

EASY OPERATION • 2-WAY AUDIO • THROWABLE

MARK-4 THROWABLE SOFT BODY TACTICAL ROBOT™

PATENT PENDING

The Mk-4 is a small, affordable, easy to operate, multi-camera, day/night observation and surveillance public safety rover system. Both the MK-4 and it's OCU have field replaceable batteries with real time voltage indication insuring they will always be ready no matter how long the mission. The MK-4s super wide-angle, low light color cameras combined with its 7-inch color monitor give the operator an unmatched floor to ceiling view that is both detailed and easy to see, day and night. Indoors or outdoors, the MK-4's powerful 4-wheel, direct drive motor system combined with its zero-turn radius can navigate tight spaces, push open unlatched doors and overcome obstacles insuring that it can get to where the operator needs it to be no matter the terrain.

Industry Leading 3 Year No-Fault Warranty
