

UBC BUILT

TRAINING

About Us

UBC Built Training Centres provide industry-leading, innovative, harmonized, and safety-focused training solutions for UBC members, contractors, and community stakeholders nationwide. Our training programs are designed to empower individuals with the skills and knowledge needed to promote a workplace culture of safety and excellence.

Scope of Work

Products

- **Safety Certificates**
 - We offer many compulsory and elective safety certificates needed for Secondary School accreditations.
- **Experiential Learning**
 - Broaden your students' knowledge about Carpentry and discover our one-day trade introduction programs.

Services

- **Professional Development**
 - Ask us about hosting your next PD day.
