

Leadership is what happens when nobody tells you what to do or how to do it

We live in a world that calls for leaders on every level: individuals who have the **courage, strength and skills** to step into challenges, who can relate to the unknown – instead of trying to narrowly exert control.

The ability to **shape the future** requires more than being taught management skills or being introduced to abstract leadership principles. And sustainable behavioural change requires more than typical classroom interaction.

We offer a **unique program** for leaders in Australia: An immersive leadership development experience. A deep simulation over two days. Not just role-plays. Real actors. A world-class learning facility. Instant, individual video-feedback. Focused to strengthen personal capacity and behavioural skills for the real challenges: multi-disciplinary teams, constant pivoting, balancing accountability and collaboration, intergenerational issues, and many more.

We make leaders **see themselves in a way they can't anywhere else**. Alumni tell us they gained deep confidence to tackle the tough day-to-day and the willingness to face unknown situations strategically; leading with more authenticity, effectiveness and verve.

Get to **know the reality** of your leadership

Our next program

Leading Teams to High Performance

17th and 18th April 2019,
9:00 – 5:30
