TAYLOR
BLINDS & SHUTTERS Est.1959

HOW TO OPERATE YOUR

TIMBER WOOD SHUTTERS

Louvres are opened by tilting to your desired position using your hands.

If you have a bi-fold configuration, fold the shutters from side closest to wall and gather stacking shutters this way, with the louvres in a closed position. Never attempt to force the bi-fold action.

A hinge handle is supplied for reverse hinged shutters for ease of opening.

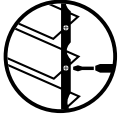

Use the tilt rod (if fitted) to open and close the louvres, alternatively open and close the louvres with your hand.

HOW TO CLEAN

TIMBER WOOD SHUTTERS

Timber shutters are manufactured with a self tensioning clutch louver system and no further tensioning is required.

Frequently clean bottom track from obstructions and dirt, using a vacuum cleaner.

Internal Painted Shutters

Dust frequently and wipe with a mild solution of dishwashing liquid.

External and Stained Shutters

External and stained shutters should be oiled on a 6 monthly basis with a UV protected oil/wax. We suggest Woodoc weatherproof wax (blue bottle).

Do not use any chemical solutions on this product.

Timber Wooded Shutters carry a warranty of 5 years.

Style. Sophistication. Serenity. Not bad for a 60-year old.
