

Job Title: CMM Programmer

Location: Oklahoma City, OK

Terms: Full-Time

About OMADA International OKC:

World-class precision manufacturing organization of state-of-the-art, technical aerospace components and assemblies for the defense, commercial and business jet sectors seeking highly-motivated and talented people to join a winning TEAM. We produce the highest quality products for our customers going into the most technologically advanced aircraft utilizing the brightest minds, technology, TEAM mentality and concepts combined with the latest and greatest in programming and manufacturing equipment.

We are currently seeking qualified, self-starting, driven and highly motivated individuals capable of passing background and drug screen for the following position:

About the Role:

The qualified candidate should be able to program CMM equipment with the use of Verisurf Software. Considerations for experience with other platforms shall depend on length of time and comprehension of the skills below.

Required Skills:

- Complete and thorough understanding of GD&T and its application
- Complete understanding of 2D prints.
- Complete understanding of 3D Models and PMI Data
- Ability to read and comprehend customer specifications.
- Working knowledge of fixturing and fixturing concepts
- Ability to demonstrate organizational time management and decision-making skills.
- Ability to manage oneself in an ever-changing priority atmosphere.
- Strong Communication and Interpersonal skills
- Have a customer service-oriented demeanor to support our customers, the production and leadership TEAMS!
- Being able to become part of the TEAM by being part of the TEAM.
- Maintain a professional courteous manner with all vendors, contractors and fellow employees.
- Ability to follow and support the QMS (Quality Management System) and the processes and procedures involved in an AS9100 Certified organization.

Essential Duties and Responsibilities:

- Analyzation of Customer Prints, specifications and 3D data
- Translating the above data into a solid inspection process for the assurance of conformance to the stated engineering requirements
- Translating the process into standardized work instructions for other TEAM members
- Troubleshooting and helping educate lower-level TEAM members

OMADA INTERNATIONAL

- Ability to meet tight deadlines without compromising safety or quality
- College degree preferred but High School graduate + 3 years' experience is acceptable
- US Citizen or valid Green Card holder required
- Relocation assistance provided for the Right Candidate
- Pay commensurate with skills!
