Margaret S. Johnson, MPsy
Executive Director

Celebrating 30 years
of serving community youth

Roses and Wings Girls Mentoring Program has is a 501(c)3 tax exempt community resource for elementary and middle school girls. It meets on Saturdays from 9:30 am - 12:30 pm during the school year to prevent idle, unsupervised time that can lead young girls to mischief and dangerous activities. Unique strategies are used to intervene, intercept, and inoculate senseless behaviors that often leave young girls with low self-esteem. And, because Saturday is a non-school day where there is no free breakfast or lunch, a healthy, nutritious lunch is provided. We're thankful for God's provision and would love for you to join in our year-end celebration.

This model program's STAR Power techniques (Stop Think Act or Refuse or escape) teaches self efficacy and pairs the girls with constructive and moral story reading, skill based arts and crafts projects that lead to task competition and an "I can do - don't give-up" attitude, and positive dance movements and expression to detoxified urban music, which all together brings about life long peace and harmony; and, leads their precious, innocent lives on the road to "promise".

The graduates have worked hard and are poised to receive their certificate of completion, a Sonya's gift bag, and give-a-way prizes. All to be enjoyed as they share lunch with family, friends, and the community. Consider a donation, gift cards, or give-away items to help make this event a success. Thank you in advance for your support!
