

**Full IFE WIFI to all screens  
out of one single access point**

*Reduce weight, increase payload and  
fuel savings on every flight*

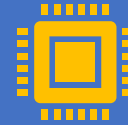

# The unbeatable AIR STREAMER...

- + EASA and FAA DO 160 compliant
- + All WIFI Standards compliant
- + Power supply 28 VDC
- + Weight 1,300 Kg
- + Compact sized

With 41 dB signal strength at 200 MB/S and best competitors at 68 dB, AIR STREAMER doubles range and users per 2 dB difference.

Using newest components technology in the industry, AIR STREAMER is a head of anyone.

A 400 Gr heavy seat WIFI linked to the AIR STREAMER can carry all your current IFE supply and more

Out of one single WIFI accesspoint AIR STREAMER installation is done over night, needing no AOG time.
