(57) **CLAIM**

I claim the ornamental design for an indoor electrical wall outlet cover, as shown and described.

DESCRIPTION

A new design for an indoor electrical wall outlet cover with an electrically functional cord is described in the following specification. The design is thin enough to avoid adding bulk to the outlet, thereby enabling furniture to effectively be positioned against the wall, while also effectively covering the outlet so as to act as a child safety device while still allowing ready access to the electrical connection that the outlet affords.

FIG. 1 is a perspective back view of an indoor electrical wall outlet cover of my new design;
FIG. 2 is a back view thereof;
FIG. 3 is a front view thereof;
FIG. 4 is a right side view thereof;
FIG. 5 is a left side view thereof;
FIG. 6 is a top plan view thereof; and,
FIG. 7 is a bottom plan view thereof.

The cord is shown with a symbolic break in its length. The appearance of any portion of the article between the break lines forms no part of the claimed design.

The broken lines shown represent unclaimed subject matter and form no part of the claimed design.

1 Claim, 5 Drawing Sheets
