DJ Bryan was AMAZING! Communication was consistent and he never made me feel bad for having more questions. He was friendly, easy to work with, and really made sure to check in with us at all times to make sure we were comfortable and having fun. The day of he arrived early, was helpful, and made sure it was everything we wanted it to be. If you are searching for a DJ look no further, you won't regret it!

Dj Bryan was awesome. Leading up to the event, he was both very helpful and accommodating to our circumstance. We leaned on him heavily for his expertise on different parts of the ceremony we were unfamiliar with, and it was a pleasure to work with him. On the day of the event, everything went smoothly and he did a great job managing the music for the whole day. Multiple guests have commented to me unprompted since the day that the DJ was great. I would highly suggest him to any couple interested.
