

EASY TO OPERATE • UNDER DOOR CAMERA • THROWABLE

## MARK-2 SOFT BODY UNDER DOOR CAMERA ROBOT™

PATENT PENDING

The Mark-2 is a small, affordable, easy to operate, remote under door surveillance system. Both the MK-2 and it's OCU have field replaceable batteries with real time voltage indication insuring they will always be ready no matter how long the mission. The MK-2's super wide-angle, low light color camera combined with its 7-inch color monitor give the operator an unmatched floor to ceiling view that is both detailed and easy to see, day and night. The MK-2's powerful 2-wheel, direct drive motor system combined with its zero-turn radius can navigate tight spaces, push open doors and look under closed doors ensuring that it can get to where the operator needs it to be.

### *Industry Leading 3 Year No-Fault Warranty*
