Section 1.01 Standard Operating Procedures (SOP)

- 1) The information contained in this SOP will be followed and adhered to by each cadet attending ALLECA.
- 2) Each cadet will be tested throughout their attendance at ALLECA by the Director, Class Supervisor, and Staff.
- 3) It is the responsibility of each cadet to read, study, and memorize the SOP before and during their attendance at ALLECA.
- 4) Cadets are required to pay attention to every detail listed in this order.
- 5) The ALLECA staff will have the same orders and enforce these SOP's.

Section 1.02 The United States Flag

- 1) Pledge of Allegiance
 - a. **"I pledge allegiance to the flag of the United States of America, and to the republic for which it stands, one nation under God, indivisible, with liberty and justice for all."**
- 2) The United States Flag has thirteen stripes for the original thirteen colonies and the fifty stars for the fifty states of the Union.
- 3) The Red stripes represent Valor and Hardiness,
- 4) The White stripes represent Purity
- 5) The Blue field represents Vigilance, Perseverance, and Justice.

- 6) What is the military? In simple terms, the U.S. Armed Forces are made up of the six military branches:
 - a. Air Force - The nation's source of air and space power. The primary mission of the USAF is to fly planes, helicopters, and satellites. The Air National Guard as we know it today is a separate reserve component of the United States Air Force.
 - b. Army - The dominant land power. The Army generally moves into an area, secures it, and instills order and values before it leaves. It also guards U.S. installations and properties throughout the world. The Army National Guard is an elite group of warriors who dedicate a portion of their time to serving their nation. Each state has its own Guard, as required by the Constitution; in fact, it is the only branch of the military whose existence is actually required by the Constitution.
 - c. Coast Guard - The Coast Guard's mission is primarily with domestic waterways. The Coast Guard does rescues, law enforcement, drug prevention, and clears waterways.
 - d. Marine Corps - The Marine Corps is known as the U.S.' rapid-reaction force. They are trained to fight by sea and land, and usually are the first "boots on the ground." Marines are known as the world's fiercest warriors.
 - e. Navy - The Navy accomplishes its missions primarily by sea, but also by air and land. It secures and protects the oceans around the world to create peace and stability, making the seas safe for travel and trade.
 - f. Most recently, Space Force - The newest branch of the military, the U.S. Space Force was signed into law in December 2019. The Space Force currently does not have a reserve component. The sixth branch of the military, the Space Force is also still in development and will be for some time as many final decisions are made, including uniforms, basing and even recruitment.
- 7) There are three general categories of military people:
 - a. Active duty (full-time soldiers and sailors)
 - b. Reserve & guard forces (usually work a civilian job, but can be called to full-time military duty)
 - c. Veterans and retirees (past members of the military)
- 8) Who is in Charge of the 6 Military Branches?
 - a. The President of the United States is the Commander in Chief, who is responsible for all final decisions. The Secretary of the Department of Defense (DoD) has control over the military and each branch --except the Coast Guard, which is under the Dept. of Homeland Security. With over 2 million civilian and military employees, the DoD is the world's largest "company."

Section 1.03 The Arizona State Flag

1) The 13 rays of red and gold on the top half of the flag represent both the 13 original colonies of the Union, and the rays of the Western setting sun. Red and gold were also the colors carried by Coronado's Spanish expedition in search of the Seven Cities of Cibola in 1540. The bottom half of the flag has the same Liberty blue as the United States flag. Since Arizona was the largest producer of copper in the nation, a copper star was placed in the flag's center. Flag adopted 1917. The colors blue and gold are the official state colors.

- 2) Arizona History Facts
