

We Love Our Ragdolls!

Ragdolls are large, super soft, peaceful cats with sparkling blue eyes & loveable personalities! Although each Ragdoll has their own unique personality & behavior, they are known to be loving, gentle & social.

They are generally easy going & get along with children & other pets.

They are not all lap cats but love being near their 2 legged & 4 legged family members.

They usually love more attention than regular cats (it might be a good idea to get 2 kittens so they don't get lonely).

Their soft fur is considered medium length or semi-long. They are not considered hypoallergenic but people with allergies can usually tolerate Ragdolls due to them not having an undercoat – this is also the reason they don't develop as many mats or shed as much as other longer haired cats.

Ragdolls were bred for companionship & are the PURRRfect family pet!
