## NEWSLETTER DEBUTS!

When we started this digital ministry, part of our vision was always to give God glory for all He does and has done for us! Part of that was a newsletter that highlighted the many miracles He did through our ministry. Time got short, people went away, assets went away ... We have been several years without a way to give God glory through a newsletter. This month **THAT CHANGES!**

We are proud to debut our newsletter this month! In the coming months you will see different style, colors, and formats as we try to find one that "Clicks". Our goal will be to give God glory and to inform you of all that is going on in, to, and around this ministry! That sounds like a huge goal and it is! BUT our God is bigger! Please enjoy YOUR new "Newsletter" called **PREACHER'S PAGE**

### NEW PROGRAM "T W I P"

***"This Week In Politics is a new program that is done weekly and can be accessed on this web page " Said Rev. Brian when asked what was new !***

It is a program that will take in depth looks into all things political. This show has been done for almost a year over on YouTube but until recently was not available on this site. One of the major problems with videos is the amount of time you are allowed to store on most sites. However, we have found a way to use up to 8 hours at a time and to link to our site! It is very hard to look into anything in depth when you are put into a time or storage space restriction.
