

**Alaska Toy Dogs, LLC**

( Liesel Griffin)

**One year, Genetic and Limited Health Guarantee**

Puppy Description:

Name: \_\_\_\_\_ Breed: \_\_\_\_\_

Color: \_\_\_\_\_ Date of Birth: \_\_\_\_\_

Dam: \_\_\_\_\_ Sire: \_\_\_\_\_

THIS DOCUMENT IS IN EFFECT:

Beginning Date \_\_\_\_\_ to Ending Date \_\_\_\_\_

I guarantee that at the time of sale/shipment, your puppy will be in a good physical health and show no signs of illness. To help insure their health all puppies have been given a veterinarian recommended vaccination series for Parvo, Distemper, Hepatitis, Parainfluenza and Bordetella, and have been dewormed as recommended. Are on a multi vitamin daily upon your care.

I highly recommend you keep them on a multi vitamin and immune system boosters. Thank you!

This Guarantee covers, for 1 full year from BIRTH, the following genetic defects:

Heart problems(arrhythmias, murmurs, cardiomyopathy, etc.)

Liver abnormalities (such as portal systemic shunts)                      Epilepsy

Cleft Palate    Collapsing trachea

Blindness (that is proven genetically related)

Genetic disorders/diseases NOT covered, as they are **not life threatening** include:

Open fontanel    Undescended testicles

Uneven Bite    Hernias

Allergic conditions (to food, pollens, etc.)                                      Luxating Patella

This Guarantee will NOT cover, and is not limited to the following diseases or condition where all preventative measures have been taken that are possible:

Parvo infection    Giardiasis

Distemper infection    Kennel Cough infection

Hepatitis infection    Hypoglycemia(low blood sugar)

Coccidiosis    Internal/External parasites

In order for this guarantee to take effect, you must have your puppy inspected by your vet. **within 48 Hours** of receiving, excluding holidays, and weekends. If your vet finds any fault with your puppy, they or you must scan and send by e-mail ([alaskatoydogslc@gmail.com](mailto:alaskatoydogslc@gmail.com)) the results to us as promptly as possible (within 5 days including holidays and weekends). It is also important that the veterinarian performs a fecal test on your puppy, checking for Coccidia and Giardia, which stress and induce in carrier pups. Have your vet prescribe any necessary treatments and give any necessary additional vaccinations as required.YOUR PUPPY HAS ALREADY HAD A HEALTH EXAM BY MY VET. DOCUMENTATION AVAILABLE UPON REQUEST IF YOU DIDN'T RECEIVE A COPY ALONG WITH YOUR OTHER PURCHASE DOCUMENTS.

If a genetic fault or pre-existing covered condition is found in your puppy, a replacement puppy will be provided to you from the next litter. Shipping charges will be at buyer's expense. I do not make cash refunds on purchased animals and will not be held accountable for any veterinary expenses. Certainly if

your puppy seems ill shortly after arrival, take it to your veterinarian immediately. Stress induced hypoglycemia (low blood sugar) should be checked for and treated for immediately.

If your puppy should become ill within 48 hours of arrival, and a specific diagnosis is made, contact us and we will consider whether to replace the puppy on a case by case basis. **Again, we will NOT be held accountable for any incurred veterinary expenses. AND DO NOT DO CASH REFUNDS!**

I can only estimate the size and color that your puppy will be but can't guarantee the size of your puppy at maturity.

Signed, Liesel A. Griffin ( Alaska Toy Dogs, LLC) [www.alaskatoydogs.com](http://www.alaskatoydogs.com)
