

“Nina certainly knows her stuff , and puts her heart and soul into helping out some amazing creations.(Romans 1:20) With so many animal/critter mouths to feed they could certainly always use any help /support even if it's just helping to pay in part for constant feed/delivery needs, as well as many other obvious operational cost etc.” J.R. 7/ 2022

“Rose Wolf came to our home to rescue 4 squirrels that had fallen out of their nest. They carefully picked up each baby squirrel, placed each one into a cage and returned them to their facility for rehabilitation. After several weeks had passed, they contacted us to ask if we wanted them returned to our property. We declined to have them returned to us but really appreciated the work they did to care for the baby squirrels.”

“All animals are very well cared for and are released back to the wild as soon as they are old enough and strong enough to survive on their own. Nina has been doing this for over 25 years and works with All Law Enforcement as needed. Thank you Nina and Howard for all your hard work.” L.K. 8/2019

“Best place ever in my life, She’s my grandma, -Keara PS: I love her”

“They came to my rescue when I came upon 7 baby turkeys with no mother to care for them. Rose Wolf is (literally) a lifesaver! Thank you!”

M.E. 6/2017

“They stepped up and took in 5 orphan raccoon babies right away their mother was shot by an idiot and died. They would have all died if they wouldn't have took them. God Bless this rescue for your wonderful work.”
