

Corporate Finance Academy Application

The Corporate Finance Academy (CFA) is a nine-week paid internship at Freedom Bank. It is held during the summer for college business students entering their junior or senior year in the fall. The days of making copies and filing for internships is over at Freedom Bank. As an intern in the CFA, you will continue the learning experience with things that aren't taught in college - by real-world practitioners, the team that started Freedom Bank from scratch (including Founder, Chairman and CEO Kurt Knutson) - in a real world setting. You will gain firsthand knowledge of the pace of business, soft skills, instructor-led learning, online learning, sales, operations, accounting, credit analysis, loan structuring, negotiation skills, customer meetings, board meetings, management meetings, you will write and produce your own video presentations and you will present to the entire bank before you head back to school.

The Corporate Finance Academy was formed under one of the tenets of the Freedom Founders Forward Foundation (the "Foundation"). The Foundation is a dynamic social platform for, informing, educating and connecting Freedom Bank's community and constituents with a wide spectrum of philanthropic opportunities. Our mission is to enrich the lives of citizens and benevolent organizations by connecting people with causes.

The Foundation is affiliated with Freedom Bancshares, Inc. and its wholly owned subsidiary Freedom Bank which is actively involved where we do business and where our employees are leaders in helping our communities and citizens grow and prosper.

The activities the Foundation engages in are exclusively for charitable, literary and educational purposes. Some of the activities include, but are not limited to, promoting free markets, financial literacy, individual liberties and the lessening of the burdens of government.

Please note, because funds are limited (we're a not-for-profit too!) the Foundation is not always able to fulfill all of the application requests we receive. To increase your probability of success, please take the time to fill out the application as completely as possible. Each application is carefully evaluated to determine general eligibility and compliance with the Foundation's guidelines and available funds.

Please complete the application in its entirety, print, sign, date and email, along with all of the required attachments listed in the application to CorporateFinanceAcademy@FourF.org.

Best Wishes for Your Continued Success!
