Shop Local

Female VO
(quirky minimalistic music)
(loud whisper VO, like you're telling a secret)

VO: We ALL do it.
Some of us LOVE IT... some of us HATE IT. Sometimes it depends on what...
or who... it's for. What is it? (dramatic pause) SHOPPING! (bell ding ding)

(normal VO no whisper)

VO: I get it... shopping, like everything, has changed A LOT. However you do it, please remember to SHOP LOCAL. Your locally owned stores and restaurants need you more than ever. With safety measures in place like extra cleaning, distancing, and mandatory masks, they're making it safe to shop local. Many will even let you order ahead and pick up your items curbside. So, whether you need a sandwich, some shoes, or a screwdriver... think of your locally owned retailers and shop local!

(no music, just the sound of waves on the beach)

Howie: What is Island Style?
