medical assistant or other healthcare provider. PHI may relate to my past, present or future physical or mental health or condition that identifies me, or there is a reasonable basis that the information may identify me.

I consent to the use or disclosure of my PHI by Sheridan Chiropractic, Inc. or any owner, employee, contractor or other representative thereof (collectively, "Sheridan Chiropractic"), for the purpose of diagnosing or providing treatment to me, obtaining payment for my healthcare bills or conduct healthcare operations of Sheridan Chiropractic. I understand that Sheridan Chiropractic may refuse to diagnose or treat me, if I do not consent to the use or disclosure of my PHI for the above-stated purposes. My signature on this document establishes my consent to the use or disclosure of my PHI for the above-stated purposes.

I understand I have a right to request a restriction as to how my PHI is used or disclosed to carry out treatment, payment or healthcare operations by Sheridan Chiropractic. Sheridan Chiropractic is not required to agree to the restrictions that I may request. However, if Sheridan Chiropractic agrees to a restriction that I request, the restriction is binding upon Sheridan Chiropractic.

I understand I have a right to review the office's Notice of Privacy Practices prior to signing this document. Sheridan Chiropractic's Notice of Privacy has been provided to me. Sheridan Chiropractic's Notice of Privacy Practices describes the type of uses and disclosures of my PHI that will occur in my treatment, payment of my bills or in the performance of healthcare operations by Sheridan Chiropractic's office. Notice of Privacy Practices also describe my rights and Sheridan Chiropractic's duties with respect to my PHI.

I acknowledge and understand that Sheridan Chiropractic has the right to change the privacy practices described in Sheridan Chiropractic's Notice of Privacy Practices. I may obtain a revised notice of privacy practices by contacting Sheridan Chiropractic's Privacy Officer at dd.sheridanchiro@gmail.com, to request a hard copy to be sent in the mail or by asking for one at the time of my next appointment.

I have the right to revoke this consent, in writing, except to the extent that Sheridan Chiropractic has taken action in reliance on this agreement.

I have read, or have had read to me, the above consent. I have also had an opportunity to ask questions regarding Sheridan Chiropractic's Privacy Policies, and all my questions have been answered fully and satisfactorily.
